Labour Market Economics provides a mixture of theory and practice with a unique emphasis on Canadian policy issues. Written by four of the leading researchers in Canada in the area of labour economics and industrial organization - Dwayne Benjamin, Morley Gunderson, Thomas Lemieux, and Craig Riddell - the Eighth Edition has been refreshed to include updated content coverage, data, tables, and figures, and enhanced to support instructors teaching efforts with the addition of a Test Bank.

I created this book as a way of supporting all sales agents who are working themselves into the ground. There is a distinct set of challenges that is unique to all sales agents and their managers: dealing with high levels of stress, spending hours sitting, eating and drinking in restaurants, experiencing a routine of late nights and early mornings. All of these aspects of the job are detrimental to your health. When we prioritize managing our sales over managing our health, the results are devastating. This approach to the situation does more harm than good. The sales agent begins to travel a downward spiral that eventually spins out of control. I am sharing my story to accomplish 2 important objectives: to provide companies, sales teams and

independent agents with a starting point; to create organizational awareness around how working in sales can negatively affect someone's brain health, and to help salespeople appreciate the value of their physical, emotional, and mental wellbeing. My goal is to increase awareness around the negative events that salespeople often encounter and how their mental health is impacted. Then, I will offer solutions and resources for this epidemic that you can integrate into your life, as you see fit. This book aims to identify and discuss the challenges that are unique to sales agents, and offer relatable advice that supports this new way of looking at your health. You may be ready to make a small, manageable change, or you may be ready for a transformation; wherever you are in your health journey, this book will offer a starting point for you. Through various anecdotes from my own career in sales some of you will discover solutions that you can incorporate into your life today right now; others will resonate with the MeQuotient(TM). The MeQuotient(TM) is a more robust solution that offers a new approach to self-care and hopefully provides what you need to transform your well-being. The intention is for you to read each anecdote and the MeQuotient(TM) in its entirety in order to determine where the first step is on your journey.

The Reference section contains detailed descriptions of various solutions highlighted in the book and can be explored in isolation, as needed. The Appendix contains an alphabetized list of sources and supports contained in the book. Every journey begins with a single step. But many people become complacent and wait for conditions to be perfect before they start. If you feel stuck and unable to take action, then the Coach in me would offer this wise counsel: just move forward, starting right now, from wherever you are; committing to just one of the solutions in this book will bring you closer to your peak level of performance.

Customers in North America who wish to purchase this publication, please contact Augsburg Fortress Press. First published in 1992, Emanuel Tov's Textual Criticism of the Hebrew Bible has rapidly established itself as the authoritative reference work for all those engaged in the study of the text of the Hebrew Bible. This thoroughly revised second edition will be welcomed by students and scholars alike. A wide range of readers will find this book accessible and indispensable. Emanuel Tov offers extensive descriptions of the major witnesses to the text of the Hebrew Bible-the Hebrew texts from Qumran, the Septuagint, the Masoretic Text-as well as the Aramaic Targumim, the Syriac translations, the Vulgate, and others. Special attention is given to the exegetical aspects of the textual transmission, literary issues, and the problem of the original shape of the biblical text. Praise for the First Edition:

"Emanuel Tov is preeminent in the world in the field of Septuagint studies. This is a solid and durable work which, given its technical character, is written in a readable way." Frank Moore Cross, Harvard University "Nowhere else can you find such a thorough presentation of how the Bible was transmitted in Second Temple times ... This excellently written handbook represents a major step forward for biblical studies." Lawrence Schiffman, New York University "History will surely regard Emanuel Tov's monumental work as the definitive discussion of textual criticism of this generation. A 'must-have' for any serious scholar of the Bible!" Sidnie A. White, University of Nebraska "The basic reference work on the textual criticism of the Hebrew Bible for at least the next decade. This is a magisterial work which is badly needed and masterfully done." Journal for the Study of Judaism "This book will soon be viewed as a classic of biblical studies." Ralph W. Klein, Journal of Religion "Replete with examples, tables, plates, lucid definitions and explanations, as well as extensive bibliographies, the volume brings together a wealth of information not previously so accessible and makes the theory and practice of textual criticism easily understandable and visually clear." Judith E. Sanderson, Seattle University

This book offers 1,400 plus practice questions and answers so that you can take your water operator certification exam with confidence.

