8.0 FINANCIAL ANALYSIS - Metropolitan Council

Chapter 8 is devoted to a discussion of financial statement analysis, using the data shown in the financial statements to assess the overall financial health of a firm. We begin with a general discussion of financial analysis, who performs it and why.

Course Description Financial statements are designed to show the performance, financial condition, and cash flows of a business. The Interpretation of Financial Statements course reveals how to convert these statements into an open book that can be explored in depth, giving crucial insights to investors, lenders, and creditors. The course does so by describing the structure of the financial ...
