Special music, a bit weird. Certainly this is a magic book! Lizette studied classical double bass, then she later followed jazz studies. Bass player of an Italian punk band (The Snakes - Psychobilly Milano ) she has also had collaborations with internationally renowned artists. " I have been playing the electric bass and the double bass for years. Maybe I strummed, however I made a record, played for a rock star, founded several bands. No, I'm not famous and I don't care. I chose the underground, the shrill music with punk nuances. Rebellious in this too. There are those who play to make money, some to find fame ... I used to play for the "Music" and to look for company and really I don't know why else, was stronger than me. There have been years that I couldn't be without a band, for me it was like being in some kind of wedding ... I worked for years in an office and I remember my colleague one day she said to me: 'Who cares about music! ... but then as soon as she had the opportunity she flew to see the concerts of her favorite star! I worked to support myself and buy instruments. I bought an electric double bass from England! I never forget the incoherent and out of tune phrase of this girl! Music comes from emptiness. Whoever makes music creates from nothing and for this reason approaches the Divine. In this strange music book you will find traditional and curious sounds. Easy pieces to play on the piano. At first you will use one finger and then, with a little practice, you'll use three and maybe even four. - Music is a mysterious mathematics whose elements structure to infinity - Debussy Learning music is like learning a language. So whose language is spoken here? I don't know! But tell me... do you really know who you are? "I enter the woods at dusk. I become a cat. Night falls and I am a panther, lizard and gecko. Here I am, a dragon in the trees. It's morning, I am a butterfly. Look I am a moth and I have a cloak. Invisible and everywhere. I am a note, I am a symphony. I am a drop, I am the sea. I am a woman, I am a star. It's me and it's them. They are, and they are not Look for me and find me. I am the Music" Enjoy your journey, with Love, Lizette On Youtube Channel: Baba Yaga e le altre All the Music of this Book played on the Piano

Nic makes his way home from a busy day at school with a double bass on his back, the symphony of his surroundings in his heart, and a sweet surprise for the reader at the end of his journey. In the nineteenth century, use of the violone, a bass instrument with many sizes and variations, was nearly eliminated from musical repertoires, and its traditional parts were parceled out to other instruments such as the violoncello. The following phases of revival of the double-bass have been hampered by a lack of physical evidence and diligent research into the historical uses of the instrument. The Baroque Double Bass Violone is a comprehensive study that examines a cross-section of standard works to enhance contemporary violone research, and provide information for musicologists, music publishers, ensemble leaders, and revivalists, all of whom have been unable to reconstruct an essential part of Baroque music. This translation finally makes the most exhaustive study of the double bass violone accessible to English-speaking musical enthusiasts. The book includes lists of terminology, the most comprehensive bibliography to date, and 48 illustrations that make this a compendium of string bass research.
