7A1 - BARRON ORR

Uncover the origin, development, and spread of the most famous criminal organization in the world. The Italian Mafia (Cosa nostra) and affiliated organizations changed and influenced the history of modern society from 1800 up to the present day and History of Italian Mafia will talk about all aspects of this story. After an accurate and in-depth analysis in collaboration with professionals in this sector, the author decides to create this quick book with the object to spread an easy-to-read and objective vision of this world phenomenon. This book is the definitive guide to uncover and understand how, when, and why this organization have influenced our society from an economic, social and historical point of view. ✓ We are going to talk about all the most important aspects concerning the origin and history of this organization and how it conquest every corner of our society in a great part of the world. ✓ If you read this book, you're going to learn everything you need to know to understand this phenomenon. ✓ You will increase your historic culture and will learn useful and updated information and notions. Each of the topics listed in this book is treated professionally, every information is the result of accurate studies and analysis. The purpose of this book is to offer a vision of this delicate topic in the most objective way possible, without any kind of prejudice to ensure a work of excellent quality. Very simple reading recommended for everyone. Scroll to the top and get your copy today! Thanks and happy reading!

The Mafia began on a small island in the Mediterranean, Sicily. It grew to become a major political force in Italy, while its tentacles penetrated every aspect of life in the United States. Through drugs, it spread its influence to Britain, Canada and Australia. And through the gangster movies of Hollywood, including *The Godfather* and *Goodfellas*...

She may have had a soap opera private life, which included a very public marriage and breakup with George Jones, among other things, but Tammy Wynette still managed to turn out 17 number one singles during the late '60s and early '70s, the classics "Stand by Your Man," "D-I-V-O-R-C-E," and "Bedtime Story" being just three of them, each of which is compiled in this two-disc set of essential tracks. ~ Steve Leggett

This book provides a comprehensive sociological explanation for the emergence and continuation of organized crime in Chicago. Tracing the roots of political corruption that afforded protection to gambling, prostitution, and other vice activity in Chicago and other large American cities, Robert M. Lombardo challenges the dominant belief that organized crime in America descended directly from the Sicilian Mafia. According to this widespread "alien conspiracy" theory, organized crime evolved in a linear fashion

beginning with the Mafia in Sicily, emerging in the form of the Black Hand in America's immigrant colonies, and culminating in the development of the Cosa Nostra in America's urban centers. Looking beyond this Mafia paradigm, this volume argues that the development of organized crime in Chicago and other large American cities was rooted in the social structure of American society. Specifically, Lombardo ties organized crime to the emergence of machine politics in America's urban centers. From nineteenth-century vice syndicates to the modern-day Outfit, Chicago's criminal underworld could not have existed without the blessing of those who controlled municipal, county, and state government. These practices were not imported from Sicily, Lombardo contends, but were bred in the socially disorganized slums of America where elected officials routinely franchised vice and crime in exchange for money and votes. This book also traces the history of the African-American community's participation in traditional organized crime in Chicago and offers new perspectives on the organizational structure of the Chicago Outfit, the traditional organized crime group in Chicago.

Insiders call it the Craft. Discover the fascinating true story of one of the most influential and misunderstood secret brotherhoods in modern society. Founded in London in 1717 as a way of binding men in fellowship, Freemasonry proved so addictive that within two decades it had spread across the globe. Masonic influence became pervasive. Under George Washington, the Craft became a creed for the new American nation. Masonic networks held the British empire together. Under Napoleon, the Craft became a tool of authoritarianism and then a cover for revolutionary conspiracy. Both the Mormon Church and the Sicilian mafia owe their origins to Freemasonry. Yet the Masons were as feared as they were influential. In the eyes of the Catholic Church, Freemasonry has always been a den of devil-worshippers. For Hitler, Mussolini and Franco, the Lodges spread the diseases of pacifism, socialism and Jewish influence, so had to be crushed. Freemasonry's story yokes together Winston Churchill and Walt Disney; Wolfgang Mozart and Shaquille O'Neal; Benjamin Franklin and Buzz Aldrin; Rudyard Kipling and 'Buffalo Bill' Cody; Duke Ellington and the Duke of Wellington. John Dickie's *The Craft* is an enthralling exploration of a the world's most famous and misunderstood secret brotherhood, a movement that not only helped to forge modern society, but has substantial contemporary influence, with 400,000 members in Britain, over a million in the USA, and around six million across the world.

