Some of the greatest thinkers in the history of economic thought have been instrumental in advancing the study of development economics. In this volume, leading scholars are brought together to illuminate this tradition, with particular emphasis on the question of growth and development. Divided into two parts, this collection offers a blend of papers of history of economic thought and development economics, and suggests that classical political economy - that strand of thought which goes from Physiocracy to Smith and to Ricardo and Marx - has a precise vision and indeed a precise model of long term development. This book: examines the influence that has been exerted by both pre-classical and classical thought on modern day development economics provides a synthetic analysis of the classical vision of growth and development from the mercantilist era to physiocracy examines Adam Smith's contribution to growth theory explores Marxian thinking and ideas, and the political developments that gave rise to state functions in post-war theory. Including contributions by well known authors such as Eltis, Murphy and Kurz, this significant volume by one of the premier historians of economic thought will be a valuable resource for postgraduates and professionals in the fields of economic history and political economy.

A significant introduction to the study of comparative law and a notable scholarly work, Major Legal Systems in the World Today analyzes the general characteristics which lie behind the development of the four principal legal systems of the world: the Civil law, the Common law, the Socialist law (primarily Soviet), and those based on religious or philosophical principles (Muslim, Hindu, Chinese, Japanese, and African). Providing unique insights into the spirit of each legal family, the book presents a total view of the historical foundation and the sources and structure of the law in each system.

Because of its unique nature, the sources of international law are not always easy to identify and interpret. This book provides an ideal introduction to these sources for anyone needing to better understand where international law comes from. As well as looking at treaties and custom, the book will look at more modern and controversial sources.

The Subject of Human Rights is the first book to systematically ad-

dress the "human" part of "human rights." Drawing on the finest thinking in political theory, cultural studies, history, law, anthropology, and literary studies, this volume examines how human rights—as discourse, law, and practice—shape how we understand humanity and human beings. It asks how the humanness that the human rights idea seeks to protect and promote is experienced. The essays in this volume consider how human rights norms and practices affect the way we relate to ourselves, to other people, and to the nonhuman world. They investigate what kinds of institutions and actors are subjected to human rights and are charged with respecting their demands and realizing their aspirations. And they explore how human rights shape and even create the very subjects they seek to protect. Through critical reflection on these issues, *The Subject of Human Rights* suggests ways in which we might reimagine the relationship between human rights and subjectivity with a view to benefiting human rights and subjects alike. Revised edition includes all new developments since 1994, including all international case-law and international legislation.

The authors focus on English law but cover significant developments in Commonwealth countries, and, where appropriate, European systems of tort law. They offer an understanding of the purpose of tort law and also detail the rules and principles that make up tort law and explain how the law has developed.

Can a disease, more importantly, cancer, be a potent tool of self-evolution for both, the person who suffers from it, and his/her caregivers, especially parents? The value of good health is realized when it no more remains with us. The journey to salvage the lost friend can still offer myriad opportunities of redemption and self-discovery. It is up to us how we decide to tread this formidable path leading to self-actualization. Time has made us realize that it is not fair to stereotype a person suffering from cancer from the point of view of cure or recovery. Many a time, such stereotyping comes from our own society, and sometimes, ironically, from the medical fraternity, for its inability to go beyond a point, after which you feel you are condemned and vegetative. All these negativities passively entrap the patients and their parents in the viciousness of the disease where they die many times before the actual death. This is the worst form of cancer which has plagued our mindset. In the case of Divyansh Atman, the authors' son, it was not so. Divyansh was the embodiment of courage and self-determination in the face of adversities. His life journey shows us how the path of opportunities can still be paved in the middle of adversities. He lived a big and a meaningful life that made a huge impact on the lives of people around him. Cancer can bring in self-evolution, both for the sufferer and his caregivers. An inspirational memoir. A soul stirring account of a young boy who suffered from cancer but lived a life which inspired many. A true story of grit and human strength. To be read by every parent who grieves the

During the past decade, administrative law has experienced remarkable development. It has consistently been one of the most dynamic and potent areas of legal innovation and of judicial activism. It has expanded its reach into an ever broadening sphere of public and private activities. Largely through the mechanism of judicial review, the judges in several jurisdictions have extended the ambit of the traditional remedies, partly in response to a perceived need to fill an accountability vacuum created by the privatisation of public enterprises, the contracting-out of public services, and the deregulation of industry and commerce. The essays in this volume focus upon these and other shifts in administrative law, and in doing so they draw upon the experiences of several jurisdictions: the UK, the US, Canada, Australia and New Zealand. The result is a wide-ranging and forceful analysis of the scope, development and future direction of administrative law.

This definitive volume celebrates the harmonica's illustrious history, focusing on every musical genre that has felt the harp's impact.

With a considerable influence on national and international legislators, courts, public administrators and private companies, environ-

mental principles - such as the polluter-pays principle, sustainable development or the precautionary principle - play an important role in the making, application and the interpretation of environmental law. As a key part of the Elgar Encyclopedia of Environmental Law, this comprehensive volume provides detailed coverage of all of the important environmental principles and offers unique insights as well as wider reflection on the role played by principles. With 50 structured entries written by leading scholars from around the world the volume discusses the various environmental principles in turn, covering their impact on international co-operation, their varying importance globally, their relevance in the jurisprudence of international and European courts and their growing importance in international business practice. As well as forming an authoritative reference source, *Principles of Environmental Law* offers new insights into this topic, which has developed strongly over the last 50 years and has become increasingly fundamental for the future of the planet. As well as forming an indispensable guide, this important volume offers both a reflection on the evolution of the legal principles and insight into their practical application. It will prove an essential resource for students, academics, judges, company lawyers, and administrators.

Excerpt from Hindu Law Ix preparing the present edition of what was originally called Elements of Hindu law, the author has no acknowledgments to make, in any quarter, for assistance, or suggestion; though invitation, and even solicitation, on his part, has not been wanting; as, independent of other reference, appears by the concluding paragraph of the Preface to the first. In this respect, the author has been careful not to be deficient in his duty. In a work of the kind, it was imperative. Conscious how ungrateful is the subject - bowing to the almost universal indifference as to what regards India, further than as our own direct interests are involved, the author is not disappointed, - not having been sanguine in his expectations - and the failure of all encouragement of the sort, in the progress of such preparation, will have had no other effect, than that of stimulating his care and diligence, toward attaining his object, in the cultivation of his own resources. The principal change in the present edition is in the arrangement of the matter; producing a different succession of chapters, with a reduction of them from thirteen to twelve. This has occasioned parts to be written over again. With considerable alteration; and these so incorporated and connected with the composition, as it originally stood, that, in justice to the purchasers and possessors - rhi preface. Book Excerpt: ...erk's room, at the offices of James and Walter How, on a July morning. The room is old fashioned, furnished with

well-worn mahogany and leather, and lined with tin boxes and estate plans. It has three doors. Two of them are close together in the centre of a wall. One of these two doors leads to the outer office, which is only divided from the managing clerk's room by a partition of wood and clear glass; and when the door into this outer office is opened there can be seen the wide outer door leading out on to the stone stairway of the building. The other of these two centre doors leads to the junior clerk's room. The third door is that leading to the partners' room. The managing clerk, COKESON, is sitting at his table adding up figures in a pass-book, and murmuring their numbers to himself. He is a man of sixty, wearing spectacles; rather short, with a bald head, and an honest, pugdog face. He is dressed in a well-worn black frock-coat and pepper-and-salt trousers. COKESON. And five's twelve, and..
