~~Life in the universe activities manual answers by Denise ...~~

Life in the Solar System? Terrestrial life thrives under a wide range of conditions (oceanic vents, solid rock, acidic, alkaline, brine, etc). 1. Inorganic nutrients — to build cells. 2. Energy (light, heat, etc) — for biological activity. 3. Liquid water — medium for chemical reactions. Where else are these available?

14. Life in the Universe

General. Alien life, such as microorganisms, has been

hypothesized to exist in the Solar System and throughout the universe. This hypothesis relies on the vast size and consistent physical laws of the observable universe. According to this argument, made by scientists such as Carl Sagan and Stephen Hawking, as well as notable personalities such as Winston Churchill, it would be improbable for ...
