### 3 Principles for Effective Social Work Case Management ...

Founded in 1955, the National Association of Social Workers (NASW) is the largest membership organization of professional social workers in the world, with more than 120,000 members. NASW works to enhance the professional growth and development of its members, to create and maintain professional standards, and to advance sound social policies.

"Developmental social work" is a relatively newer approach to intervention, one that emphasizes the importance of "social investment" in the practice of social work. This refers to the necessity of material support for social work clients, especially high-risk individuals such as the homeless, elderly, disabled, or those struggling with mental ...

...

As providers, social workers need to ensure that communication occurs on a secure network and the transmission of information is encrypted. Although HIPPA requirements have been loosened during the pandemic crisis, it is best to use a HIPPA-compliant system to deliver telehealth services, if possible.

Boards (ASWB) have developed Best Practice Standards in Social Work Supervision(hereafter "Supervision Standards") to support and strengthen supervision for professional social workers. The standards provide a general framework that promotes uniformity and serves as a resource for issues related to supervision in the social work supervisory community.

Social work practitioners should ensure that their telemental health practice is consistent with the social work code of ethics. Respecting the dignity and worth of persons, recognizing the central importance of human relationships, and behaving in a trustworthy manner apply to tele-mental health sessions as they do for in-person sessions.

This entry describes best practices as these are used in social work. The term best practices originated in the organizational management literature in the context of performance measurement and quality improvement where best practices are defined as the preferred technique or approach for achieving a valued outcome. Identification of best practices requires measurement, benchmarking, and identification of processes that result in better outcomes.

"Splitting the day in deep and shallow work. I usually spend my mornings doing deep work, and I spend the rest of the day doing shallow work." Amir Salihefendić, Founder of Doist. If you know you're more productive after taking a long walk with your dog halfway through the day, you should do that.

Social work believes that acceptance is the crux of all help. Social worker does not condemn or feel hostile towards a client because his behavior differs from the approved one. The principle of acceptance implies that social worker must perceive, acknowledge, receive and establish a relationship with the individual client as he actually is, not as social worker wishes him to be or think he should be.
