From Nelson George, supervising producer and writer of the hit Netflix series, "The Get Down, Hip Hop America is the definitive account of the society-altering collision between black youth culture and the mass media.

Based on ten years of research among hip-hop producers, Making Beats was the first work of scholarship to explore the goals, methods, and values of a surprisingly insular community. Focusing on a variety of subjects—from hip-hop artists' pedagogical methods to the Afrodiasporic roots of the sampling process to the social significance of "digging" for rare records—Joseph G. Schloss examines the way hip-hop artists have managed to create a form of expression that reflects their creative aspirations, moral beliefs, political values, and cultural realities. This second edition of the book includes a new foreword by Jeff Chang and a new afterword by the author.

In the 1700s, Jean-Jacques Rousseau celebrated the Alps as the quintessence of the triumph of nature over the "horrors" of civilization. Now available in English, *History of the Alps, 1500-1900: Environment, Development, and Society* provides a precise history of one of the greatest mountain range systems in the world. Jon Mathieu's work disproves a number of commonly held notions about the Alps, positioning them as neither an inversion of lowland society nor a world apart with respect to Europe. Mathieu's broad historical portrait addresses both the economic and sociopolitical—exploring the relationship between population levels, development, and the Alpine environment, as well as the complex links between agrarian structure, society, and the development of modern civilization. More detailed analysis examines the relationship between various agrarian structures and shifting political configurations, several aspects of family history between the late Middle Ages and the turn of the twentieth century, and exploration of the Savoy, Grisons, and Carinthia regions.

This is where the 11+ Peer-Compare system comes in: the key to success or failure is how the student performs against peers. FROM THE ACCLAIMED AUTHOR OF THE LAST PEARL AND DANCING AT THE VICTORY CAFE, this is a beautiful novel about family secrets, betrayals and redemption. The secrets in a woman's heart are deeper than the ocean... For May Smith, travelling with her husband and baby girl Ellen, stepping foot on the Titanic marks the start of an incredible journey, one which is destined to take her from the back streets of Bolton to the land of opportunity: the United States. But when the 'unsinkable' Titanic hits an iceberg one cold dark night, May's dreams are instantly shattered. Jumping from the sinking ship at the last minute, May loses sight of Joe and Ellen. Distraught, she is pulled into a lifeboat. Minutes later, the real-life Captain Smith swims to the lifeboat and hands May a baby swaddled in blankets. This rescue is witnessed by fellow survivor, Celeste Parkes, married to an American industrialist who is on her way back to Ohio after her mother's funeral. In horror, they both watch the death throes of the mighty ship; May traumatised, knowing her husband has drowned, Celeste wishing her bully of a husband had been on board and out of her life. As the dawn comes up, and the two women are rescued by the Carpathia, a friendship is formed, one which is destined to transcend the Atlantic and social differences between them and last a lifetime. Then May makes a shocking discovery and a split-second decision which will change the lives of many. Praise for Leah Fleming 'I enjoyed it enormously.It's a moving and compelling story about a lifetime's journey in search of the truth' RACHEL HORE 'A born storyteller' KATE ATKINSON

This book examines the everyday operations of the Gestapo, the Nazi secret police. The Gestapo were able to detect the smallest signs of non-compliance with Nazi doctrines, especially 'crimes' pertaining to the private spheres of social, family, and sexual life. One of the key factors in the enforcement of Nazi policies was the willingness of German citizens to provide the authorities with information about suspected 'criminality'. This book examines women denouncers in Nazi Germany through close examination of the Gestapo files. The author seeks to answer questions about how women in particular used denunciation and why so many ordinary women denounced 'deviants and dissenters' to the Gestapo.

Music and Urban Geography is the first book to theorize musical aspects of the tremendous changes that have overtaken major cities in the developed world over the past few decades. Drawing on musicology, music theory, urban geography, and historical materialism, Krims maps changes not only in how music represents cities, but also in how music sounds and is deployed socially in new urban contexts. Taking on venerable musicological debates from entirely new perspectives, Krims argues that the cultural-studies approach now predominant in cultural musicology fails to address contemporary realities of production and consumption; instead, the social effects of space and new patterns of urban production play a shaping role, in which music takes on new forms and functions, with representation playing a significant but not always decisive role. While music scholars increasingly concern themselves with place, Krims theorizes it together with the shaping role of space. Pushing urban geography into new cultural contexts Music and Urban Geography will offer those concerned with the social effects of space newtheoretical models. Ranging from Anonymous 4 to Alanis Morissette, from Curaçao to Seattle, Music and Urban Geography presents a truly wide-ranging, interdisciplinary, and theoretically ambitious view of both musical and urban change.

