The Right Man is the first inside account of a historic year in the Bush White House, by the presidential speechwriter credited with the phrase axis of evil. David Frum helped make international headlines when President George W. Bush's 2002 State of the Union address linked international terrorists to Iran, Iraq, and North Korea. But that was only one moment during a crucial time in American history, when a president, an administration, and a country were transformed. Frum worked with President Bush in the Oval Office, traveled with him aboard Air Force One, and studied him closely at meetings and events. He describes how Bush thinks—what this conservative president believes about religion, race, the environment, Jews, Muslims, and America's future. Frum takes us behind the scenes of one of the most secretive administrations in recent history, with revealing portraits of Karl Rove, Karen Hughes, Condoleezza Rice, and many others. Most significant, he tells the story of the transformation of George W. Bush: how a president whose administration began in uncertainty became one of the most decisive, successful, and popular leaders of our time. Before becoming a White House speechwriter, David Frum was a highly regarded author of books and political commentary and an influential voice on the pages of The Wall Street Journal and The Weekly Stan-

ard. His commentary has been described by William F. Buckley as “the most refreshing ideological experience in a generation.” Now, in *The Right Man*, we see Frum as a front-row observer and participant. Not since Peggy Noonan’s account of her time in the Reagan White House has an insider portrayed a sitting president with such precision, verve, honest admiration, and insight. *The Right Man* will command international attention for its thoughtful account of George W. Bush in the midst of his greatest challenge. It will be an essential reference for anyone seeking to understand who our president really is and how he is likely to lead us in the future.

From tween advocate for limb difference and founder of Project Unicorn Jordan Reeves and her mom, Jen, comes an inspiring memoir about how every kid is perfect just the way they are. When Jordan Reeves was born without the bottom half of her left arm, the doctors reassured her parents that she was “born just right.” And she has been proving that doctor right ever since! With candor, humor, and heart, Jordan’s mother, Jen Lee Reeves, helps Jordan tell her story about growing up in an able-bodied world and family, where she was treated like all of her siblings and classmates—and where she never felt limited. Whether it was changing people’s minds about her capabilities, trying all kinds of sports, or mentoring other kids, Jordan has channeled any negativity into a positive, and is determined to create more innovations for people just like her. Her most famous invention, aptly called Project Unicorn, is a special prosthetic (that shoots glitter!) made with the help of a 3-D printer. A real-life superhero, Jordan is changing the world with her foundation, Born Just Right, which advocates and celebrates kids with differences, and helps them live their best possible life—just like Jordan is today!

Most discussions of US decline in global politics couch their arguments and evidence in the most contemporary context. But the US follows a global lineage that has been emerging and evolving for centuries. In 'American Global Pre-Eminence', William R. Thompson argues that systemic leadership is based on a pecking order established by leads in technological innovation, energy, and global reach. The ultimate irony is that as it becomes clearer how these variables interact, the processes under scrutiny may be fundamentally transforming. Thompson asks whether it remain possible for a single

state to lead the global system as in the past.
