"Tells readers how to turn everyday materials and objects into custom stamps and printmaking tools . . . The graphics are colorful and inspiring." —Barbara Delaney, Cloth Paper Scissors Artist and popular workshop instructor Traci Bunkers can turn just about anything into an interesting stamp, printing block, or tool. In this book, she shows readers how to see overlooked, everyday objects in a new way, and how to "MacGyver" them like she does. You'll learn to create fifty-two easy-to-use print blocks and stamp tools, all from inexpensive, ordinary, and unexpected materials—string, spools, bandages, flip flops, ear plugs, rubber bands, school erasers, and a slew of other repurposed and upcycled items. The book also shows how to use those simple tools to make gorgeous multi-layered prints and patterns that can be used to enhance journal covers, stationery, fabrics, accessories, and more.

Repair, reuse and disposal are closely interlinked phenomena related to the service lives and persistence of technologies. When technical artefacts become old and worn out, decisions have to be taken: is it necessary, worthwhile or even possible to maintain and repair, reuse or dismantle them - or must they be discarded? These decisions depend on factors such as the availability of second-hand markets, repair infrastructures and dismantling or disposal facilities. In telling the stories of China's power grid, Canadian telephones, German automobiles and India's shipbreaking business, among others, the contributions in this volume highlight the persistence of technologies and show that maintenance and repair are not obsolete in modern industries and consumer societies.

When local author Dane Starbuck set out several years ago to write the biography of Pierre Goodrich, scion of one of Indiana's most prominent twentieth-century families, he soon discovered that it was impossible to really understand Pierre Goodrich without also closely examining his family. Starbuck's years of research culminated in *The Goodriches: An American Family*, now available from Liberty Fund. This work is a revealing window into the founding ideals of both Indiana and our country, and how our founders meant these ideals to be lived. *The Goodriches: An American Family* begins with the birth of James P. Goodrich in 1864 and continues through the death of his son Pierre F. Goodrich in 1973. As the story of two fascinating and fiercely individualistic men, it is compelling reading, but as author Dane Starbuck says in the preface, "the later chapters of this book are as much a social commentary on American life in the twentieth century as parts of a biography of two accomplished men." In his foreword to *The Goodriches: An American Family*, James M. Buchanan, Nobel laureate in economics and celebrated Liberty Fund author, says, "The Indiana Goodriches are an American family whose leading members, James and Pierre, helped to shape the American century. . . . This biography makes us recognize what is missing from the millennial setting in which we find ourselves. We have lost the 'idea of America,' both as a motivation for action and as a source of emotional self-confidence. We have lost that which the Goodriches possessed." What did the Goodrich family "possess" which made them so unique? A belief in the power of knowledge, the importance of education, and a strong work ethic combined to imbue the Goodrich family with a distinctive sense of civic duty. James Goodrich served as governor of Indiana from 1917 to 1921 and as adviser to Presidents Warren G. Harding, Calvin Coolidge, and Herbert Hoover. During his eulogy of James Goodrich, the Reverend Gustav Papperman explained, "The Governor felt that he had been given talents that were a trust, that he was to administer them faithfully. . . ." According to author Dane Starbuck, "Education was a large part of the Goodriches' work ethos. . . . The family viewed education as a process by virtue of which the individual remained informed, made better business decisions, learned the importance of citizenship, and was given an opportunity for individual self-improvement. Therefore, work and education became the centerpieces of the Goodrich family's ethical and practical life." In later years, Pierre Goodrich, successful businessman and entrepreneur, would set aside a portion of

his estate to found Liberty Fund because he believed that the principles of liberty on which our nation was founded need to be constantly kept before the public.