The ultimate collection of books for life-changing success It's time to stop living your life on the margins and claim the financial success you deserve. Essential Prosperity is a treasury of wisdom

that will empower you to move from a life of want—defined by debt, fear, and missed possibilities—to one of true success. You have the power and potential to create the life of abundance you've always imagined and Essential Prosperity will show you how. Essential Prosperity includes fourteen life changing books from the thought leaders and teachers whose work has changed the world, including: - The Richest Man in Babylon by George S. Clason - Think and Grow Rich by Napoleon Hill - Power of Your Subconscious Mind by Joseph Murphy - As a Man Thinketh by James Allen - Science of Getting Rich by Wallace Wattles - The Game of Life by Florence Scovel Shinn - The Golden Key by Emmet Fox - The Go-Getter by Peter B. Kyne - How to Live on 24 Hours a Day by Arnold Bennett - Acres of Diamonds by Russell Conwell - Creative Mind and Success by Ernest Holmes - The Secret of Success by William Walker Atkinson - The Life Power and How to Use It by Elizabeth Towne - Prosperity by Annie Rix Miltz These experts speak from every background—from self-help and spirituality to finance and business—each of them sharing the secrets to building life changing wealth and prosperity.

The Italian-American mafia has its roots in a mysterious and powerful criminal network in Sicily. While the mythology of the mafia has been widely celebrated in American culture, the true origins of its rituals, laws, and methods have never actually been revealed. John Dickie uses startling new research to expose the secrets of the Sicilian mafia, providing a fascinating account that is more violent, frightening, and darkly comic than anything conceived in popular movies and novels. How did the Sicilian mafia begin? How did it achieve its powerful grip in Italy and America? How does it operate today? From the mafia's origins in the 1860s to its current tense relationship with the Berlusconi government, Cosa Nostra takes us to the inner sanctum where few have dared to go before. This is an important work of history and a revelation for anyone who ever wondered what it means to be "made" in the mob.

The Gambinos--they arrived in America from Sicily when the '20s roared with bootleg liquor. For thirty years they fought a bloody battle for control of New York's underworld to emerge as the nation's richest and most powerful crime family. Now Mafia expert John H. Davis tells their compelling inside story. Here are the chilling details and deceptions that created a vast criminal empire. Here are six decades of the uncontrolled greed and lust for power of such men as Lucky Luciano, Frank Costello, Meyer Lansky, Vito Genovese, Albert Anastasia, Carlo Gambino, Paul Castellano, and John Gotti--men for whom murder and betrayal were business as usual. From the Gambinos' powerful stranglehold on New York's construction, garment, and waterfront industries to the government's onslaught against them in the '80s and '90s, Mafia Dynasty takes you into the mysterious world of blood oaths, shifting alliances, and deadly feuds that will hold you riveted from the first page to the last.

This handbook explores organized crime, which it divides into two main concepts and types: the first is a set of stable organizations illegal per se or whose members systematically engage in crime, and the second is a set of serious criminal activities that are typically carried out for monetary gain.

A History of the Board of Directors of La Cosa Nostra Andy Petepiece The Mafia Commission is a well researched book on the nearly 100 year history of the Mafia's Board of Directors. It begins with the era before the formation of the Commission in 1931 and continues to the famous 1986 trial that brought the Commission to its knees. The reason for the Mafia's adoption of this method of governing is explained as well as its rules and regulations. Many examples are used to illustrate the operation of this entity including a variety of Mafia wars. All the familiar Mafia characters are

within the covers of this history. Personalities like Capone, Lucky Luciano, Joe Bonanno, and Fat Tony Salerno come to life as many of their notorious exploits are described. The now famous RICO laws are explained and the reader will see how they are applied in the 1986 Commission case. An "Afterwards" chapter outlines what became of the defendants, prosecutors, and other major "good guys" as the years passed. Not surprisingly, for some of these characters, the future was pretty dim. The Mafia Commission is an interesting read, packed with Mafia history, explanations of why certain events happened, and the results of these actions. Add in the many character descriptions and most fans of this topic will be pleased to have purchased the book.

The author describes his shattering experience of moving to Italy only to find his visions of paradise crushed under the reality of a nation gripped by terrorism, political ineptitude, and cultural upheaval.

A history of the mafia's rise from the 1880s to the post-World War II era features the stories of Lucky Luciano and Al Capone, noting the role that Prohibition had in the establishment of the mafia's defining characteristics.

