Fixed Costs: These are expenses that would be the same even if you did not sell any of your product such as rent, insurance, etc. Our unit cost is: Building rent = \$900 per month / 360 cakes = \$2.50 per cake; Utilities = \$300 per month / 360 cakes = \$.83 per cake; Our helper = \$1600 per month / 360 cakes = \$4.44 per cake; Ingredients = \$10 per cake; So the actual cost to produce a single cake is \$17.77. Organizing Costs:

Definition: Cost Accounting implies a branch of accounting which deals with re-

ording, classifying, accumulation, allocation and control of the cost of production. It captures the incomes and expenditures and prepares statements and reports for the respective period, so as to determine and control costs. It aims at keeping a record of the cost of production, by ascertaining input cost at each level of production including fixed cost such as rent and depreciation.

Answer - Cost accounting is the provision of such analysis and classification of the expenditure as will enable to ascertain the total cost of any particular unit of produc-

tion. Top 13 Process Costing Question & Answer (Cost Accounting) Top 14 Job And Contract Costing Question Answer (Cost Accounting) Q.4.
