### A36 - ALVARO LILLY

---

Medics learned quickly to ignore standing operating procedures in order to save lives but tensions within infantry units created a paradoxical culture of isolation and acceptance. This groundbreaking work examines training and combat experiences of soldiers working in Battalion Aid Stations and those who went as aid men to the line companies.

"From Normandy to the Battle of the Bulge to the end of World War II--one American officer's riveting true story."--Cover.

**\*\*The instant New York Times bestseller\*\*** The untold story of four of the most decorated soldiers of World War II—all Medal of Honor recipients—from the beaches of French Morocco to Hitler's own mountaintop fortress, by the national bestselling author of *The First Wave* "Pitch-perfect."—*The Wall Street Journal* • "Riveting."—*World War II magazine* • "Alex Kershaw is the master of putting the reader in the heat of the action."—*Martin Dugard* As the Allies raced to defeat Hitler, four men, all in the same unit, earned medal after medal for battlefield heroism. Maurice "Footsie" Britt, a former professional football player, became the very first American to receive every award for valor in a single war. Michael Daly was a West Point dropout who risked his neck over and over to keep his men alive. Keith Ware would one day become the first and only draftee in history to attain the rank of general before serving in Vietnam. In WWII, Ware owed his life to the finest soldier he ever commanded, a baby-faced Texan named Audie Murphy. In the campaign to liberate Europe, each would gain the ultimate accolade, the Congressional Medal of Honor. Tapping into personal interviews and a wealth of primary source material, Alex Kershaw has delivered his most gripping account yet of American courage, spanning more than six hundred days of increasingly merciless combat, from the deserts of North Africa to the dark heart of Nazi Germany. Once the guns fell silent, these four exceptional warriors would discover just how heavy the Medal of Honor could be—and how great the expectations associated with it. Having survived against all odds, who among them would finally find peace?

"A truly addictive read" (*Glamour*) about how a young woman's crush on a privileged former classmate becomes a story of love, lies, and dark obsession, offering stark insights into the immigrant experience, as it hurtles to its electrifying ending in this "twisty, unputdownable, psychological thriller" (*People*). Ivy Lin is a thief and a liar—but you'd never know it by looking at her. Raised outside of Bos-

ton, Ivy's immigrant grandmother relies on Ivy's mild appearance for cover as she teaches her granddaughter how to pilfer items from yard sales and second-hand shops. Thieving allows Ivy to accumulate the trappings of a suburban teen—and, most importantly, to attract the attention of Gideon Speyer, the golden boy of a wealthy political family. But when Ivy's mother discovers her trespasses, punishment is swift and Ivy is sent to China, and her dream instantly evaporates. Years later, Ivy has grown into a poised yet restless young woman, haunted by her conflicting feelings about her upbringing and her family. Back in Boston, when Ivy bumps into Sylvia Speyer, Gideon's sister, a reconnection with Gideon seems not only inevitable—it feels like fate. Slowly, Ivy sinks her claws into Gideon and the entire Speyer clan by attending fancy dinners, and weekend getaways to the cape. But just as Ivy is about to have everything she's ever wanted, a ghost from her past resurfaces, threatening the nearly perfect life she's worked so hard to build. Filled with surprising twists and a nuanced exploration of class and race, *White Ivy* is a "highly entertaining," (*The Washington Post*) "propulsive debut" (*San Francisco Chronicle*) that offers a glimpse into the dark side of a woman who yearns for success at any cost.