'Sicily is the key to everything' Johann Wolfgang von Goethe The author of the classic book on Venice turns his sights to Sicily in this beautiful book full of maps and colour photographs. 'I discovered Sicily almost by mistake . . . We drove as far as Naples, then put the car on the night ferry to Palermo. There was a degree of excitement in the early hours when we passed Stromboli, emitting a rich glow every half-minute or so like an ogre puffing on an immense cigar; and a few hours later, in the early morning sunshine, we sailed into the Conca d'Oro, the Golden Shell, in which the city lies. Apart from the beauty of the setting, I remember being instantly struck by a change in atmosphere. The Strait of Messina is only a couple of miles across and the island is politically part of Italy; yet somehow one feels that one has entered a different world . . . This book is, among other things, an attempt to analyse why this should be.' The stepping stone between Europe and Africa, the gateway between the East and the West, at once a stronghold, clearing-house and observation post, Sicily has been invaded and fought over by Phoenicians and Greeks, Carthaginians and Romans, Goths and Byzantines, Arabs and Normans, Germans, Spaniards and the French for thousands of years. It has belonged to them all - and yet has properly been part of none. John Julius Norwich was inspired to become a writer by his first visit in 1961 and this book is the result of a fascination that has lasted over half a century. In tracing its dark story, he attempts to explain the enigma that lies at the heart of the Mediterranean's largest island. This vivid short history covers everything from erupting volcanoes to the assassination of Byzantine emperors, from Nelson's affair with Emma Hamilton to Garibaldi and the rise of the Mafia. Taking in the key buildings and towns, and packed with fascinating stories and unforgettable characters, Sicily is the book he was born to write.

Forget what you think you know about the Mafia. After reading this book, even life-long mob aficionados will have a new perspective on organized crime. Informative, authoritative, and eye-opening, this is the first full-length book devoted exclusively to uncovering the hidden history of how the Mafia came to dominate organized crime in New York City during the 1930s through 1950s. Based on exhaustive research of archives and secret files obtained through the Freedom of Information Act, author and attorney C. Alexander Hortis draws on the deepest collection of primary sources, many newly discovered, of any history of the modern mob. Shattering myths, Hortis reveals how Cosa Nostra actually obtained power at the inception. The author goes beyond conventional who-shot-who mob stories, providing answers to fresh

questions such as: * Why did the Sicilian gangs come out on top of the criminal underworld? * Can economics explain how the Mafia families operated? * What was the Mafia's real role in the drug trade? * Why was Cosa Nostra involved in gay bars in New York since the 1930s? Drawing on an unprecedented array of primary sources, *The Mob and the City* is the most thorough and authentic history of the Mafia's rise to power in the early-to-mid twentieth century.

MAFIA. CAMORRA. 'NDRANGHETA. The Sicilian mafia, known as Cosa Nostra, is far from being Italy's only dangerous criminal fraternity. The country hosts two other major mafias: the camorra from Naples; and, from the poor and isolated region of Calabria, the mysterious 'ndrangheta, which has now risen to become the most powerful mob group active today. Since they emerged, the mafias have all corrupted Italy's institutions, drastically curtailed the life-chances of its citizens, evaded justice, and set up their own self-interested meddling as an alternative to the courts. Yet each of these brotherhoods has its own methods, its own dark rituals, its own style of ferocity. Each is uniquely adapted to corrupt and exploit its own specific environment, as it collaborates with, learns from, and goes to war with the other mafias. Today, the shadow of organized crime hangs over a country racked by debt, political paralysis, and widespread corruption. The 'ndrangheta controls much of Europe's wholesale cocaine trade and, by some estimates, 3 percent of Italy's total GDP. *Blood Brotherhoods* traces the origins of this national malaise back to Italy's roots as a united country in the nineteenth century, and shows how political violence incubated underworld sects among the lemon groves of Palermo, the fetid slums of Naples, and the harsh mountain villages of Calabria. *Blood Brotherhoods* is a book of breathtaking ambition, tracing for the first time the interlocking story of all three mafias from their origins to the present day. John Dickie is recognized in Italy as one of the foremost historians of organized crime. In these pages, he blends archival detective work, passionate narrative, and shrewd analysis to bring a unique criminal ecosystem—and the three terrifying criminal brotherhoods that have evolved within it—to life on the page.

have evolved within it—to life on the page.

