High-stakes educational testing is a global phenomenon which is increasing in both scale and importance. Assessments are high-stakes when there are serious consequences for one or more stakeholders. Historically, tests have largely been used for selection or for providing a 'licence to practise', making them high-stakes for the test takers. Testing is now also used for the purposes of improving standards of teaching and learning and of holding schools accountable for their students' results. These tests then become high-stakes for teachers and schools, especially when they have to meet externally imposed targets. More recent has been the emergence of international comparative testing, which has become high-stakes for governments and policy makers as their education systems are judged in relation to the performances of other countries. In this book we draw on research which examines each of these uses of high-stakes testing. The articles evaluate the impact of such assessments and explore the issues of value and fairness which they raise. To underline the international appeal of high-stakes testing the studies are drawn from Australia, Africa, the Caribbean, Europe, former Soviet republics and North America. Collectively they illustrate the power of high-stakes assessment in shaping, for better or for worse, policy making and schooling. This book was originally published as a special issue of *Assessment in Education: Principles, Policy & Practice*.

Study & Master Agricultural Sciences Grade 12 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use

course helps learners to master essential content and skills in Agricultural Sciences.

"The Second International Mathematics Study had three major foci: the mathematics curriculum, the ways in which mathematics was taught, and the eventual outcomes of the instructional process as demonstrated by the achievement and attitudes of students"--Page 3.

The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts/Literacy units spanning grades 6-12 that provide student-centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards (CCSS). Reading Closely for Textual Details Making Evidence-Based Claims Making Evidence-Based Claims about Literary Technique (Grades 9-12) Researching to Deepen Understanding Building Evidence-Based Arguments The program approaches literacy through the development of knowledge, literacy skills, and academic habits. Throughout the activities, students develop their literacy along these three paths in an integrated, engaging, and empowering way. Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time, but also contain the complexity of expression necessary for developing college- and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from "making inferences" to "reflecting critically." Students focus on this set of twenty skills throughout the year and program, continually applying them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as "preparing" and "completing tasks" that are essential to students' success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system, centered around the literacy skills and academic habits, allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.

Considers S. 293 and S. 1612, to establish a Board of Higher Education in D.C., a four year college of arts and science into which D.C. Teacher's College would be merged, and establish a two year junior college. The board would be empowered to accredit other D.C. junior colleges.

This product covers the following: • 10 Sample Papers-5 Solved & 5 Self Assessment Papers strictly designed as per the latest CISCE Syllabus & Board Specimen paper • On-Tips Notes & Revision Notes 1000+ concepts for Quick Revision • Mind Maps & Mnemonics for better learning • MCQs & Objective Type Questions 200+MCQs for Practice

Provides a wide variety of statistics dealing with the political, social, and economic organization of the United States

Teaching Statistics in School Mathematics-Challenges for Teaching and Teacher Education results from the Joint ICMI/IASE Study Teaching Statistics in School Mathematics: Challenges for Teaching and Teacher Education. Oriented to analyse the teaching of statistics in school and to recommend improvements in the training of mathematics teachers to encourage success in preparing statistically literate students, the volume provides a picture of the current situation in both the teaching of school statistics and the pre-service education of mathematics teachers. A primary goal of Teaching Statistics in School Mathematics-Challenges for Teaching and Teacher Education is to describe the essential elements of statistics, teacher's professional knowledge and their learning experiences. Moreover, a research agenda that invites new research, while building from current knowledge, is developed. Recommendations about strategies and materials, available to train prospective teachers in university and in-service teachers who have not been adequately prepared, are also accessible to the reader.

National teacher preparation standards in gifted and talented education provide the foundation for research-based practices in gifted education and identify what teachers should know and be able to do to ensure that students with gifts and talents realize their full potential. Because the responsibility for teaching gifted learners and those with potential to achieve at high levels is often shared between gifted education program leaders and teachers in general and special education classrooms, this book shows Pre-K-12 education leaders how to develop partnerships, identify professional development outcomes, design learning activities, plan and implement comprehensive training programs, and evaluate the effectiveness of professional development activities. Special attention is paid to effecting change within a state and school system. Tools provided include sample needs assessments, student and teacher observation instruments, and a sample professional development plan.

Now in its second edition, *How to Read Texts* introduces students to key critical approaches to literary texts and offers a practical introduction for students developing their own critical and close-reading skills. Written in a lively, jargon-free style, it explains critical concepts, approaches and ideas including: - Debates around critical theory - The role of history and context - The links between creativity and criticism - The relationship between author, reader and text. The new edition now includes guidance on analysing a range of multi-media texts, including film and online media as well as the purely literary. In addition to new practical examples, readings, exercises and 'checkpoints' that help students to build confidence in their own critical readings of both primary and secondary texts, the book now also offers guidance on writing fully-formed critical essays and tips for independent research. Comprehensively updated and revised throughout, *How to Read Texts* is an indispensable guide for students making the transition to university study.

OECD's 2001 review of Latvia's education policies and programmes.

Considers S. 1632 and related bills to revise D.C. criminal statutes to require registration of handguns in D.C.