*Closing with the Enemy* picks up where *D-Day* leaves off. From Normandy through the "breakout" in France to the German army's last gasp in the Battle of the Bulge, Doubler deals with the deadly business of war-closing with the enemy, fighting and winning battles, taking and holding territory. His study provides a provocative reassessment of how American GIs accomplished these dangerous and costly tasks. Doubler portrays a far more capable and successful American fighting force than previous historians—notably Russell Weigley, Martin Van Creveld, and S.L.A. Marshall—have depicted. True, the GIs weren't fully prepared or organized for a war in Europe and have often been viewed as inferior to their German opponent. But, Doubler argues, they more than compensated for this by their ability to learn quickly from mistakes, to adapt in the face of unforeseen obstacles, and to innovate new tactics on the battlefield. This adaptability, Doubler contends, was far more crucial to the American effort than we've been led to believe. Fueled by a fiercely democratic and entrepreneurial spirit, GI innovations emerged from every level within the ranks—from the novel employment of conventional weapons and small units to the rapid retraining of troops on the battlefield. Their most dramatic success, however, was with combined arms warfare—the coordinated use of infantry, tanks, artillery, air power, and engineers—in which they perfected the use of air support for ground operations and tank-

infantry teams for breaking through enemy strongholds. Doubler argues that, without such ingenuity and imaginative leadership, it would have been impossible to defeat an enemy as well trained and heavily fortified as the German army the GIs confronted in the tortuous hedgerow country of northern France, the narrow cobblestoned streets of Aachen and Brest, the dark recesses of the Huertgen Forest, and the frigid snow-covered hills of the Ardennes. Marking the 50th anniversary of the American victory in the Battle of the Bulge, Doubler offers a timely reminder that "the tremendous effects of firepower and technology will still not relieve ground troops of the burden of closing with the enemy." As even Desert Storm suggests, that will likely prove true for future high-tech battlefields, where an army's adaptability will continue to be prized.

"If you survive your first day, I'll promote you." So promised George Wilson's World War II commanding officer in the hedgerows of Normandy -- and it was to be a promise dramatically fulfilled. From July, 1944, to the closing days of the war, from the first penetration of the Siegfried Line to the Nazis' last desperate charge in the Battle of the Bulge, Wilson fought in the thickest of the action, helping take the small towns of northern France and Belgium building by building. Of all the men and officers who started out in Company F of the 4th Infantry Division with him, Wilson was the only one who finished. In the end, he felt not like a conqueror or a victor, but an exhausted survivor, left with nothing but his life -- and his emotions. If You Survive One of the great first-person accounts of the making of a combat veteran, in the last, most violent months of World War II.

Saying that no generation of Americans has produced a finer array of combat commanders than that of World War II, a thirty-year army veteran examines combat leadership throughout the war at every level of command in the U.S. Army. The author argues that although Army chief of staff George C. Marshall's organization and training policies were indispensable, the ultimate victory was the result of spirited leadership and the undaunted courage of those who served, from individual riflemen to the upper echelons of army command. Rather than a history of battles and campaigns, this book is an analysis of leadership in combat over three continents and across two oceans. It looks at how soldiers react in war --how sergeants, lieutenants, captains, and generals direct soldiers in the most intense of all human dramas. The first part focuses on the generals and takes a thematic approach, examining such topics as restoring the fighting spirit and analyzing the unique characteristics required to command special units in combat. The second part examines a special breed of junior leaders who fought the German and Japanese armies on the front lines and whose contributions merit attention. Like war correspondent Ernie Pyle, Kingseed includes both the big and the little to offer a balanced view of what makes a good combat leader.

I am still alive. Barely. My name is Ivy Westfall. I am sixteen years old and a traitor. Three months ago, I was forced to marry the President's son, Bishop Lattimer - as all daughters of the losing side of the war are sold off in marriage to the sons of the winners. But I was different. I had a mission - to kill Bishop. Instead, I fell in love with him. Now I am an outcast, left to survive the brutal savagery of the lands outside of civilization. Yet even out here, there is hope. There is life beyond the fence. But I can't outrun my past. For my actions have set off a treasonous chain of events in Westfall that will change of all our fates - especially Bishop's... And this time, it is not enough to just survive... The Revolution of Ivy is the shattering conclusion to the young adult dystopian Ivy duology, by the author of The Roanoke Girls.

