At Talladega if the race were 187 laps long they would only have

covered 497.42 miles while 188 laps are 500.08 miles so which do they use? NASCAR always rounds up so the Aarons 499 is 188 laps long and actually goes 500.08 miles. It's a nice marketing trick that 499 miles are exactly the same race distance as 500 miles at Talladega.

The Ocean Race is the toughest test of a team in sport – and sailing's greatest round-the-world challenge. Since 1973, winning the Race has been an obsession for the world's best sailors – Olympic champions, record breakers and pioneers. With teams racing through the most extreme spots on the planet – closer to the astronauts in the Space Station than anyone else on land – and ...
