Matching of charts for marriage is a very important area of astrology. Matching becomes indispensable if we realise that there are more factors than meet the eye that go to make a marriage not only happy but also lasting. This volume on the important subject of horoscope matching is meant to give a correct idea of the complex process involved in it. It is a complete and comprehensive guide to the intricate art of matching charts. Nowhere in the world except, perhaps, in India have marriages survived lifelong for generations. This is solely because marriages are made on astrological factors. For the first time ever, this book tells you what actually consti-

tutes matching of charts and how to go about it. It shows you how to overcome the situation when charts show marriage breakdown due to: premature death, severe incompatibility, mental and psychological aberrations, loss of spouse, infidelity. It contains practical examples from the author's case studies on: good matching, poor matching, dosharidden matching, dosha-free matching. This book is a compilation of author's editorials that have appeared earlier in The Astrological Magazine. The illustrations and the questions and answers are additional and aimed at clearing some common doubts usually encountered while matching charts will help in removing many misconceptions on the subject amongst the laymen and in educat-

ing the students on the complex art of matching.

Faced with the growing problems of climate change, ecosystem degradation, declining agricultural productivity, and uncertain food security, modern agricultural scientists look for potential relief in an ancient practice. Agroforestry, if properly designed, can mitigate greenhouse effects, maintain ecosystem health and biodiversity, provide food security, and reduce poverty. Poorly implemented agroforestry, however, can not only exacerbate existing problems, but also contribute in its own right to the overall negative effects of our depleted and failing ecosystems. With a diminishing margin for error, a thorough understanding of the ecological processes

that govern these complex systems is, therefore, crucial. Drawing on the collective expertise of world authorities, Ecological Basis of Agroforestry employs extensive use of tables and figures to demonstrate how ecologically sustainable agroecosystems can meet the challenges of enhancing crop productivity, soil fertility, and environmental sustainability. Divided into four sections, this comprehensive volume begins with a study of tree-crop interaction in tropical and temperate climates. Contributions cover above and below ground interactions, alley cropping, tri-trophic interactions, ecologically based pest management, and the chemistry and practical potential of chemically mediated plant interactions. The second section investigates root-mediated below ground interactions and their role in enhancing productivity, soil fertility, and sustainability. It includes an extensive study on litter dynamics and factors affecting nutrient release. Applying ecological modeling of complex agroforestry systems, section three demonstrates the use of computer-based designs to ensure profitability. The final section addresses the socio-economic aspects of agroforestry, supplying

in-depth knowledge of various farming systems and discussing the technological tools that benefit society in different eco-regions around the world.

On Hindu astrology.

He was born a boy, but never felt like one. What was he then? He felt attracted to boys. What did this make him? He loved to dance. But why did others make fun of him? Battling such emotional turmoil from a very young age, Laxminarayan Tripathi, born in a high-caste Brahman household, felt confused, trapped, and lonely. Slowly, he began wearing women's clothes. Over

time, he became bold and assertive about his real sexual identity. Finally, he found his true self-she was Laxmi, a hijra. From numerous love affairs to finding solace by dancing in Mumbai's bars; from being taunted as a homo to being the first Indian hijra to attend the World AIDS Conference in Toronto; from mental and physical abuse to finding a life of grace, dignity, and fame, this autobiography is an extraordinary journey of a hijra who fought against tremendous odds for the recognition of hijras and their rights.

The Ancient Indian astrological system of prediction, namely the Naadi system, is unique in its accuracy in predicting the events in one's life. However, the rules are rather complex and have been closely guarded secrets, through the ages. There are several Naadi systems and each one has its own method, with slight variations. This book deals with its own Naadi method with an assurance for better accuracy in predictions. It presents complex rules of Planetary Progression, Retrogression and Exchange with examples and makes it less ambiguous. The methods of working out planetary positions at any period of time in an individual's life for accurate predictions

are clearly explained in the book. The rules presented in this book are different from one the author had talked about in his earlier book. It uses them to logically address the procedures for accurate predictions. This is an ideal text-book for beginners of astrology.

A most reliable guide to practical astrology, Notable Horoscopes does not contain startling predictions and amazing forecasts. But it is the product of investigations and studies by the author presented here in an orderly and scientific form but in simple language easily understandable by the average reader.

It has been a well-known fact that astrology was called the eye of the Vedas, for it threw light on matters relating to timing events. The conduct of Vedic rituals had to be timed at a specific period, hence astrology was put to this use. In the modern context, this divine science is used to interpret birth charts to have an overview of an individual's personal and professional future in terms of success and prosperity. The book deals with this analysis at great length and enlightens a lay reader about the subject.

