The Poetical gazette; the official organ of the Poetry society and a review of poetical affairs, nos. 4-7 issued as supplements to the Academy, v. 79, Oct. 15, Nov. 5, Dec. 3 and 31, 1910

What is it that we as a nation are missing? Why, given all our skills, resources and talents, do we settle so often for the ordinary instead of striving to be the best? At the heart of Ignited Minds is an irresistible premise: that people do have the power, through hard work, to realize their dream of a truly good life. Kalam's vision document of aspiration and hope motivates us to unleash the dormant energy within India and guide the country to greatness.

The Routledge Handbook of Indian Defence Policy brings together the most eminent scholarship in South Asia on India's defence policy and contemporary military history. It maps India's political and military profile in South Asia and the Indian Ocean region, and analyses its emergence as a global player. This edition of the handbook: Canvasses over 60 years of Indian defence policy, its relation to India's rising global economic profile, as well as foreign policy shifts; Discusses several key debates that have shaped defence strategies through the years: military doctrine and policy, internal and external security challenges, terrorism and insurgencies; Explores the origins of the modern armed forces in India; evolution of the army, navy and air forces; investments in professional military education, intelligence and net-centric warfare, reforms in paramilitary forces and the Indian police; Comments on India's contemporary strategic interests, focusing on the rise of China, nuclearisation of India and Pakistan's security establishments, and developments in space security and missile defence. Taking stock of India's defence planning architecture over the past decade, this accessibly written handbook will be an indispensable resource for scholars and researchers of security and defence studies, international relations and political science, as well as for government thinktanks and policymakers.

Over the last decade, Nepal has witnessed significant urban growth and an expanding urban middle class. Glimpses of Hope tells the story of the people who enable some of the middle-class consumer practices in urban Nepal. The book focuses on workers in areas such as modern food-processing, water-bottling, housebuilding, and sand-mining industries and explores how workers see such forms of work, where union organization can help, and how work opportunities emerge along lines of gender and ethnicity. Although global labor relations have been mostly in decline for decades, this ethnography offers insights and glimpses of hope in terms of labor dynamics and the opportunities various jobs may afford.

The popularity of Tibetan medicine plays a central role in the international market for alternative medicine and has been increasing and extending far beyond its original cultural area becoming a global phenomenon. This book analyses Tibetan medicine in the 21st century by considering the contemporary reasons that have led to its diversity and by bringing out the common orientations of this medical system. Using case studies that examine of the social, political and identity dynamics of Tibetan medicine in Nepal, India, the PRC, Mongolia, the UK and the US, the contributors to this book answer the following three, fundamental questions: What are the modalities and issues involved in the social and therapeutic transformations of Tibetan medicine? How are national policies and health reforms connected to the processes of contemporary redefinition of this medicine? How does Tibetan medicine fit into the present, globalized context of the medical world? Written by experts in the field from the US, France, Canada, China and the UK this book will be invaluable to students and scholars interested in contemporary medicine, Tibetan studies, health studies and the anthropology of Asia. The Routledge Handbook of South Asian Religions presents critical research, overviews, and case studies on religion in historical South Asia, in the seven nation states of contemporary South Asia: India, Pakistan, Bangladesh, Nepal, Bhutan, Sri Lanka, and the Maldives, and in the South Asian diaspora. Chapters by an international set of experts analyse formative developments, roots, changes and transformations, religious practices and ideas, identities, relations, territorialisation, and globalisation in historical and contemporary South Asia. The Handbook is divided into two parts which first analyse historical South Asian religions and their developments and second contemporary South Asia religions that are influenced by both religious pluralism and their close connection to nation states and their ideological power. Contributors argue that religion has been used as a tool for creating nations as well as majorities within those nations in South Asia, despite their enormous diversity, in particular religious diversity. The Handbook explores these diversities and tensions, historical developments, and the present situation across religious traditions by utilising an array of approaches and from the point of view of various academic disciplines. Drawing together a remarkable collection of leading and emerging scholars, this handbook is an invaluable research tool and will be of interest to researchers and students in the fields of Asian religion, religion in context, and South Asian reli-

gions.

International development efforts aimed at improving girls' lives and education have been well-intended, somewhat effective, but ultimately short-sighted and incomplete. This is because international development efforts often operate under a reductive understanding of the term 'gender' and how it influences the lives of girls and boys. Gender is more commonly conceived by international efforts as characteristics which are ascribed to girls as norms for behaviour. In particular, the analysis in Gender Trouble Makers focuses on the social constructions of gender and the ways in which gender was reinforced and maintained through a case study in rural Nepal. In developing countries like Nepal, promoting access to and participation in existing formal education programme is clearly necessary, but it is not, in itself, sufficient to transform gender power relations in the broader society. When gender is properly addressed as a process, then all stakeholders involved - researchers, governmental officials, and community members - can begin to understand and devise more effective ways to increase both girl and boy students' enrollment, participation, and success in school.

India has the world's fourth largest military and one of the biggest defence budgets. It asserts its political and military profile in South Asia and the Indian Ocean region. The nation has been in the midst of an ambitious plan to modernize its largely Soviet-era arms since the late 1990s and has spent billions of dollars on latest high-tech military technology. This handbook: canvasses over 60 years of Indian defence policy and the major debates that have shaped it; discusses several key themes such as the origins of the modern armed forces in India; military doctrine and policy; internal and external challenges; and nuclearization and its consequences; includes contributions by well-known scholars, experts in the field and policymakers; and provides an annotated bibliography for further research. Presented in an accessible format, this lucidly written handbook will be an indispensable resource for scholars and researchers of security and defence studies, international relations and political science, as well as for government think tanks and policymakers.