Using records of the Italian government's recent inquiry into the Mafia, this history shows the crime organization's beginnings as a group of cattle rustlers in nineteenth-century Sicily and traces its growth to global dimensions

A collection of advice for the aspiring manager draws on the Mafia's reputation for understanding the dynamics of human nature, offering such maxims as "If you must lie, be brief" and "Keep your friends close, but keep your enemies closer"

The Bonanno Family is a well-researched book on the 100-plus-year history of one of New York's infamous La Cosa Nostra organizations. It begins with an outline of the first Bosses, and ends with Boss Mikey Mancuso demoting his Acting Boss and Consigliere. Some of the important events covered included the 1931 killing of Boss of Bosses Salvatore Maranzano, the formation of the Commission, and the dates of the national meetings of La Cosa Nostra. Among those was the infamous 1957 gathering of mob Bosses held at Boss Joseph Barbara's estate. Long-time leader Joseph Bonanno is profiled in this book, as are all his successors. I examine Bonanno's role in the killing of Salvatore Maranzano and Bonanno's alleged kidnapping in 1964. The book covers the Commission's expulsion of Bonanno and his son Salvatore and their many years after that historic event. There are three chapters on the long-ignored Montreal, Canada, wing of the Bonanno Family. This group eclipsed any New York Family in terms of wealth and reach. Due to their deep involvement in the drug trade, the Montreal crew operated worldwide, unlike the New York Families. Most readers of *La Cosa Nostra* will recognize many of the characters from its history. The book provides details on well-known hoods such as Carmine Galante, Dominick "Sonny Black" Napolitano, Joe Massino, Anthony Spero, and Vincent Basciano. American Mafia followers will get to know Canadian Mafia powers like Nicolo Rizzuto, Vito Rizzuto, Vic Cotroni, Paulo Violi and powerful Associates like Raynald Desjardins.

In 1992 Italy was convulsed by two brazen Mafia assassinations of high-ranking officials. The latest "excellent cadavers" were Giovanni Falcone and Paolo Borsellino, the Sicilian magistrates who had been the Cosa Nostra's most implacable enemies. Yet in the aftermath of the murders, hundreds of "men of honor" were arrested and the government that had protected them for nearly half a century was at last driven from office. This is the story that Stille tells with such insight and immediacy in *Excellent Cadavers*. Combining a profound understanding of his doomed heroes with an unprecedented look into the Mafia's stringent codes and murderous rivalries, he gives us a book that has the power of a great work of history and the suspense of a true thriller. "Riveting...a well-paced and highly informative account stocked with well-drawn characters."--Philadelphia Inquirer "Masterful...[Stille] delivers a stiletto-sharp portrait of the bloodthirsty Sicilian mafia."--Business Week

This exploration of the full diversity of the Italian Antimafia draws on primary sources and interviews to provide the first complete analysis of social, political and grassroots efforts since 1992. This fascinating study looks at Antimafia initiatives within the context of international initiatives against organized crime.

The mafia has always fascinated filmmakers and television producers. Al Capone, Salvatore Giuliano, Lucky Luciano, Ciro Di Marzio, Roberto Saviano, Don Vito and Michael Corleone, and Tony Soprano are some of the historical and fictional figures that contribute to the myth of the Italian and Italian-American mafias perpetuated onscreen. This collection looks at mafia movies and television over time and across cultures, from the early classics to the Godfather trilogy and contemporary Italian films and television series. The only comprehensive collection of its type, *Mafia*

Movies treats over fifty films and TV shows created since 1906, while introducing Italian and Italian-American mafia history and culture. The second edition includes new original essays on essential films and TV shows that have emerged since the publication of the first edition, such as *Boardwalk Empire* and *Mob Wives*, as well as a new roundtable section on Italy's "other" mafias in film and television, written as a collaborative essay by more than ten scholars. The edition also introduces a new section called "Double Takes" that elaborates on some of the most popular mafia films and TV shows (e.g. *The Godfather* and *The Sopranos*) organized around themes such as adaptation, gender and politics, urban spaces, and performance and stardom.

The Japanese Yakuza. The Chinese Triads. The Sicilian Cosa Nostra. The Calabrian N'Drangheta. The New York Mafia. The Russian Vory -v -Vakone. Today, mafias operate across the globe, with hundreds of thousands of members and billions of dollars in revenue. From Hong Kong to New York, these vast organizations spread their tentacles into politics, finance and everyday life. But what is it like to belong to the Mafia? How do you join? What does it do to your loved ones? How do you make it to the top? And what happens if you break the rules? Criminologist Federico Varese draws on a lifetime's research to give us access to some of the world's most secretive societies. Mixing reportage with case studies and historical insights, this is the story of mafia as it really is: filled with boredom and drama, death and disaster, ambition and betrayal. Infiltrating initiation ceremonies from Russia to England, visiting exclusive gambling clubs in Macau and Mafia summits in Dubai luxury hotels, Varese builds up a unique picture of life in the mafia from the inside.