This is a story of strength, of a normal, everyday citizen who has taken from a loving family and placed in extraordinary positions. Bob Moranda fought with honor, courage, conviction, and valor during one of World War II's most critical campaigns- the Battle of the bulge- and when captured suffered as a prisoner of war of the most Germans until released by the Russian Army. For those who want to know what actual combat is like, those who need inspiration to meet life's challenges, and for those who want to know more about he "boys who saved democracy" this is much reading.

No other conflict has sparked the imagination or interest of so many people worldwide as World War Two. Most Americans are patriotic, their interest in World War Two having been stimulated by such movies as "Saving Private Ryan". Hundreds of thousands are the descendants of men who saw service in the Battle of the Bulge. This battle still holds the record for the highest number of American troops engaged in any single pitched battle in the history of the United States Army. Americans of the post-war generations are taking an interest in what their fathers and grandfathers did during the War. Those whose relatives served in the Ardennes often visit Belgium and Luxembourg in an attempt to learn more about those now legendary days of World War Two. This guidebook serves as a memorial to those who served. It will enable those who didn't, to learn something about the hardship endured by a previous generation in the name of freedom.

Much has rightly been written about the physiological and psychological symptoms, known as post-traumatic stress disorder (PTSD), suffered by combat veterans, and their treatment. Much less has been written about the moral, spiritual and existential pain that soldiers experience as a consequence of carrying through the stated purpose of war for the common soldier - kill the enemy until the war is won. Based on his 20+ years' experience of treating combat veterans, Dr Larry Dewey explores the war trauma and life adaptation of combatants over two decades of intensive treatment. He addresses moral, spiritual and existential issues while also attending to the important physiological and psychological symptoms. Using case material, thoughts, experiences and, literally, the words of 65 veterans of various wars, he portrays in depth and with meaningful detail the process of successful treatment and the eventual positive adaptation for these veterans. The volume explores the deep pain and burden of killing and the role of propaganda and love in starting and maintaining war. Through the veterans' stories the author portrays the personal war of the ordinary combatant and the burden of guilt, grief and pain they often carry afterwards. The second part tackles the actual healing process, and part three explores the concepts of sin, confession, mercy, forgiveness, redemption and love, and how veterans have used them in aiding their own recovery from war's grief and moral pain. War and Redemption provides an invaluable tool in the understanding and treatment of PTSD for therapists, veterans and their families. It will also be a fascinating and valuable resource for all those interested in PTSD more generally.

Gerald Linderman has created a seamless and highly original social history, authoritatively recapturing the full experience of combat in World War II. Drawing on letters and diaries, memoirs and surveys, Linderman explores how ordinary frontline American soldiers prepared for battle, related to one another, conceived of the enemy, thought of home, and reacted to battle itself. He argues that the grim logic of protracted combat threatened soldiers not only with the loss of limbs and lives but with growing isolation from country and commanders and, ultimately, with psychological disintegration.

The untold story of the bloodiest and most dramatic march to victory of the Second World War—now a Netflix original series starring Jose Miguel Vasquez, Bryan Hibbard, and Bradley James “Exceptional . . . worthy addition to vibrant classics of small-unit history like Stephen Ambrose’s *Band of Brothers*.”—Wall Street Journal Written with Alex Kershaw's trademark narrative drive and vivid immediacy, *The Liberator* traces the remarkable battlefield journey of maverick U.S. Army officer Felix Sparks through the Allied liberation of Europe—from the first landing in Italy to the final death throes of the Third Reich. Over five hundred bloody days, Sparks and his infantry unit battled from the beaches of Sicily through the mountains of Italy and France, ultimately enduring bitter and desperate winter combat against the die-hard SS on the Fatherland's borders. Having miraculously survived the long, bloody march across Europe, Sparks was selected to lead a final charge to Bavaria, where he and his men experienced some of the most intense street fighting suffered by Americans in World War II. And when he finally arrived at the gates of Dachau, Sparks confronted scenes that robbed the mind of reason—and put his humanity to the ultimate test.

