How millennials and Gen Z are reshaping the future of the ...

Millennials, as a generation, have a completely unique view of this situation and here are some of the things that can be learned from it. Using one's private life to define success The reason why the work-life balance was in danger in the first place is due to the fact that a lot of people lost from sight why they work in the first place.

This research suggests that there is a significant gap between what millennials want and expect from their employer and career and their experience of the workplace. Superficial changes that are intended to connect with younger workers, such as unconvincing social media outreach programmes, 'greenwashed' corporate values and diversity tokenism will not work.