Buon appetito! Everyone loves Italian food. But how did the Italians come to eat so well? The answer lies amid the vibrant beauty of Italy's historic cities. For a thousand years, they have been magnets for everything that makes for great eating: ingredients, talent, money, and power. Italian food is city food. From the bustle of medieval Milan's marketplace to the banqueting halls of Renaissance Ferrara; from street stalls in the putrid alleyways of nineteenth-century Naples to the noisy trattorie of postwar Rome: in rich slices of urban life, historian and master storyteller John Dickie shows how taste, creativity, and civic pride blended with princely arrogance, political violence, and dark intrigue to create the world's favorite cuisine. *Delizia!* is much more than a history of Italian food. It is a history of Italy told through the flavors and character of its cities. A dynamic chronicle that is full of surprises, *Delizia!* draws back the curtain on much that was unknown about Italian food and exposes the long-held canards. It interprets the ancient Arabic map that tells of pasta's true origins, and shows that Marco Polo did not introduce spaghetti to the Italians, as is often thought, but did have a big influence on making pasta a part of the American diet. It seeks out the medieval recipes that reveal Italy's long love affair with exotic spices, and introduces the great Renaissance cookery writer who plotted to murder the Pope even as he detailed the aphrodisiac qualities of his ingredients. It moves from the opulent theater of a Renaissance wedding banquet, with its gargantuan ten-course menu comprising hundreds of separate dishes, to the thin soups and bland polentas that would eventually force millions to emigrate to the New World. It shows how early pizzas were disgusting and why Mussolini championed risotto. Most important, it explains the origins and growth of the world's greatest urban food culture. With its delectable mix of vivid storytelling, groundbreaking research, and shrewd analysis, *Delizia!* is as appetizing as the dishes it describes. This passionate account of Italy's civilization of the table will satisfy foodies, history buffs, Italophiles, travelers, students -- and anyone who loves a well-told tale.

The editors of LIFE Magazine present *The Godfather*.

In *MAFIA REPUBLIC*, John Dickie, Professor of Italian Studies at University College, London and author of the international best-sellers *COSA NOSTRA* and *MAFIA BROTHERHOODS*, shows how the Italian mafias have grown in power and become more and more interconnected, with terrifying consequences. In 1946, Italy became a democratic Republic, thereby entering the family of modern western nations. But deep within Italy there lurked a forgotten curse: three major criminal brotherhoods, whose methods had been honed over a century of experience. As Italy grew, so did the mafias. Sicily's Cosa Nostra, the camorra from Naples, and the mysterious 'ndrangheta from Calabria stood ready to enter the wealthiest and bloodiest period of their long history. Italy made itself rich by making scooters, cars and handbags. The mafias carved out their own route to wealth through tobacco smuggling, construction, kidnapping and narcotics. And as criminal business grew exponentially, the mafias grew not just more powerful, but became more interconnected. By the 1980s, Southern Italy was on the edge of becoming a narco-state. The scene was set for a titanic confrontation between heroic representatives of the law, and mafiosi who could no longer tolerate any obstacle to their ambitions. This was a war for Italy's future as a civilized country. At its peak in 1992-93, the 'ndrangheta was beheading people in the street, and the Sicilian mafia murdered its greatest enemies, investigating magistrates Giovanni Falcone and Paolo Borsellino, before embarking on a major terrorist bombing campaign on the Italian mainland. Today, the long shadow of mafia history still hangs over a nation wracked by debt, political paralysis, and widespread corruption. While police put their lives on the line every day, one of Silvio Berlusconi's ministers said that Italy had to 'learn to live with the mafia'; suspicions of mafia involvement still surround some of the country's most powerful media moguls and politicians. The latest investigations show that its reach is astonishing: it controls much of Europe's wholesale cocaine trade, and representatives from as far away as Germany, Canada and Australia come to Calabria to seek authorisation for their affairs. Just when it thought it had finally contained the mafia threat, Italy is now discovering that it harbours the most global criminal network of them all.