New York Times bestselling and award-winning author Rebecca Cantrell delivers another breakneck thriller. Ivy Corva’s first novel makes her the target of online trolls. As the threats get nastier and her address is posted on the Internet for all to see, she runs from her old life and moves to San Francisco to work for her friend Shelby. But Shelby isn’t there. Shelby threw herself off the Golden Gate Bridge right after their phone call to avoid her own demons: accusations of financial fraud and lying about her new immortality drug. As the world seeks to destroy her friend’s legacy, Ivy searches for the truth. But when Ivy’s trolls move from the virtual world to the real one and Shelby’s foes close in, Ivy fears that the price for the truth will be her life. “Rebecca Cantrell’s *THE GIRL WHO WOULD LIVE FOREVER* is a wildly Hitchcockian tale of friendship and murder set within the cutthroat world of biomedical research. It has a ripped-from-the-headlines authenticity and is written at a blistering pace that left me breathless. I defy anyone to anticipate the twists and shocking revelations in this taut mystery. It’s a pure adrenaline thrill ride.” -- James Rollins, New York Times bestselling author

At the onset of World War II, the U.S. Army was a third-rate ground force of 145,000 with some generals who still believed in the relevance of horse cavalry. Its soldiers were untrained, its doctrine out of date, and its weapons hopelessly obsolete. Four years later, the U.S. Army was engaged in a global war with a force of more than 8 million men armed with modern weapons and equipment. Nothing Less than Full Victory is the story of how American ground troops in Europe managed to defeat one of the most proficient armies in history. The author, a retired lieutenant colonel in the U.S. Army, draws on his twenty years of experience in military logistics and eight years of scholarly research to examine the Army’s remarkable transformation. Focusing on areas rarely considered in other books on World War II, Edward G. Miller analyzes the performance of American soldiers in the 1944-45 campaign in western Europe against a background of logistics, organization, training, and deployment. In doing so, this groundbreaking work refutes decades of assumptions to reset the historical framework for comparison of U.S. and German performance over the course of the campaign. Lieutenant Colonel Miller’s skillful melding of little-known individual and small-unit combat action with the various facets of generating, deploying, and projecting power allows the reader to understand as never before the true significance of what took place. This book is published in cooperation with the Association of the United States Army.

The Book of Deacon Saga is the epic tale of a world besieged by war and at the mercy of dark forces who would see the land and its people wither and die. First Published in 2010, the story has grown significantly, expanding the story into earlier and later eras, exploring the lives of characters both minor and major. The Book of Deacon Anthology is a collection of all currently published stories in the setting: *The Book of Deacon* - The tale of Myranda Celeste, a young woman orphaned by a century long war, and her chance discovery of a fallen soldier's priceless cargo. The find will change her life, sending her on an adventure of soldiers and rebels, wizards and warriors, and beasts both noble and monstrous. Each step will bring her closer to the truth of her potential, of the war, and of the fate of her world. *The Great Convergence* - The second in the Book of Deacon series, *The Great Convergence* continues the tale of young Myranda Celeste. With fresh knowledge of magic and steadfast resolve to see the end of the war that plagues her land, Myranda sets out to find and unite the five fated heroes, the Chosen. Each new warrior brings her world a step closer to peace, but does she have the strength to survive the trials ahead? *The Battle of Verril* - In this, the finale of the Book of Deacon Trilogy, Myranda and the Chosen face their greatest challenges yet. Time is running out, and the Generals are growing desperate. Through victory and defeat, reunion and betrayal, neither the heroes nor their foes will rest until they have seen their task through to the end. The only question is, will it be the end of a war, or the end of times? *Jade* - This short novel, set after the events of *The Book of Deacon*, follows the blessed and cursed life of Jade Rinton. Stripped of her family and kept in a tall tower by a fierce dragon due to the scheming of a mysterious stranger, Jade seems to be living in a twisted fairy tale. She soon learns, though, that fate has its own ideas of who should play each part, and that family is where you find it. *The Rise of the Red Shadow* - Before he was a legendary assassin and mythic hero, the creature known as Lain was just a simple malthrope, frightened and alone. *The Rise of the Red Shadow* tells the story of his tragic youth, beginning with his days on a plantation in Tressor and following him through the painful tragedies and thrilling trials that would one day lead him to greatness in the pages of *The Book of Deacon*. *Entwell Origins: Ayna* - AVAILABLE FOR THE FIRST TIME. The story of Ayna, a young fairy who is cruelly taken from her family, yet finds that this tragedy may have given her the opportunity to become more than she'd ever dreamed. *The Stump and the Spire* - Previously only available as part of the *Neverland's Library* anthology, *The Stump and the Spire* is the story of two children who gain a dark glimpse into the long forgotten past of their world. --- For fans of the series looking to fill in the gaps, or for new readers hoping to gather the whole series, *The Book of Deacon Anthology* is a great way to catch up on the whole saga. Each book is updated with improved formatting, as well as a brief foreword by Joseph R. Lallo, and even a message from the mysterious curator who collected the stories. Read it now and be ready for *The D'Karon Apprentice*, a new Book of Deacon story releasing November 12th, 2015.

