OR. Don't know your approval number? Call 800-437-1171 Enter opt 1 for the first three prompts, and have your System ID available. If you add item(s) to cart and submit your order without the From triage to comprehensive exams, the budget-friendly LOGIQ P9 delivers consistent image quality, comprehensive application coverage, advanced features and ease of use that enable timely, confident decisions.

When we asked ultrasound users like you to describe the ideal general imaging system, you had three words for us. Make it easy.

English; Contact Us ...

The Gel Warmer comes with a digital ultrasound imaging system, and is used to heat Gel that is applied between the patients' skin and the ultrasound probe or transducer. Patients are more calm and relaxed when warmed gel is used. It takes less than 3 hours to heat a full bottle of gel starting at 23° C. Once warmed and heated to room temperature, it maintains the temperature of the heated Gel ...
