Invisible War - The Anarchic Heresies of Reverend Raul Antony

Deus Ex: Invisible War is an action role-playing video game developed by Ion Storm and published by Eidos Interactive for Windows and Xbox in 2003 in North America and 2004 in other regions. It is the second game in the Deus Ex series.

An investigative and powerfully emotional documentary about the epidemic of rape of soldiers within the US military, the institutions that perpetuate and cover up its existence, and its profound personal and social consequences.

The world is fighting a war - you could say, it is world war three. But this battle has no exploding bombs, soldiers firing guns, grenades being thrown, or missiles being fired into the air. The enemy is silent, deadly, and invisible, we all have to take care. There are no air raid sirens, warning us that danger is near.