Stephen Ambrose, Robert V. Bruce, Arthur Schlesinger, Jr., and nine other eminent American historians offer illuminating comparisons of various aspects of the nation's two costliest wars, including their leaders, their destructiveness, and the American people's feelings about them. UP.

Reveals what life is like for students who are able to study in the Ivy League and explores the myths and secrets of the institutions.

Provides a narrative of the 82nd Airborne Division, who spent more time in combat than any other American airborne unit during World War II, weaving together insightful analysis of the division's ex-

exploits with the voices of soldiers who served there.

The celebrated book that revolutionized the way Americans choose colleges—now fully revised and updated—An Invaluable Guide with virtually no competition, this book helped to establish Loren Pope as one of the nation's most respected experts on the college application process. Now fully revised and updated, *Looking Beyond the Ivy League* offers a step-by-step guide to selecting the right institution, a checklist of specific questions to ask when visiting a college, the secrets to creating good applications and good applicants, and much more. With as few as one-third of college students remaining at the institution they entered as freshmen, finding the right college is harder than ever before. This book makes it easier for students and their parents.

Firsthand accounts and brief biographies describe how Americans were affected by the events surrounding World War II.

(Limelight). A guide for actors, and everyone else, to getting the best for less and surviving, thriving and living the good life in the Big Apple. Here is the ultimate guidebook for the hordes of aspiring young performers who arrive in the Big City determined to climb the ladder to stardom. But the purpose of Craig Wroe, an actor himself, is not to provide instruction on how to refine acting, singing or dancing talents or how to land a job in the chorus of *The Producers*. Plenty of other books do that. His aim is far broader to help you survive in the crowded, frantic, expensive maelstrom that is New York. From finding a decent, reasonably inexpensive place to live to finding competent, reasonably inexpensive dental care, from getting computer training to organize your day-to-day existence to joining a gym to harden your body, from eating well to dressing better all on a tight budget there is virtually no aspect of life in New York that is not covered in this book. And it not only names names; it gives addresses and phone numbers as well. And keep in mind that newly-arrived lawyers, accountants, models, writers you name them need these things too.

