Andrea Alban is the author of Anya's War, a novel based on her own family's experiences during WWII. As Andrea Alban Gosline, she wrote several picture books, including The Happiness Tree, as well as Mother's Nature: Timeless Wisdom for the Journey into Motherhood and other adult inspirational books.

Anya's War was not what I expected. I knew it was about a Jewish family around the time of World War II--but this family moved to Shanghai, China, where they could live freely as Jews. And in China, the coming war is presented from a different perspective. The main threat comes not from the Nazis, but from the Japanese.

ANYA'S WAR is a beautifully- written story about a Jewish girl on the cusp of womanhood As if the political climate isn't bad enough, the boy she likes is impossibly out of her league. She and her family do their best to adapt to Chinese customs, while holding fast to their Jewish traditions but when Anya finds an abandoned baby girl and decides to bring her home, it appears nothing will be the same again.

Anya kept her mom's Star instead of donating it to the regiment museum, and strived to live up to her mom's example fifteen years later, while serving in the Locust War. After Anya became a frontline soldier herself, she was said to be becoming more like her mother and after her first real battle, wished her mother was there to see her.

Anya's boss, Hayley Wilkes, owns the WeeCook Kitchen in Carnoustie. Her business employs Anya and two other modern apprentices, while also paying for them to go to college.
