### British Airways - Engineering - MRO

British Airways Engineering has over 80 years of experience in providing maintenance, repair and overhaul services to British Airways and other customers, our operational expertise has fostered a can-do culture centered on finding solutions. Our ethos is always to repair rather than replace.

Created by Newell & Sorell, the new brand kept a similar font to the Landor design but integrated a ribbon that is a distant echo of the Speedbird symbol first used by Imperial Airways in 1932. Delta Air Lines Atlanta-based carrier Delta Air Lines has had 20 different iterations of its logo since its inception in 1928.

### Engineering An Airline - new book from British Airways

### British Airways - Engineering - Line Maintenance

Thousands of British Airways flight crew, cabin crew and engineering teams have worked over several decades on and with the aircraft during their time at British Airways during a period when they represented the heart of the airline's long-haul fleet.

British Airways Engineering is recognised throughout the aviation industry for learning excellence.