Discover the New York Times bestseller that *SLJ* called “A fantastic plot that makes readers think about the blurred lines between right and wrong.” After a brutal nuclear war, the United States was left decimated. A small group of survivors eventually banded together, but only after more conflict over which family would govern the new nation. The Westfalls lost. Fifty years later, peace and control are maintained by marrying the daughters of the losing side to the sons of the winning group in a yearly ritual. This year, it is my turn. My name is Ivy Westfall, and my mission is simple: to kill the president's son—my soon-to-be husband—and return the Westfall family to power. But Bishop Latimer is either a very skilled actor or he's not the cruel, heartless boy my family warned me to expect. He might even be the one person in this world who truly understands me. But there is no escape from my fate. I am the only one who can restore the Westfall legacy. Because Bishop must die. And I must be the one to kill him... The Book of Ivy series is best enjoyed in order. Reading Order: Book #1 *The Book of Ivy* Book #2 *The Revolution of Ivy*

The nationally bestselling author of the *Ten Tiny Breaths* series and *Burying Water*—which *Kirkus Reviews* called “a sexy, romantic, gangster-tinged page-turner”—returns with a new novel packed with romance, plot twists, and psychological suspense. Ivy Lee, a talented tattoo artist who spent the early part of her twenties on the move, is looking for a place to call home. She thinks she might have finally found it working in her uncle's tattoo shop in San Francisco. But all that changes when a robbery turns deadly, compelling her to pack up her things yet again. When they need the best, they

call him. That's why Sebastian Riker is back in California, cleaning up the mess made after a tattoo shop owner who resorted to blackmail and got himself shot. But it's impossible to get the answers he needs from a dead body, leaving him to look elsewhere. Namely, to the twenty-something-year-old niece who believes this was a random attack. Who needs to keep believing that until Sebastian finds what he's searching for. Ivy has one foot out of San Francisco when a chance encounter with a stranger stalls her departure. She's always been drawn to intense men, so it's no wonder that she now finds a reason to stay after all, quickly intoxicated by his dark smile, his intimidating strength, and his quiet control. That is, until Ivy discovers that their encounter was no accident—and that their attraction could be her undoing.

An infantry company commander in the U.S. Army's heralded 1st Infantry Division, Capt. Joseph Turner Dawson led his men through some of the most brutal battles of World War II. From the invasion of North Africa in late 1942 through Sicily and the assault on Normandy to the push toward the German frontier late in 1944, his length of service on the frontlines was extraordinary, and his heroism while holding off the Germans on a ridge near Aachen, Germany, is legendary. Based on Dawson's own combat journal, this book focuses on leadership in combat during the greatest human drama of the twentieth century. Dawson is at the heart of the drama as he describes the strain of constant combat and its effect on the combat infantryman. His writings have been edited by the former chief military historian at the U.S. Military Academy at West Point, Col. Cole C. Kingseed, who succeeds masterfully in capturing the essence of combat leadership through the actions of this citizen-warrior. Although Dawson was an Army officer, the lessons his journal offer cut across service lines to help readers understand what makes a good frontline commander. The book is published in cooperation with the Association of the U. S. Army.

Can you survive high school to get to your dream college? Will you be able to handle the new international competition, social media, cliques, SATs, ACTs, maintaining a 'good enough' GPA all while finding a date to prom? And don't forget student loan debt is higher than ever which means you should also be looking for scholarships. Many of these questions haunt us as we try to get into our dream college. \_e struggle of keeping up often leads to burnout and psychological breakdowns. Because of this increasingly challenging academic world, personal change is a must. While personal change is not taught in the classroom; it is the complete focus of this book. \_is book is to the point and full of content to help you: - Survive in high school social warfare. - Receive the results you want consistently and on time. - Perform under rigorous academic pressure. - Discover what you want out of life. - Relieve stress in the most complex of situations. So if you are an aspiring high schooler looking to get into an IVY league or a student simply looking for some ways to mitigate your stress, this book will help. \_e author dives deep into how the mind works so you will be able to make personal change that will influence every area in your life in a positive way. His tips are tested and taught by the top experts in psychology. If you are interested in changing the course of your life, then open up this book to and the key to The New You.

