Galapagos (Euronext & NASDAQ: GLPG) is a clinical-stage biotechnology company specialized in the discovery and development of small molecule medicines with novel modes of action. Our pipeline comprises Phase 3, 2, 1 studies, pre-clinical studies and discovery programs in inflammation, fibrosis, and other indications.

~~Who we are - Galapagos~~

Galápagos is the eleventh novel written by American author Kurt Vonnegut. The novel

questions the merit of the human brain from an evolutionary perspective. The title is both a reference to the islands on which part of the story plays out, and a tribute to Charles Darwin on whose theory Vonnegut relies to reach his own conclusions.