The Jablonka Collection is one of the highest-profile repositories of American and German art of the 1980s. In this catalog, the art dealer, gallerist, and curator Rafael Jablonka provides for the first time an insight into his wide-ranging collection, which is dedicated primarily to artists of his own generation--featuring artists like Eric Fischl, Damien Hirst, Roni Horn, Mike Kelly, Sherrie Levine, Thomas Schütte, Terry Winters, and many more. Jablonka has collected art for decades according to the basic principle of assembling multiple works from the different creative phases of artists. Featuring reproductions of some 120 works--paintings, works on paper, sculpture, and installations--the book introduces the oeuvres of the artists in question and presents a representative cross-section of the extensive Jablonka Collection, which was presented to the Albertina in Vienna on permanent loan in 2019.

The last thing either Jana, 13, or Louise, 17, is looking for on this hot and boring summer is a friend of totally the wrong age. But then one day, they abandon their responsibilities and irritating families, and head off in a "borrowed" car for a day by the lake. Their adventure is simple--beer, ice-cream, swimming, singing--but the friendship it forges between them turns out to be profound. When Jana experiences loss, it is only Louise's tender and funny postcards that can haul her out of depression--right out of her bedroom window and off on another adventure.

Excerpt from *The Tyrolese Melodies: Arranged for One or Four Voices With an Accompaniment for the Piano Forte* After the fatigues of a sixty hours passage, we safely arrived at the Custom-house Stairs, and found ourselves at last in London; where the natural apprehension we had been led to entertain, of our exciting too boisterous a notice by our strange appearance, soon entirely subsided, and we ventured to take our way through the

streets, without any other inconvenience than the rather vivacious attendance of a numerous troop of boys. Indescribable is the impression which we received by the sight of the British Metropolis, as its magnitude and seemingly inexhaustible variety progressively opened upon our view In our subsequent surveys, the finer and more open parts of the town not less astonished us by their superiority of aspect and convenience than by their immense extent; the parks, and their contiguous buildings, in particular, calling forth our especial admiration. But what shall we say of the unbounded goodness and liberality which, since our appearance in this great city, have honored and encouraged the humble efforts of the stranger Minstrels beyond their most sanguine expectations? Kind hearts will appreciate for us the sentiments we so imperfectly express; but never shall we be able sufficiently to evince the gratitude we owe to the illustrious and noble characters, who have deigned to regard us with so much condescension and generosity, or the feelings with which we offer to our many excellent friends, and the British public in general, the heartfelt assurances of a mingled thankfulness and respect, which, however subjected to the power of time or distance, can never pass away. Common sense has always been a cornerstone of American politics. In 1776, Tom Paine's vital pamphlet with that title sparked the American Revolution. And today, common sense—the wisdom of ordinary people, knowledge so self-evident that it is beyond debate—remains a powerful political ideal, utilized alike by George W. Bush's aw-shucks articulations and Barack Obama's down-to-earth reasonableness. But far from self-evident is where our faith in common sense comes from and how its populist logic has shaped modern democracy. *Common Sense: A Political History* is the first book to explore this essential political phenomenon. The story begins in the aftermath of England's Glorious Revolution, when common sense first became a political ideal worth struggling over. Sophia Rosenfeld's accessible and insightful account then wends its way across two continents and multiple centuries, revealing the remarkable individuals who appropriated the old, seemingly universal idea of common sense and the new strategic uses they made of it. Paine may have boasted that common sense is always on the side of the people and opposed to the rule of kings, but Rosenfeld demonstrates that common sense has been used to foster demagoguery and exclusivity as well as popular sovereignty. She provides a new account of the transatlantic Enlightenment and the Age of Revolutions, and offers a fresh reading on what the eighteenth century bequeathed to the political ferment of our own time. Far from commonsensical, the history of common sense turns out to be rife with paradox and surprise.