An illegal immigrant-resident alien becomes a national military hero in WWII, awarded the Medal of Honor, and uses his new-found fame to become a civil rights hero. He inspires his entire generation of Mexican Americans to straighten their backs, lift their heads and see new possibilities they were emboldened to pursue. Achievements were attained that have been dismissed by the Black/White

Paradigm; hence, comparative analysis between Mexican American and African American civil rights history has been explored and conclusions presented. His military and civil rights legacy is relevant to today's hottest issue, immigration reform.

In this remarkably well-written book, Dr. Price examines the epochal transformation of the United States from a largely isolationist nation, to one which has come to play a central role in world affairs, using its vast political resources and, in the final analysis, its military capabilities, to dramatically alter the world order in the twentieth century. This shift required the active promotion of internationalism by key political leaders such as Woodrow Wilson himself, Franklin Roosevelt, and others, often in response to the shifting facts of global power, and working tirelessly to sway American public opinion toward greater involvement in the global arena. When Woodrow Wilson proclaimed that the United States should make the world "safe for democracy," he was enunciating a vision of national duty, already latent in Americans' ideals, which would frame U.S. foreign policy for generations. The book provides a detailed account of one of the great turning points in American and world history, the American embrace of globalism.

The ultimate insider's guide to getting into the nation's most competitive colleges Written by a former senior admissions officer at Harvard University, this book provides keen insights into what it takes to get into America's top schools. With the help of case studies of successful Harvard applicants, Charles Hughes II defines the goals and mission of highly selective schools. He explains the relative weight given to: Academics Extra-curricular activities Personal qualities Intangibles in the admission process Hughes breaks down the components of the application, explaining the significance of each and how they are evaluated. And, drawing upon his extensive experience, he clues readers in on effective ways for applicants to improve their candidacy, including: How to prepare early in high school How to write a better application How to find the school best suited to their interests, personality, and goals With this essential guide, students will be able to present their talents in the best light possible, and create a winning college application.

The first book to bring together wartime experiences from the centuries four major conflicts recreates the exhaustion, emotional pain, bitterness, bravery, and comradeship that has marked the American military experience.

An intimate account based on interviews, letters, and diaries traces the stories of twenty-one young men from Bedford, Virginia, who died on D-Day in Normandy, noting how their lives and deaths continue to impact their families and their community. 75,000 first printing.

"An excellent, balanced history of the 23rd Special Troops . . . may be one of the most important books to come out of World War II." —Engineer Magazine No history of the war in Europe has ever taken into account the actions of the men of the US 23rd Special Troops. These men took part in over twenty-two deception operations against the German army. Some of these operations had tremendous impact upon how the battles in Europe were fought. The men who participated in these actions were sworn to secrecy for fifty years and are only now willing to talk about their role. The 23rd was composed of four main units. A signal deception unit to broadcast fake radio signals, an engineer camouflage unit to set up rubber dummies of tanks and trucks, a combat engineer unit to construct emplacements and provide local security, and a sonic deception company. The sonic unit was developed to fool German listening posts by playing audio recordings of various sounds, such as

tanks moving up or bridges being built. The 23rd was the only tactical deception unit of the American Army in World War II combining all aspects of deception. This book also covers the birthplace of sonic deception, the Army Experimental Station at Pine Camp, and the 23rd's smaller sister unit, the 3133rd Sonic Deception company that saw action for fourteen days in Italy. "Highly recommended reading as being a simply fascinating military history of a hidden aspect of World War II that would have a profound and lasting influence on military strategy and tactics." —Midwest Book Review

Discusses five basic plants that are poisonous and cause rashes and examines the myths about these plants as well as "cures" and home remedies for the rashes that work, appear to work, or don't work at all.

