As a consequence, migration from the developing countries to developed countries has become a social and political issues in the 21st century due to four main reasons. First of all, the movement of migrants can result in conflict, xenophobia, and racism from local folks towards the migrants.

However, there are also grounds to believe that refugees and displacement are likely to become a defining issue of the 21st century. Two global trends in particular suggest this: fragility and...

During the 21st century, the demographic relationship is markedly reversed with Africa's population becoming increasingly larger than Europe's. Population shifts: Receiving nations are projected to experience less population growth without immigration, and sending nations could expect greater density (UN Population Division data)
