Emergence of FinTech and the LASIC Principles

In Europe, the largest fintech markets are found in the United Kingdom, Germany and France. Furthermore, we document an upsurge in fintech startups following the financial crisis, as the number of fintech startups founded in 2010 was twice as large as in 2008. We also examine why some jurisdictions have a larger fintech market than others.

Fintech and the emergence of finance technology

In a globalised world, there is a need to provide and promote alternative views on economics and finance, geopolitics and societal trends. Islamic socio-economic thinking has far too often been

sidelined and dismissed as being pre-modern or derivative of western thinking, resulting in an unfortunate absence of important and much needed intellectual contributions to the global debate.
