Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

BUSINESS STRATEGY. "The 4 Disciplines of Execution" offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of "The Innovator's Dilemma)." Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it's likely no one even noticed. What happened? The whirlwind of urgent activity required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. "The 4 Disciplines of Execution" can change all that forever.

This practical guide details the skills and techniques needed to manage units in licensed retail organizations in a flexible and entrepreneurial manner.

Now with SAGE Publishing, Timothy S. Hatten's Seventh Edition of Small Business Management equips students with the tools they need to navigate the important financial, legal, marketing, managerial, and operational decisions to help them create and maintain a sustainable competitive advantage in small business. This textbook matches the new specifications with coverage of Unit 4 for the certificate (CIDA) or the diploma (DiDA). Written in a clear and accessible style, the book aids tutors in the delivery of this course, focusing on the skills students need to compile their summative project and e-portfolio.

This book constitutes the refereed proceedings of the 8th European Conference on Modelling Foundations and Applications, held in Kgs. Lyngby, Denmark, in July 2012. The 20 revised full foundations track papers and 10 revised full applications track papers presented were carefully reviewed and selected from 81 submissions. Papers on all aspects of MDE were received, including topics such as architectural modelling and product lines, code generation, domain-specific modeling, metamodeling, model analysis and verification, model management, model transformation and simulation. The breadth of topics, as well as the high quality of the results presented in these accepted papers, demonstrate the maturity and vibrancy of the field.

It also includes extension activities for further development and practice, as well as answers for activities.Each unit of work on a particular text type covers: comprehension writing spelling and word sk

'Business Economics: Theory and Application' is an undaunting and accessible text that focuses on the real world of business and how this relates to economics. The links to business are far more intrinsic than in other business economics textbooks where a business "flavour" is simply added to traditional economics theory. It provides an in-depth jargon-free analysis, particularly relevant for one semester courses. A variety of case studies and questions are used throughout the text both to illustrate key points and for seminar and assignment work. Diagrams are included to aid the explanation of complex issues, and review and discussion questions are incorporated to consolidate and expand on the learning. A lecturer's supplement accompanies the text.
