##### IICRC S520-2008 - Standard and Reference Guide for ...

The IICRC S520 Standard and Reference Guide for Professional Mold Remediation (S520; referred to separately in this document as “Standard” or “Reference Guide”) attempts to combine essential scientific principles with practical procedures for remediators facing mold remediation challenges.

##### Newly-Revised ANSI/IICRC S520: 2015 - What You Need to Know

ANSI/IICRC S500-2015 does not attempt to include exhaustive performance characteristics or standards for the manufacture or installation of structural components, materials and contents (personal property). ANSI/IICRC S500-2015 Standard for Professional Water Damage Restoration is a procedural standard.

#### Iicrc S520 Standard And Reference

ANSI/IICRC S520-2015 Standard and IICRC R520 Reference Guide is published as two separate documents: the standard itself and a supplementary reference guide. The procedural standard is supported by the reference guide. The intent is to use the principles outlined in the reference guide as a tool to better understand and apply the standard itself. However, the reference guide is not considered part of this standard. The S520 Consensus Body Chair is Jim Pearson and Vice Chair is Scott Armour.

#### SubPage\_Standards\_14 - IICRC

The S520 is a procedural standard. It is based on reliable remediation principles, review of available scientific and industry literature and information and practical experience. In addition, there has been extensive consultation with, and information obtained from, numerous other sources.
