The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the "need for speed" characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960-1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.

This ultimate Chrysler pony car book features every series and model of pony car made by the Chrysler Corporation in the 1960s and 70's, including the slippery Barracuda and the classic Dodge Challenger.

Chrysler entered the pony-car market with the capable but unlovely Barracuda in the early 1960s. The car was refined over the years, becoming a true muscle car, and a rather handsome

one at that, but it wasn't until the advent of the E-body pony cars from 1970-1974—Barracudas, the Dodge Challenger, and Plymouth 'Cuda—that Chrysler became a true player in the pony-car market. This book tells the story of Chrysler's pony car series, from the advent of the original Barracuda in 1964 to the final days of the smog-motored Challengers and 'Cudas of the mid-1970s, focusing on the series' heyday in the early 1970s.

The 1960s and early 1970s were the age of raw American automotive power. Whether it was a classic Hemi 'Cuda, Pontiac GTO, Charger, or Boss Mustang, big engines were king at local drag strips and cruises. *Muscle Cars* explores this era and the current models with a broad survey of classic muscle and today's new machines. Each chapter is organized around a theme (milestones, factory racers, etc), each model getting a multi-page spread of full-color photography, performance stats, trivia, and more. Photos and stories from the people who built and raced these amazing machines make the book a must-read for any fan of American muscle.

The complete collector's reference to Mopar muscle cars just got even better with updated information covering the Dart, Demon, and 1980s-era Shelby Dodges, as well as recent sensations like the Dodge Viper and Plymouth Prowler. Of course, this information-packed pocketbook also features production numbers, factory colors, options, specifications, engine codes, serial numbers, and much more for such all-time classics as the Barracuda, Chal-

lenger, Charger, Road Runner and Super Bee.
