1 Reid's recent book, Balancing Human Rights, Environmental Protection and Inter-

national Trade, Lessons from the EU Experience adds to this crucial debate, bringing the debate a step further in the direction of finding answers, solutions, or ways of reconciliation by facilitating a deeper understanding of the regulatory inter-relationship at hand.

The proposed location of the project – at the head of the Irrawaddy in Kachin State – was met with intense public backlash from environmentalists and human rights defenders who were concerned about long-term environmental damage and the forced displacement of local communities. These fears were further compounded by the widespread belief that China's investment into Burma was largely exploitative, with little consideration for transparency and accountability.

It is now accepted that the preservation of the environment is integral to the protection of other rights such as the right to food, right to health and the right to life. Thus, it can be said that the human right to a life of dignity is intrinsically linked to the right to a clean and healthy environment.
