Optimal Control Systems is an engineering systems company. Our team is highly skilled at providing a wide variety of functions in two main areas: power systems and automation systems. We design, build, maintain, and start up factory automation processes, utility substations and generation systems.

Optimal Control Systems was formed in November 1993. Our team brings together a multitude of experience and knowledge in building system management and applications. The company at present employs 50 permanent staff members, and also makes use of specialist suppliers as needed. Optimal Control Systems' management strategy is strictly hands-on, therefore enhancing the quality and planned ...
