Modern corporations are key participants in the new globalized economy. As such, they have been accorded tremendous latitude and granted extensive rights. However, accompanying obligations have not been similarly forthcoming. Chief among them is the obligation not to commit atrocities or human rights abuses in the pursuit of profit. Multinational corporations are increasingly complicit in genocides that occur in the developing world. While they benefit enormously from the crime, they are immune from prosecution at the international level. Prosecuting Corporations for Genocide proposes new legal pathways to ensure such companies are held criminally liable for their conduct by creating a framework for international criminal jurisdiction. If a state or a person commits genocide, they are punished, and international law demands such. Nevertheless, corporate actors have successfully avoided this through an array of legal arguments which Professor Kelly challenges. He demonstrates how international criminal jurisdiction should be extended over corporations for complicity in genocide and makes the case that it should be done promptly.

An Interdisciplinary Approach Criminal Law provides students with an integrated framework for understanding the U.S. criminal justice system with a diverse and inclusive interdisciplinary approach and thematic focus. Authors Katheryn Russell-Brown and Angela J. Davis go beyond the law and decisions in court cases to consider and integrate issues of race, gender, and socio-economic status with their discussion of criminal law. Material from the social sciences is incorporated to highlight the intersection between criminal law and key social issues. Case excerpts and detailed case summaries,

used to highlight important principles of criminal law, are featured throughout the text. The coverage is conceptual and practical, showing students how the criminal law applies in the “real world”—not just within the pages of a textbook.

A groundbreaking exposé about the alarming use of rap lyrics as criminal evidence to convict and incarcerate young men of color Should Johnny Cash have been charged with murder after he sang, “I shot a man in Reno just to watch him die”? Few would seriously subscribe to this notion of justice. Yet in 2001, a rapper named Mac whose music had gained national recognition was convicted of manslaughter after the prosecutor quoted liberally from his album *Shell Shocked*. Mac was sentenced to thirty years in prison, where he remains. And his case is just one of many nationwide. Over the last three decades, as rap became increasingly popular, prosecutors saw an opportunity: they could present the sometimes violent, crime-laden lyrics of amateur rappers as confessions to crimes, threats of violence, evidence of gang affiliation, or revelations of criminal motive—and judges and juries would go along with it. Detectives have reopened cold cases on account of rap lyrics and videos alone, and prosecutors have secured convictions by presenting such lyrics and videos of rappers as autobiography. Now, an alarming number of aspiring rappers are imprisoned. No other form of creative expression is treated this way in the courts. *Rap on Trial* places this disturbing practice in the context of hip hop history and exposes what's at stake. It's a gripping, timely exploration at the crossroads of contemporary hip hop and mass incarceration.
