Basic Personal Counselling is an easy to
read introduction to counselling that
reflects current best practice. It teaches
core interviewing skills and provides a
framework of practical examples and train-
ing group exercises to enable students to
progressively build a skill repertoire.
The way in which a counsellor relates with

a client is uncharacteristic of human behaviour (Geldard & Geldard, 2005). As the counsellor devotes most of their energy to listening to and understanding the client, the client will only see a part of the counsellor's character, and under these circumstances, a client could perceive the counsellor to be unrealistically caring and giving.

Overview. Basic Personal Counselling is an easy to read introduction to counselling that reflects current best practice. It teaches core interviewing skills and provides a framework of practical examples and training group exercises to enable students to progressively build a skill repertoire. The book is designed to prepare students for field placement and therefore has a strong vocational focus.
