Wordsmiths and Warriors explores the heritage of English through the places in Britain that shaped it. It unites the warriors, whose invasions transformed the language, with the poets, scholars, reformers, and others who helped create its character. The book relates a real journey. David and Hilary Crystal drove thousands of miles to produce this fascinating combination of English-language history and travelogue, from locations in south-east Kent to the Scottish lowlands, and from south-west Wales to the East Anglian coast. David provides the descriptions and linguistic associations, Hilary the full-colour photographs. They include a guide for anyone wanting to follow in their footsteps but arrange the book to reflect the chronology of the language. This starts with

the Anglo-Saxon arrivals in Kent and in the places that show the earliest evidence of English. It ends in London with the latest apps for grammar. In between are intimate encounters with the places associated with such writers as Chaucer, Shakespeare, and Wordsworth; the biblical Wycliffe and Tyndale; the dictionary compilers Cawdrey, Johnson, and Murray; dialect writers, elocutionists, and grammarians, and a host of other personalities. Among the book's many joys are the diverse places that allow warriors such as Byrhtnoth and King Alfred to share pages with wordsmiths like Robert Burns and Tim Bobbin, and the unexpected discoveries that enliven every stage of the authors' epic journey.

An imaginative approach to child rights--intelligently illustrated and designed.

Why do we see pigeons as lowly urban pests and how did they become such common city dwellers? Courtney Humphries traces the natural

history of the pigeon, recounting how these shy birds that once made their homes on the sparse cliffs of sea coasts came to dominate our urban public spaces. While detailing this evolution, Humphries introduces us to synanthropy: The concept that animals can become dependent on humans without ceasing to be wild; they can adapt to the cityscape as if it were a field or a forest. Superdove simultaneously explores the pigeon's cultural transformation, from its life in the dovecotes of ancient Egypt to its service in the trenches of World War I, to its feats within the pigeon-racing societies of today. While the dove is traditionally recognized as a symbol of peace, the pigeon has long inspired a different sort of fetishistic devotion from breeders, eaters, and artists—and from those who recognized and exploited the pigeon's astounding abilities. Because of their fecundity, pigeons were symbols of fertility associated with Aphrodite, while their keen ability to find their way home made them ideal messengers and even pilots. Their usefulness largely forgotten, today's pigeons have become as ubiquitous and reviled as

rats. But Superdove reveals something more surprising: By using pigeons for our own purposes, we humans have changed their evolution. And in doing so, we have helped make pigeons the ideal city dwellers they are today. In the tradition of *Rats*, the book that made its namesake rodents famous, Superdove is the fascinating story of the pigeon's journey from the wild to the city—the home they'll never leave.

In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of *A River Runs Through It* in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks

of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.

It was only when the author was diagnosed as a bipolar in 2003, leading to his hospitalization, that he first heard about this serious mental illness. From being comfortably perched as a successful entrepreneur, he was abruptly flung into terrifying, unknown territory. Extreme mood swings from manic highs to desperate lows made life miserable. The awareness about this chronic, debilitating condition was almost nonexistent in India back then

and the stigma, stifling. Disturbingly, the situation remains largely unchanged, unlike developed countries where support groups thrive. Medical treatment needs to be supplemented by a healing regimen. Resolutely, he made yoga, meditation and spiritual advancement an intrinsic part of his life. This cathartic journey ended up freeing him. An inspiring story of resilience, his is a rare voice of hope from the East trying to reach out to millions of his community, saying, Yes! A bipolar too can lead a normal and happy life. A Bipolar's Journey may well help you walk away From Torment to Fulfillment. So let's walk together.

This book looks at the link between votes and political party systems in Asian democracies, focusing on India, Indonesia, Korea and the Philippines. It discusses this link in terms of three distinct elements: the formation of voters' preferences, the translation of preferences into votes, and the translation of votes into seats, and explores the extent to which electoral rules and social structural variables affect the process of transforming votes into an Asian political party system.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic

crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked

to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born

in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