The word "mafia," Sicilian in origin, is synonymous with Italy, but Italy is home to several different mafias, with three being particularly notorious. While the Cosa Nostra of western Sicily is the most infamous, other powerful groups include the ferocious 'Ndrangheta of Calabria and the Camorra, the third-largest mafia, which is active in Naples and the Campania region. A "mafia" is loosely defined as a criminal organization that is interested in social, economic and political power, combining elements of a traditional secret society with those of a business, but further levels of nuance are necessary in order to understand these groups. In a general sense, this is because each mafia creates a myth about the development of the organization, which becomes like an unquestionable truth. In essence, part of what makes its members so completely loyal to it is also what makes outsiders so utterly afraid of it. Over the course of the 19th century, the people of Sicily found themselves at the center of a struggle for freedom, one that ended up being long and often very bloody. It was during these crucial years of struggle that the Sicilian mafia, *La cosa nostra* ("Our thing"), started to take shape. The original word "mafia" was a part of Palermitan slang, and although the origins of the word are not completely certain, some linguistic historians believe it originally meant "flashy." One historian of the mafia, Salvatore Lupo, helpfully suggests that it was used in its earliest iterations to vaguely refer to a "pathological relationship among politics, society and criminality." In the particular case of the Ca-

morra, the difficulty of understanding an underground criminal association is made all the more intense because it is so heterogeneous in terms of its development, its different functions, and the diversity of economic sectors in which it operates. To reflect that diversity, some scholars like to refer to it as Camorre, the plural version of Camorra. This decision is more than just a question of semantics, because using the plural form helps emphasize the internal differences and conflicts within the Neapolitan mafia, which, in turn, helps explain the very nature of the organization itself. The Neapolitan mafia is famous for its pervasive nature, which is due to the fact that it is organized in a horizontal, decentralized way. This means there is not one single "boss" who dictates policy and can be more strategic in how and when violence is deployed. Unlike other mafias, in the Camorra there has been no long-term reigning family, nor extensive coordination between families to form an alliance and function as a unified mafia for their shared benefit. The 'Ndrangheta (pronounced an-drang-et-ah) is a close neighbor of the Cosa Nostra and currently considered the most powerful (and difficult to spell) criminal organization in Italy. The 'Ndrangheta is centered around Calabria, the most southwestern region of Italy, almost touching the Sicilian city of Messina. Though it began as far back as the late 19th century, it was not until the 1950s that the 'Ndrangheta started to spread its tentacles throughout Italy and then across the entire globe, forming an empire that now ranges from Australia and Turkey to Chile to Canada. The fact that the 'Ndrangheta is overshadowed by the Sicilian Cosa Nostra, as well as by the Neapolitan mafia, the Camorra, allowed it to grow and develop outside of the public eye. For years, people actually considered the Calabrian mafia to be part of the Cosa Nostra as a mere appendage, rather than its own entity. This false belief was perpetuated by the high-profile Sicilian pentito, Tommaso Buscetta, and it was not until the beginning of the 21st century that the 'Ndrangheta came into the public eye due to two dramatic killings, the assassination of a politician and the "Duisburg massacre."

In *MAFIA REPUBLIC*, John Dickie, Professor of Italian Studies at University College, London and author of the international best-sellers *COSA NOSTRA* and *MAFIA BROTHERHOODS*, shows how the Italian mafias have grown in power and become more and more interconnected, with terrifying consequences. The *Financial Times* described John Dickie's *MAFIA BROTHERHOODS* as 'Powered by the sort of muscular prose that one associates with great detective fiction' and in *MAFIA REPUBLIC* John Dickie again marries outstanding scholarship with compelling storytelling. In 1946, Italy became a democratic Republic, thereby entering the family of modern western nations. But deep within Italy there lurked a forgotten curse: three major criminal brotherhoods, whose methods had been honed over a century of experience. As Italy grew, so did the mafias. Sicily's Cosa Nostra, the camorra from Naples, and the mysterious 'ndrangheta from Calabria stood ready to enter the wealthiest and bloodiest period of their long history. Italy made itself rich by making scooters, cars and handbags. The mafias carved out their own route to wealth through tobacco smuggling, construction, kidnapping and narcotics. And as criminal business grew exponentially, the mafias grew not just more powerful, but became more interconnected. By the 1980s, Southern Italy was on the edge of becoming a narco-state. The scene was set for a titanic confrontation between heroic representatives of the law, and mafiosi who could no longer tolerate any obstacle to their ambitions. This was a war for Italy's future as a civilized country. At its peak in 1992-93, the 'ndrangheta was beheading people in the street, and the Sicilian mafia murdered its greatest enemies, investigating magistrates Giovanni Falcone and Paolo Borsellino, before embarking on a major terrorist bombing cam-

paign on the Italian mainland. Today, the long shadow of mafia history still hangs over a nation wracked by debt, political paralysis, and widespread corruption. While police put their lives on the line every day, one of Silvio Berlusconi's ministers said that Italy had to 'learn to live with the mafia'; suspicions of mafia involvement still surround some of the country's most powerful media moguls and politicians. The latest investigations show that its reach is astonishing: it controls much of Europe's wholesale cocaine trade, and representatives from as far away as Germany, Canada and Australia come to Calabria to seek authorisation for their affairs. Just when it thought it had finally contained the mafia threat, Italy is now discovering that it harbours the most global criminal network of them all.

