In English and Italian, with special t.p. in Italian: Perche l'Italia e entrata nell grande guerra ... Philosophy and Kafka is a collection of original essays interrogating the relationship of literature and philosophy. The essays either discuss specific philosophical commentaries on Kafka's work, consider the possible relevance of certain philosophical outlooks for examining Kafka's writings, or examine Kafka's writings in terms of a specific philosophical theme, such as communication and subjectivity, language and meaning, knowledge and truth, the human/animal divide, justice, and freedom.

The articles in this volume highlight the fact that the chivalric novel *Tirant lo Blanc* - written in Valencia by Joanot Martorell in the 15th century and translated into Italian in the 16th century - keeps being relevant in both the Italian and the Iberian Peninsulas, so closely related in past and present. The knight Joanot Martorell wrote a classic of universal literature despite the fact that he

belonged to a minority culture. Nowadays, after having been translated into numerous languages, it is studied in many European and American universities and elicits great interest among researchers, as proven by the contributions included in this book.

A collection of essays discussing the famed Italian film director, writer, and intellectual. More than thirty years after the tragic death of Pier Paolo Pasolini, this volume is intended to acknowledge the significance of his living memory. His artistic and cultural production continues to be a fundamental reference point in any discourse on the state of the arts, and on contemporary political events, in Italy and abroad. This collection of essays intends to continue the recognition of Pasolini's teachings and of his role as engaged intellectual, not only as acute observer of the society in which he lived, but also as semiologist, writer, and filmmaker, always heretical in all his endeavors. Many directors, reporters, and contemporary writers see in the "inconvenient intellectual" personified by Pasolini in his writings, in his films, and in his interviews, an emblematic figure with whom to institute and maintain a constant dialog, both because of the controversial topics he addressed, which are still relevant today, and because of the ways in which he confronted the power structures. His analytical ability made it impossible for him to believe in the myth of progress; instead, he embraced an ideal that pushed him always to struggle on the firing line of controversy.

Using a classic microhistorical approach, this book presents and translates a 1605 Inquisition trial from Malta, before providing in-depth studies of various related aspects in order to contextualise the events in both local and transregional arenas.

Niccolò Machiavelli may not have been a cynical realist as he is often portrayed. On the contrary, this book argues that he precociously possessed the characteristics of an impassioned, sometimes

misguided idealist, obsessed with the idea of Italian unification, but blinded to the practicalities of attaining that goal. William J. Landon suggests that these characteristics may help to explain his appeal to Italy's «Risorgimento» founders. This interdisciplinary volume, which also contains the first translation of a «Discourse or Dialogue Concerning our Language» since 1961, works well as a core text, or as a complement to courses in Renaissance history, literature or political science. Vols. 1-22 include the section "Recent publications upon economics".

This e-book explains how you can make her miss you by minimizing the time you spend together as a couple. Phones reduce one's memory. Phone messages and notifications can be distracting to tasks such as studying, which causes goals of such tasks to be forgotten. One school of thought suggests that a reduction in memory may be due to the waves emitted by mobile phones. Translator: Celine Claire PUBLISHER: TEKTIME

Members of the Moravian Church who settled in North Carolina were meticulous record keepers, documenting almost every aspect of their day-to-day lives. A significant part of those records is preserved in the form of photographs. Moravian photographers-both professional and amateur-created an enduring legacy by capturing their society and surroundings in faithful detail. Their photographs, which record the towns of Bethabara, Bethania, Salem, Friedberg, Hope, and Friedland, as well as other communities throughout the state, provide a rare glimpse into the historic world of Moravian life in North Carolina.
