## 898 - BECK MIDDLETON

---

Providing plenty of opportunities to improve KS2 mathematical skills, this Maths activity book offers lots of mental maths skills practice and is perfect for use at home. Tailored towards Key Stage 2, this Mental Maths activity book provides a fun way to test maths understanding and improve various maths skills. Included in this book: \* Progress charts to help children track progress\* Parental notes to support learning at home\* Weekly tests to improve understanding and retention

Matched to the demands of the National Curriculum and the new arithmetic tests at Key Stages 1 and 2, the Let's Do Arithmetic workbooks have been carefully devised to match the appropriate age and stage of your child. Each book contains 40 tests, which become progressively more challenging throughout to ensure progress can be made. With a recording chart for checking progress and full answers to aid your assessment, this book is the perfect way to test understanding of basic arithmetic concepts and prepare for the timed National Tests that your child will be encountering in school.

The First Mental Arithmetic Answers book provides the correct answers to all the questions contained in the corresponding workbook. Answers to the Check-up tests are included, together with the photocopiable Group record sheets and an additional photocopiable Check-up.

KS2 Maths Mental Workout - Book 5, Levels 3-4

Fun and engaging quizzes to test children's mental maths skills. - A fun and easy way to test key skills taught at school- Simple, clear layout with colourful illustrations- Includes a motivating 'colour in your score' chart for every quiz- Handy hints to help guide children through the quizzes- Answers are included to help you to support children's learning at home

This book contains ten complete mental maths practice tests, complete with answers. Accompanying the book is an audio CD containing all six tests. The recording features questions with specific times allowed for pupils to answer them, just as the pupils will have when they take a real test.

Presents math strategies designed to help students break down problems and

compute answers without the aid of written or calculator computation.

Providing plenty of opportunities to improve KS1 mathematical skills, this Maths activity book offers lots of mental maths skills practice and is perfect for use at home. Tailored towards Key Stage 1, this Mental Maths activity book provides a fun way to test maths understanding and improve various maths skills. Included in this book: \* Progress charts to help children track progress\* Parental notes to support learning at home\* Weekly tests to improve understanding and retention

KS1 Mental Maths Workout - Book 2, Level 2

The three photocopiable titles in the Mental Maths in Minutes series provide a systematic approach to teaching and learning number facts. Each Mental Maths sheet is split into four columns - teachers photocopy the sheet, then slice the copies to provide strips of questions to give to the children. The children are timed for one minute and achieve a score according to the number of questions that they get correct. Specific skills such as addition, subtraction, doubling, halving, multiplying and dividing are addressed repeatedly, but each time at a higher level of understanding and children are encouraged to improve upon their own scores.

Providing plenty of opportunities to improve KS2 mathematical skills, this Maths activity book offers lots of mental maths skills practice and is perfect for use at home. Tailored towards Key Stage 2, this Mental Maths activity book provides a fun way to test maths understanding and improve various maths skills. Included in this book: \* Progress charts to help children track progress \* Parental notes to support learning at

home \* Weekly tests to improve understanding and retention

Level: KS2 Subject: English An engaging Grammar and Punctuation activity book to really help boost your child's progress at every stage of their learning! Including helpful questions and answers, this English book provides reassurance whilst supporting your child's learning at home.

This text offers repeated practice to help children to learn number facts. It includes exercises on money and a removable answer section.

KS2 Maths Mental Workout - Book 4, Level 3

Each book in this exciting new series contains more than 800 mental maths questions specially devised to boost children's confidence by providing plenty of practice of all the key aspects of the national curriculum. The structure of each test follows the same pattern but the questions get progressively more difficult as children work their way through the book. Tips provided by 'Digit' the dog and word puzzles in the form of 'Andrew Brodie Brain Booster' boxes provide extra elements to support children's learning and challenge them further. Fun stickers featuring Digit the dog for every page make sure children are rewarded for their efforts!

Contains more than 800 mental maths questions specially devised to boost children's confidence by providing plenty of practice of all the key aspects of the national curriculum.

