An inspiring new rhetoric that takes some of the best ideas animating the field of composition and makes them teachable. Streamlined and current, Everything's an Argument helps students understand and analyze the arguments around them and raise their own unique voices in response. Lucid explanations cover the classical rhetoric of the ancient Greeks through the multimodal rhetoric of today, with professional and student models of every type. More important than ever, given today's contentious political climate, a solid foundation in rhetorical listening skills teaches students to communicate effectively and ethically. Thoroughly updated with fresh new models, this edition of Everything's an Argument captures the issues and images that matter to students today. LaunchPad for Everything's an Argument provides unique, book-specific materials for your course, such as brief quizzes to test students' comprehension of chapter content and of each reading selection. LearningCurve--adaptive, game-like practice--helps students master important argument concepts, including fallacies, claims, and evidence. Also available in a version with a five-chapter thematic reader.

Beyond Argument offers an in-depth examination of how current ways of thinking about the writer-page relation in personal essays can be reconceived according to practices in the "care of the self" — an ethic by which writers such as Seneca, Montaigne, and Nietzsche lived. This approach promises to revitalize the form and address many of the concerns expressed by essay scholars and writers regarding the lack of rigorous exploration we see in our students' personal essays — and sometimes, even, in our own. In pursuing this approach, Sarah Allen presents a version of subjectivity that enables productive debate in the essay, among essays, and beyond.

In this exuberantly praised book - a collection of seven pieces on subjects ranging from television to tennis, from the Illinois State Fair to the films of David Lynch, from postmodern literary theory to the supposed fun of traveling aboard a Caribbean luxury cruise-liner - David Foster Wallace brings to nonfiction the same curiosity, hilarity, and exhilarating verbal facility that has delighted readers of his fiction, including the bestselling Infinite Jest.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

"Welcome to Writing Unleashed, designed for use as a textbook in first-year college composition programs, written as an extremely brief guide for students, jam-packed with teachers' voices, students' voices, and engineered for fun."--Foreword.

"Fully revised and updated third edition"--Cover.

Eighteen essays by leading scholars in English, speech communication, education, and philosophy explore the vitality of the classical rhetorical tradition and its influence on both contemporary discourse studies and the teaching of writing. Some of the essays investigate theoretical and historical issues. Others show the bearing of classical rhetoric on contemporary problems in composition, thus blending theory and practice. Common to the varied approaches and viewpoints expressed in this volume is one central theme: the 20th-century revival of rhetoric entails a recovery of

the classical tradition, with its marriage of a rich and fully articulated theory with an equally efficacious practice. A preface demonstrates the contribution of Edward P. J. Corbett to the 20th-century revival, and a last chapter includes a bibliography of his works.

INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

Construct effective arguments with UNDERSTANDING ARGUMENTS: AN INTRODUCTION TO INFORMAL LOGIC, International Edition. Primarily an introduction to informal logic, this text provides a guide to understanding and constructing arguments in the context of academic studies and subsequent professional careers. Exercises, discussion questions, chapter objectives, and readings help clarify difficult concepts and make the material meaningful and useful.

This engaging text offers a brief, readable description of our common Western heritage as it began in the first human societies and developed in ancient Greece and Rome, then through the Middle Ages. Providing a tightly focused narrative and interpretive structure, Brian A. Pavlac covers the basic historical information that all educated adults should know. His joined terms "supremacies and diversities" develop major themes of conflict and creativity throughout history. The text is also informed by five other topical themes: technological innovation, migration and conquest, political and economic decision-making, church and state, and disputes about the meaning of life. Written with flair, this easily accessible yet deeply knowledgeable text provides all the essentials for a course on Western civilization.

Everything's an Argument teaches students to analyze the arguments that surround them every day and to create their own. This best-selling text offers proven instructional content by composition luminaries Andrea Lunsford and John Ruskiewicz, covering five core types of arguments. Revised based on feedback from its large and devoted community of users, the seventh edition offers a new chapter on multimedia argument and dozens of current arguments across perspectives and genres, from academic essays and newspaper editorials to tweets and infographics.

Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's "The Subject Is . . ." series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

"Should be in the hands of every history teacher in the country." — Howard Zinn James Loewen has revised Teaching What Really Happened, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.

Cultural messages bombard students daily, laden with unstated rules about what makes our work valuable, our bodies ideal, our connections meaningful. Acting Out Culture empowers students to critically read those messages and use writing to speak back to their culture and question its rules. This book appeals especially to those students who are not full participants in the dominant culture, as well as to their instructors, who want to help students see how subtle (and not so subtle) cultural forces can shape their lives—and how they can challenge and resist those forces. The new edition of Acting Out Culture builds on that success, with provocative readings (more than 50 percent of them new) that challenge the rules we live by; pedagogical tools to encourage students to read, think, and write critically about their culture; and instructional support featuring sample syllabi, additional discussion topics, and ideas for teaching with visuals and online content.
