RPM resource gcc. The GNU Compiler Collection (GCC) provides a standard conforming and highly portable ISO C and ISO C++ compiler. Found 3 sites for gcc

GCC 4.3 Release Series — Changes, New Features, and Fixes ...

The bootstrap build performed in Section 5.5, “GCC-4.3.2 - Pass 1” built GCC with the -fomit-frame-pointer compiler flag. Non-bootstrap builds omit this flag by default, so apply the following sed to use it in order to ensure consistent compiler builds:

Directory dependency graph for gcc-4.7.3: Directories: directory ...

GCC 4.3 is very old. Just install the latest gcc compiler (probably 4.5 or 4.6) of your distribution with aptitude install gcc g++ and use it. There is no reason to install an old version of GCC if you can use a newer one. FYI GCC 4.7 has just been released on gcc.gnu.org – Basile Starynkevitch Mar 25 '12 at 7:50.

Is there and easy way to install gcc-4.3 on Oneiric ? I really need it because matlab depends on i for the creation of mex-files. I tried changing all my resopistories back to Maverick just to install gcc-4.3 but I get this error: refl_v0p8_linux_and_windows % sudo apt-get install gcc-4.3-multilib libstdc++-4.3-dev Reading package lists...

GCC-4.9.2 - Linux From Scratch

SQLite is a source-only library from the producer. The OS vendor, however, provides a precompiled version. The package named "libsqlite3-dev" puts sqlite3.h into /usr/include, and puts libsqlite3.so into a directory where GCC will find it. Since the questioner does #include <sqlite3.h> in his code, not #include "sqlite3.h", he's trying to use the system version, and the fact that he also ...