This book combines accessible explanations of mathematical concepts with practical advice on effective ways of teaching the subject. Section A provides a framework of good practice. Section B aims to support and enhance teachers subject knowledge in mathematical topics beyond what is taught to primary children.

Each chapter also highlights teaching issues and gives examples of tasks relevant to the classroom. Section C is a collection of papers from tutors from four universities centred around the theme of effective teaching and quality of learning during this crucial time for mathematics education.

Develops pupils' mental skills in a variety of inventive ways. Mental Maths for ages 9 to 11 Teacher's Book provides notes for teachers in supporting the practice for mental mathematics, and encouraging children to think about all aspects of number.

Times table challenge.

50 lessons and answer key to practice mental math.

This series is designed to help teachers prepare for the National Tests at the end of each year and leading up to the final test at the end of KS2. Each book contains ten photocopiable mental maths tests, reflecting the look and feel of the real tests. Accompanying the books is an audio CD which contains all ten tests timed to the exact specifications of the actual test with set times for pupils to answer the questions. All that the teacher needs to do is turn on the CD player! Answers to all the tests are provided too.

The format of Mental Arithmetic differs from that of traditional mental arithmetic materials in that pupils read the questions themselves, use rough paper for workings out, and write down their answers. It provides intensive practice in all areas of the maths curriculum.

Did you know that it's easier to add and subtract from left to right, rather than the other way round? And that you can be taught to square a three-digit number in seconds? In Think Like A Maths Genius, two mathematicians offer tips and tricks for doing tricky maths the easy

way. With their help, you can learn how to perform lightning calculations in your head, discover methods of incredible memorisation and other feats of mental agility. Learn maths secrets for the real world, from adding up your shopping and calculating a restaurant tip, to figuring out gambling odds (or how much you've won) and how to solve sudoku faster.

This practice book will build essential skills through activity-packed fun. The activities are designed to give children a real sense of achievement. This helps to boost their confidence and develop good learning habits for life. This fun range of Maths and English activity books really helps to boost your child's progress at every stage of their learning. The series builds important skills in line with their learning at school. Each activity is designed to give your child a real sense of achievement. Helps to boost confidence and develop good learning habits for life. Motivates children to learn at home using colorful activities that make learning fun. Includes helpful tips and answers so that you easily support your child's learning at home. Supports the 2014 National Curriculum"

100 Math Brainteasers (Grade 7-10) is a subtle selection of one hundred arithmetic, algebra, and geometry assignments, which efficiently train the mind in math skills. It will be helpful for students attending High School and also in preparation for Mathematical competitions or Olympiads at a younger age. The assignments can equally be used in the classroom or in extracurricular activities. The fun and games are delightful, original, and solving them is even more enjoyable thanks to the funny illustrations. Most of the math problems do not require any exceptional mathematical proficiency, but above all, they challenge one's creativity

and ability to think logically. Only a few solicit the knowledge of algebraic expressions and rules of geometry.

These simple math secrets and tricks will forever change how you look at the world of numbers. Secrets of Mental Math will have you thinking like a math genius in no time. Get ready to amaze your friends—and yourself—with incredible calculations you never thought you could master, as renowned “mathemagician” Arthur Benjamin shares his techniques for lightning-quick calculations and amazing number tricks. This book will teach you to do math in your head faster than you ever thought possible, dramatically improve your memory for numbers, and—maybe for the first time—make mathematics fun. Yes, even you can learn to do seemingly complex equations in your head; all you need to

learn are a few tricks. You’ll be able to quickly multiply and divide triple digits, compute with fractions, and determine squares, cubes, and roots without blinking an eye. No matter what your age or current math ability, Secrets of Mental Math will allow you to perform fantastic feats of the mind effortlessly. This is the math they never taught you in school.

Following on from the hugely successful Mental Maths Tests, this new series provides more tests to help teachers prepare for the National Tests at the end of each year and the final test at the end of KS2. Each book contains ten printable mental maths tests, reflecting the look and feel of the real tests. Accompanying the books is a CD-ROM which contains all ten tests timed to the exact specifications of the actual test with set times for pupils to answer the questions. Answers to all the tests are provided too.
