Appreziate per il loro lavoro durante la guerra e poi dimenticate le pilote degli ATA sono state riscoperte in questi ultimi anni grazie a libri e documentari a loro dedicati. In particolare nel 2012 le veterane ormai novantenni Fredys Sharland, Molly Rose, Joy Lofthouse e Mary Ellis sono state intervistate dalla BBC nell'ambito di una docu-fiction intitolata "Spitfire sisters". Questo libro è un piccolo omaggio a delle pioniere che hanno pilotato un aereo militare, quando ancora poche donne

possedevano persino un brevetto di volo civile da trasporto e molte compagnie aeree ancora non accettavano piloti di sesso femminile. Cristina Contilli, febbraio 2017

This work provides insights into the physical and human geography of Sardinia, the second largest Mediterranean island, with its complex, varied, changing and often hidden features. The title, "Surrounded by Water", recalls the identity of a land whose coastlines and surrounding seas have symbolically represented social, eco-

nomic, political, cultural bridges or walls, meeting or colliding places, over its long and difficult history. Landscapes, seascapes and cityscapes are presented and analysed, together with other aspects, through a descriptive focus and original contributions provided by some local experts, in order to offer scholars and students across the globe a complex and multi-dimensional view of the reality of Sardinia through the lens of its geography. Each chapter of the book offers an in-depth and concise analysis of a specific topic,

through the description of its characteristics and its current variations within the territory of the island. These descriptive aspects will be complemented with insights

related to the research experiences and findings provided by the authors. This book will contribute to stirring new and modern interest about Sardinia, about further regional geographic studies, and

about academic, scientific and cultural exchanges, among peoples and countries with both similar and different histories, identities, issues and hopes.