"This book introduces the concepts and operation of Vedic Astrology. It presents the components of the astrologers art-the planets, signs, houses and lunar mansions. The author goes into the rules that determine planetary strength, the construction of the divisional charts and the principal combinations, and much more." --

Wing Commander (Retd.) Shashikant Oak of Pune has a great contribution in bringing the Naadi palm leaf based astrological system into limelight. For about past 18 years, he has been conducting an original research on the aforesaid system. His research includes various scientific angles, and has given the whole subject a new dimension. To conduct the original research, he has visited almost all the Naadi centers in India during the course of last 18 years, apart from individually meeting a thousands of persons to take on account the firsthand experiences. He has also presented a detailed paper called 'Comparative Study: Nostradamus and Naadi Granthas.' This revised and enlarged edition includes fresh astonishing experiences such as:- readings from blank paper, appearance of vibhooti upon the palm leaf, shocking episodes of Group Caption Rakesh Nanda

throwing light on the ancient Maharishi's wisdom available in India. First time more than 220 addresses from all over Indian states have been presented in alphabetical order. Excerpts from the interview of Padamshree Dr. Vijay Bhaskar: "As I am a scientist; while thinking about the Naadi palm leaves, my entire focal point was the computational aspect of it. How do the Maharishis know in advance the names and other information about the native? After an in-depth study, I conclude: if the super-computers of ten years from today compute this information, it will take 10,00,00,00,00,00,00,00,000 calculations to collect information of one native. Simply putting, it is mathematically impossible. In the terms of computer science, this is referred to as the NP complete problem." Here is sample how the name of a person appears in the leaf:

Starts with the nakshatra systems under the first part.

This part of Saral Jyotish contains five topics- Bandhan Yoga, Upchaya House, Vipreet Raj Yoga, Dispositors and Shakti Yoga. These are fundamental, but indicate topics of Astrology and are used daily, by

every Astrologer. This book demystifies these concepts and explain them in an easy-to-understand manner, with lots of examples. In-depth explanations and practical application of these topics can help an Astrologer strengthen basic concepts and predict correctly.

Bhriugu Samhita is an astrological classic written by Maharishi Bhriugu in the Vedic Period. This was the first treatise on predictive astrology which formed the basis for further research and analysis. This book is a concise version of the original Bhriugu Samhita. It is specially written to cater to the needs and interests of both laymen and experts. It provides valuable hints on how to find out the character of a native, his moral inclination, and his fortunes and misfortunes in various walks of life. It also imparts useful information with regard to longevity and prosperity of the native, his parents, brothers and children. Self-explanatory content well-segregated into various chapters would enable not only a professional astrologer, but also an amateur to predict with accuracy the future of the native and form an opinion as to how a planet is disposed in a particular nativity.

Planets are positioned in different Rasis (signs) and Bhavas (houses) with respect to a particular ascendant at the particular time of birth. Accordingly, each planet is subjected to many influences as per its placement in a particular rasi and bhava with respect to the placement of other planets. As such, the benefic and malefic tendencies of each planet differ in each horoscope. For example, the benefic or malefic tendency of a planet may differ as per its placement in exaltation/ debilitation rasi, own rasi/star, friendly/enemy rasi/star, different bhavas as per its own lordship and as per its associations and aspects by other friendly/enemy planets, etc. Each of these placements, aspects, associations are not of equal importance and each bhava is also subjected to the influence of different planets. In this book, a methodology is given to evolve the benefic and malefic percentage of a planet and bhavas in a horoscope considering all the influences that they would be subjected to along with suitable weights for each type of the influence. The predictions of all planets as per their benefit or malefic tendencies with respect to their placement in different rasis and bhavas are enumerat-

ed separately under different topics of body, health, temperament and personality, wealth, courage, education, houses and landed property, happiness, children, diseases, enemies, debts, marriage and marital relationship, longevity, prosperity, professions, gains and income, losses and expenditure. Planets are subjected to different influences in a horoscope and they are analysed scientifically giving suitable weights for every condition to arrive at the benefic and malefic percentage of each planet. Similarly bhavas are analysed. Based on these benefic & malefic percentage analysis of planets & bhavas, broad life and yearly predictions can be given. The whole scheme is computerised. This is the second part of the Saral Jyotish series of books. Six topics are discussed in this part. Main topics are Debilitated planets and Retrograde planets. All Debilitated planets for all ascendants are analyzed. Retrogression of planets is discussed with a practically applicable approach. Other topics covered are Vargottam, Kartari, Kemdrum and Planetary war. The practical application of these rules is explained with examples.