Aims and Scope Patients are more em-

powered to shape their own health care today than ever before. Health information technologies are creating new opportunities for patients and families to participate actively in their care, manage their medical problems and improve communication with their healthcare providers. Moreover, health information technologies are enabling healthcare providers to partner with their patients in a bold effort to optimize quality of care, improve health outcomes and transform the healthcare system on the macro-level. In this book, leading figures discuss the existing needs, challenges and opportunities for improving patient engagement and empowerment through health information technology, mapping out what has been accomplished and what work remains to truly transform the care we deliver and engage patients in their care. Policymakers, healthcare providers and administrators, consultants and industry managers, researchers and students and, not least, patients and their family members should all find value in this book. "In the exciting period that lies just ahead, more will be needed than simply connecting patients to clinicians, and clinicians to each other. The health care systems that will be most effective in meeting patients' needs will be those that can actually design their 'human wares' around that purpose. This book provides deep insight into how information technology can and will support that redesign." Thomas H. Lee, MD, MSc, Chief Medical Officer, Press Ganey Associates; Professor of Medicine, Harvard Medical School and Professor of Health Policy and Management, Harvard School of Public Health The Editors: Drs. Maria Adela Grando, Ronen Rozenblum and David W. Bates are widely recognized professors, researchers and experts in the domain of health information

technology, patient engagement and empowerment. Their research, lectures and contributions in these domains have been recognized nationally and internationally. Dr. Grando is affiliated with Arizona State University and the Mayo Clinic, and Drs. Rozenblum and Bates are affiliated with Brigham and Women's Hospital and Harvard University.

"A practical treatise on the law governing life insurance, this edition is a sequel to the 2nd edition published in 1993, covering life and disability insurance law in all 10 provinces, including the civil law of Quebec. The book promotes a basic understanding of the features of life insurance that make life insurance law so different in common-law and civil law, as well as judicial interpretation of the model Uniform Life Insurance Act and Quebec Civil Code. Previous editions of this work have been cited as an authority in more than 130 Canadian cases. Includes specimen policies, documents and tables."--Pub. desc.

A how-to-draw book, with over 100 animals and objects!

"Corporate Law and Procedure offers a unique balance between both the theoretical and practical elements of corporate law. This thorough but straightforward text provides a contextual framework by anchoring the discussion within a developing case study. Readers follow along as the ongoing scenarios illustrate the full life cycle of a single corporation, including its startup, growth, maintenance, and dissolution."--

NAMED A BEST BOOK OF THE YEAR BY BOOKPAGE AND LIBRARY JOURNAL The Crimson Petal and the White meets Fight Club: A page-turning novel set in the world of female pugilists and their patrons in late eighteenth-century England. Moving from a filthy brothel to a fine

manor house, from the world of street fighters to the world of champions, *The Fair Fight* is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn't expect much for herself beyond abuse. While her sister's beauty affords a certain degree of comfort, Ruth's harsh looks set her on a path of drudgery. That is until she meets pugilist patron George Dryer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. When Charlotte presents Ruth with an extraordinary proposition, Ruth pushes dainty Charlotte to enter the ring herself and learn the power of her own strength. A gripping, page-turning story about people struggling to transcend the circumstances into which they were born and fighting for their own places in society, *The Fair Fight* is a raucous, intoxicating tale of courage, reinvention, and fighting one's way to the top.

Can business activity in itself be morally good and pleasing to God? Sometimes business can seem so shady-manipulating the "bottom line," deceiving the consumer, or gaining promotions because of whom you know. But Wayne Grudem introduces a novel concept: business itself glorifies God when it is conducted in a way that imitates God's character and creation. He shows that all aspects of

business, including ownership, profit, money, competition, and borrowing and lending, glorify God because they are reflective of God's nature. Though Grudem isn't naïve about the easy ways these activities can be perverted and used as a means to sin, he knows that Christians can be about the business of business. This biblically based book is a thoughtful guide to imitating God during interactions with customers, coworkers, employees, and other businesses. See how your business, and your life in business, can be dedicated to God's glory.