An eye-catching format and strong look, coupled with this great price, makes this book a great reference read or a fine gift for those interested in the Mafia.

An illustrated history of the Mafia, focusing on this highly developed criminal organization both as a cult subject and an important social phenomenon. Movie classics like *The Godfather* epitomize our fascination with the underworld of the Mafia, conjuring images of cigar-smoking dons and shoot-outs in pizzerias. But behind the romantic myths of "men of honor" and omertà lies a very real world of murder, racketeering, and organized crime. Marco Gasparini traces the evolution of the Mafia from nineteenth-century Sicily to the streets of twentieth-century New York, to the international cartels that rule the illegal drug and arms trades today. In this authoritative volume he exposes the many secrets of an "octopus" organization that has remained impenetrable for decades, despite the efforts of heroic crime fighters such as New York police officer Joe Petrosino and the similarly ill-fated Italian judge Giovanni Falcone almost a century later. We discover the Mafia's greatest godfathers, underbosses, and "soldiers," as well as its pentiti (or turncoats) and the most formidable wives of Mafiosi. This book not only focuses on the original Sicilian Cosa Nostra and its various branches—such as Al Capone's Chicago Outfit or the still existent Corleonesi—it also features the equally bloody Neapolitan Camorra, which inspired the compelling documentary *Gomorra*, and the Japanese Yakuza, the largest organized crime group in the world today, as well as the ever-growing Russian and Chinese "mafias." Mafia reveals the multi-faceted reality behind a phenomenon that has sparked the popular imagination for decades.

Consulting rare archival sources, Salvatore Lupo traces the web of associations, both illicit and legitimate, that have defined the Sicilian Mafia from 1860 to the present. He focuses on several crucial periods of transformation: the Italian unification of 1860 and 1861, the murder of noted politician Notarbartolo, the fascist repression of the Mafia, the Allied invasion of 1943, the social conflicts that followed each world war, and the major murders and trials of the 1980s. Lupo clarifies the Mafia's cultural codes and situates them within social groups and communities. He also refutes the notion that the Mafia has grown more ruthless in recent decades. Rather than representing a shift from "honorable" crime to immoral drug trafficking and violence, Lupo argues the terroristic activities of the modern Mafia signify a new desire for visibility and a distinct break from the state.

Discover the history of the most famous criminal organization in the World. The Italian Mafia. A New York Times Book Review Notable Book of the Year A New York Public Library Best Book of the Year From the author of *M* and *A Death in Brazil* comes *Midnight in Sicily*. South of mainland Italy lies the island of Sicily, home to an ancient culture that—with its stark landscapes, glorious coastlines, and extraordinary treasure troves of art and archeology—has seduced travelers for centuries. But at the heart of the island's rare beauty is a network of violence and corruption that reaches into every corner of Sicilian life: Cosa Nostra, the Mafia. Peter Robb lived in southern Italy for over fourteen years and recounts its sensuous pleasures, its literature, politics, art, and crimes.

When we think of the Italian Mafia, we think of Marlon Brando, Tony Soprano, and the Corleones iconic actors and characters who give shady dealings a mythical pop presence. Yet these sensational depictions take us only so far. The true story of the Mafia reveals both an organization and mindset dedicated to the preservation of tradition. It is no accident that the rise of the Mafia coincided with the unification of Italy and the influx of immigrants into America. The Mafia means more than a horse head under the sheets it functions as an alternative to the state, providing its own social and political justice. Combining a nuanced history with a unique counternarrative concerning stereotypes of the immigrant, Salvatore Lupo, a leading historian of modern Italy and a major authority on its criminal history, has written the definitive account of the Sicilian Mafia from 1860 to the present. Consulting rare archival sources, he traces the web of associations, both illicit and legitimate, that have defined Cosa Nostra during its various incarnations. He focuses on several crucial periods of transition: the Italian unification of 1860 to 1861, the murder of noted politician Notarbartolo, fascist repression of the Mafia, the Allied invasion of 1943, social conflicts after each world war, and the major murders and trials of the 1980s. Lupo identifies the internal cultural codes that define the Mafia and places these codes within the context of social groups and communities. He also challenges the belief that the Mafia has grown more ruthless in recent decades. Rather than representing a shift from "honorable" crime to immoral drug trafficking and violence, Lupo argues the terroristic activities of the modern Mafia signify a new desire for visibility and a distinct break from the state. Where these pursuits will take the family adds a fascinating coda to Lupo's work.

