Social Psychology is a Science The need to belong is also a useful example of the ways the various aspects of psychology fit together. Psychology is a science that can be sub-divided into specialties such as "abnormal psychology" (the study of mental illness) or "developmental psychology" (the study of how people develop across the life span).

The Science of Psychology in Modules offers instructors flexibility in teaching and gives students a manageable framework for course success. HOW MODULES WORK FOR YOU *Each chapter is broken down into 2-4 smaller modules, allowing instructors to assign the content they want, in the order they prefer.