-- Uses a wealth of primary source material, including personal letters and diaries-- Lavishly illustrated with approximately 75 color and 100 black-and-white photographs and illustrations On June 6, 1944, one of the greatest military operations in history succeeded in landing some 155,000 men of the Allied armies on the shores of northern France. Before winning the battle of Normandy in late August, those troops endured some of the most savage and costly fighting of World War II. These ordinary men, far from home, confronted the day-to-day realities of the battlefield. They recall living in the open, surviving on uncertain rations and too little sleep; braving the terror of constant enemy fire and the shock of seeing friends killed and maimed; and suffering the ordeal of killing and of its aftermath. In D-Day, they tell us about those extraordinary days that changed the course of the war.

The Western European and Mediterranean Theaters in World War II is a concise, comprehensive guide for students, teachers, and history buffs of the Second World War. With an emphasis on the American forces in these theaters, each entry is accompanied by a brief annotation that will allow researchers to navigate through the vast amount of literature on the campaigns fought in these regions with ease. Focusing on all aspects surrounding the U.S. involvement in the Western European and Mediterranean theaters, including politics, religion, biography, strategy, intelligence, and operations, this bibliography will be a welcome addition to the collection of any academic or research library. Routledge Research Guides to American Military Studies provide concise, annotated bibliographies to the major areas and events in American military history. With the inclusion of brief critical annotations after each entry, the student and researcher can easily assess the utility of each bibliographic source and evaluate the abundance of resources available with ease and efficiency. Comprehensive, concise, and current—Routledge Research Guides to American Military Studies are an essential research tool for any historian.

The first book in #1 New York Times bestselling author Kim Harrison's Hollows series! All the creatures of the night gather in "the Hollows" of Cincinnati, to hide, to prowl, to party . . . and to feed. Vampires rule the darkness in a predator-eat-predator world rife with dangers beyond imagining—and it's Rachel Morgan's job to keep that world civilized. A bounty hunter and a witch with serious sex appeal and an attitude, she'll bring 'em back alive, dead . . . or undead.

Smarten Up—It's Time to Choose the Right College Think that your life's growth, success, and happiness depend on which college you attend? The higher-profile school, the better, right? Wrong! Neither is true. Written by, yes, a Harvard grad, Harvard Schmarvard rebuts the perception that image is everything when it comes to college and emphasizes this simple fact: What you will be measured

by in life is your talent and energy, not your college's name. Packed with practical information and insider tips, this must-have guide will help you determine which school fits you. Inside, you'll find:

- How to survive the application process without losing your sanity or sense of humor
- Tips on writing essays, visiting campuses, and keeping cool during your college interviews
- The truth about search letter scams and the early admissions game
- Plus loads of other invaluable insight!

So take a deep breath and exhale your worries and fears. Let Harvard Schmarvard debunk the myths, expose you to the truth, and clear your mind so you can weigh what's really important.

In *The Americans at D-Day*, the first volume of this series, John C. McManus showed us the American experience in Operation Overlord. Now, in this succeeding volume, he does the same for the Battle of Normandy as a whole. Never before has the American involvement in Normandy been examined so thoroughly or exclusively as in *The Americans at Normandy*. For D-Day was only one part of the

battle, and victory came from weeks of sustained effort and sacrifices made by Allied soldiers. Presented here is the American experience during that summer of 1944, from the aftermath of D-Day to the slaughter of the Falaise Gap, from the courageous, famed figures of Bradley, Patton, and 'Lightnin' Joe Collins to the lesser-known privates who toiled in torturous conditions for their country. What was this battle really like for these men? What drove them to fight against all sense and despite all obstacles? How and why did they triumph? Reminiscent of Cornelius Ryan's *The Longest Day*, *The Americans at Normandy* takes readers into the minds of the best American strategists, into the hearts of the infantry, into hell on earth. Engrossing, lightning-quick, and filled with real human sorrow and elation, *The Americans at Normandy* honors those Americans who lost their lives in foreign fields and those who survived. Here is their story, finally told with the depth, pathos, and historical perspective it deserves.