The Colombo Family The Colombo Family is a well-researched book on the nearly 100-year history of one of New York City's infamous La Cosa Nostra organizations. It begins with the USA arrival of Joe Profaci, the first Boss, and ends in the confusion of the passing of Boss Carmine Persico in 2019. Some of the essential events covered include the 1928 meeting of mobsters in Cleveland, the Castellammarese War of the early 1930s, the Apalachin fiasco of 1957, plus three Colombo Family rebellions. Boss Carmine Persico dominates the narrative as he retained control of the Family from

the mid-1970s until 2019. It was an incredible feat for most of the time he was behind bars. The book includes profiles of many Acting Bosses that Persico appointed to carry out his wishes. Also provided are summaries of many mob trials that the reader will find interesting. Individual chapters contain information on some lesser-known characters, some of whom you hope you never meet. Most readers, familiar with La Cosa Nostra, will recognize many of the characters from this history. The book provides details on well-known hoods such as Joe Profaci, Joe Colombo, Carmine Persico, Joey Gallo, and Michael Franzese.

In the early hours of an August 2007 morning a gunfight broke out in an Italian restaurant in Duisburg, Germany; in less than five minutes over seventy shots were fired into the bodies of six men. Both the victims and the assassins were members of the 'Ndrangheta crime organization. Calabria's Mafia had brazenly shown its savage influence outside Italy for the first time. In The Honored Society award-winning investigative reporter Petra Reski reveals the Mafia menace lurking throughout the world-- from espresso bars in Palermo to European halls of parliament to the corporate headquarters of enormous agricultural firms. In haunting and exquisite prose she explores the Byzantine structure of the 'Ndrangheta, Cosa Nostra and other mafia clans throughout Italy - the code they live by, the destruction they wreak, how they operate within the country and how they operate internationally. She shows how these syndicates dominate everything from nuclear waste disposal to hotel chains to the marijuana trade in Australia and cocaine trafficked throughout the world. Reski shows how figures such as Silvio Berlusconi were made by the Mafia, and how those who dared to defy its codes were broken. A searing portrait of the criminals who have come to control not only Italy but vast swathes of the globe, The Honored Society is a journalistic tour de force.

"Repetto's book earns its place among the best . . . he brings fresh context to a familiar story worth retelling." —The New York Times Book Review Organized crime—the Italian American kind—has long been a source of popular entertainment and legend. Now Thomas Repetto provides a balanced history of the Mafia's rise—from the 1880s to the post-WWII era—that is as exciting and readable as it is authoritative. Structuring his narrative around a series of case histories featuring such infamous characters as Lucky Luciano and Al Capone, Repetto draws on a lifetime of field experience and access to unseen documents to show us a locally grown Mafia. It wasn't until the 1920s, thanks to Prohibition, that the Mafia assumed what we now consider its defining characteristics, especially its octopuslike tendency to infiltrate industry and government. At mid-century the Kefauver Commission declared the Mafia synonymous with Union Siciliana; in the 1960s the FBI finally admitted the Mafia's existence under the name La Cosa Nostra. American Mafia is a fascinating look at America's most compelling criminal subculture from an author who is intimately acquainted with both sides of the street.

Stereotypical representations of the Mezzogiorno are a persistent feature of Italian culture at all levels. John Dickie analyzes these stereotypes in the post Unification period, when the Mezzogiorno was widely seen as barbaric, violent or irrational, an "Africa" on the European continent.

CONTAINS A NEW EPILOGUE!" Mafia Prince is the first-person account of one of the most violent eras in Mafia history —"Little" Nicky Scarfo's reign as boss of the Philly family in the 1980s—written by Scarfo's underboss and nephew, "Crazy" Phil Leonetti. The youngest-ever underboss at the age of 31, Leonetti was at the crux of the violent downfall of the traditional American Mafia in the 1980s when he infiltrated Atlantic City after gambling was legalized, and later turned state's evidence against his own. His tes-

timony directly led to the convictions of dozens of high-ranking made men including John Gotti, Vincent Gigante, and his own uncle, Nicky Scarfo—sparking the beginning of the end of La Cosa Nostra. Just as *The Godfather* and *Boardwalk Empire* defined the early 20th century Mafia, and *Wiseguy* and *Casino* depicted the next great era through the '70s, *Mafia Prince* concludes this epic genre revealing the Mafia's violent final heyday of the 1980s—straight from the horse's mouth.
