Master Register Document Format The MDR is usually an Excel Spreadsheet. It is usually an Excel spreadsheet as this widely-spread format makes it easy to share information between companies, and it also allows to easily sort, filter, highlight, process the data included in the MDR, both from the Contractor side and the Client Side.

The first and easiest place to start is how your register is set up or formatted. It should contain the following sections (or columns): Document Name; Document Number; Document Date; Document Version; Last Update; Authorization; For easy navigation, I like to separate my register into the type of document it is for example policy, procedure, form etc.
