Manoeuvres don't have to be tricky! This book covers all the manoeuvres that you need to know for the new driving test that was introduced in December 2017, plus a few extra should you want to try them. Debbie Brewer is a DVSA Approved Driving Instructor and in her experience she has found many different methods for teaching the manoeuvres. The methods described in this book are those that she has found to be most useful to her pupils. "I have often been asked by my pupils to write down step by step instructions for each manoeuvre as we learn them, so that they can take the instructions home. This helps them embed their new knowledge by re-reading about what they have learnt in lesson. It also helps them if they are able to use the book to practice in their own car." The manoeuvres covered in this book include the new test manoeuvres and also the old ones, should you feel like adding to your skills. This book is also helpful to PDIs and ADIs, as finding new ways to teach manoeuvres is always useful!

This volume of the Today's Technician Series details the latest technology in brakes systems as well as thorough coverage of en-

vironmental and safety issues, including the latest in anti-lock brake systems.