Medical astrology is a specialized branch

of Vedic astrology. It is an extraordinary predictive and counseling tool. A horoscope indicates good, bad or indifferent traits and physical, emotional or spiritual characteristics of the native as per the Karmic flow. A chart is only the representation of one's Karmic implications in one's life through planetary influences. The medical astrology helps in understanding well in advance where the human chain is the weakest in the physical body and why. An astute astrologer will be able to diagnose disease and the diseased body part merely by analysis of the horoscope. He should be able to tell the susceptibility or the resistance which a native has for a particular disease. He may be able to tell the period of onset/ recovery from the disease and can also suggest the remedial measures to reduce its severity without any side effect. Once this is known, it will be easier for medicos to quickly arrive at the cause and place of diseased body part and the treatment to which the patient will respond. The diseases are generally indicated by the malefic influences of planets. Houses, signs and Nakshtras wherein the planets are placed indicate tendencies, susceptibility, resistance and potential of various ail-

ments in the body. When these potential will manifest depends upon the dasha periods and transit of planets. The numbers of diseases which a native may have to encounter are numerous. However this book touches upon 112 diseases with the help of 102 illustrative charts. The last (16th) chapter of this book is devoted to common astrological remedies with a new Karmic and practical point of view to propitiate evil planets causing ailments.

A native suffers or enjoys (with the former having a dominant part) in life as per his prarbdha/destiny. Astrology does indicate what one has to endure and what one can overcome. Whereas great strides have been taken and wonderful results obtained regarding influence of planets, both benefic & malefic, on human beings, the same can not be said about finding out the remedies for their malefic results. Each remedy is basically a prayer to the Almighty to bail the native out of a difficult situation. It is our Kartvya Karma as part of Prarbdha/Kiryaman Karma to observe remedial actions to keep our body and mind healthy. In a horoscope, destiny/luck is indicated by 9th house and 3rd house repre-

sents Purshartha, the free will or Kiryaman Karma, done with a strong will & belief to smoothen the path of destiny. The life or the path of human development is a story of constant struggle between the destiny and Purshartha/remedies, with dices heavily decked against the later. The success of the remedies rests upon the strong will, belief & faith one has in the remedy and one's total unconditional surrender before the relevant deity. There are various modes of remedies, one can chose from depending on his faith/belief, like colour therapy & Gems, Mantra, Yantra, Tantra & Rudraksh, bath, fast & charity, propitiation of curses and age old folk treatments of Lal Kitab. All these have been covered in this book as an aide-memoire to a native in his fight against misfortune.

This is not just a book. It is actually an encyclopedia of KP astrology. Written in a very lucid manner with example charts make this a very unique one to read. Everyone who have some interest in KP astrology will definitely going to be benefited through this book. The best thing about the book is that it contains everything for a beginner and for an expert too.

Light on Life brings the insight and wisdom

of Indian astrology to the Western reader. Jyotish, or Indian astrology, is an ancient and complex method of exploring the nature of time and space and its effect upon the individual. Formerly a closed book to the West, the subject has now been clarified and explained by Hart de Fouw and Dr. Robert Svoboda, two experts and long-term practitioners. In Light on Life they have created a complete and thorough handbook that can be appreciated and understood by those with very little knowledge of astrology.

First a little background about the book. The moment this book came out in the market, it became instant bestseller. In fact, there is nothing to be surprised about it, as the very name of Narayan Dutt Shrimali suggests mastery over the subject, and any book on palmistry or astrology written by him deserves such reception by readers. According to palmistry our destiny is imprinted on our palms. The thinnest line on the palm has its own significance - even a single thread-line is important. Given the vast scope of the subject, this authoritative book on palmistry contains all aspects of this ancient art with

clear illustrations and completes information in simple language. The author has given the gist of Indian as well as western views on palmistry and has maintained the fundamental differences and causes thereof. This practical self-learning compendium illustrates more than 240 palmistry combinations (Yog) which have been thoroughly explained. Not only the common readers but also experts of astrology and palmistry will also be greatly benefited by this book. #v&spublishers  
Astronomically, the intersection points of

the sun and moon - on their movements in the celestial sphere - are called Rahu and Kethu. They are also called the north node and south node. Rahu and Kethu are unimaginably huge dark shadows in space. During their transit, when their shadow falls on any planet, that planet's all-effects will be completely altered or diverted by Rahu and Kethu. Rahu and Kethu are solely responsible for a beggar to become a millionaire and a millionaire to become a beggar. This book elaborately discusses the effects of Rahu and Kethu. In the horoscope, how Rahu and Kethu are positioned,

how the planets and the houses (Bhavas) are affected by them in the birth chart are all analysed in this book. How and when the natives will be affected? To what extent they will be affected? It is because of the birth chart, the transit movement and the Dhasa Bhukthi of Rahu and Kethu? They are all clearly explained in this book with many birth charts. Kindly read this book thoroughly, analyse it with your known people's horoscope, and experience the result. It will surely give you goosebumps!
