Statistics refers to the study of data by organizing, collecting, interpreting, and analyzing it. The various techniques used in mathematical statistics are differential equations, linear algebra, measure-theoretic probability theory, mathematic analysis and stochastic analysis.

The Essentials is one of the few actual textbooks I still use. The subject matter of research methods and statistics still requires it. This edition of Healey's book is a 'good' textbook because it is well written, follows a logical sequence within each chapter and from chapter to chapter,

and students learn and build a foundation before they ...
