Plato is the best known, and continues to be the most widely studied, of all the ancient Greek philosophers. The updated and original essays in the second edition of the Oxford Handbook of Plato provide in-depth discussions of a variety of topics and dialogues, all serving several functions at once: they survey the current academic landscape; express and develop the authors' own views; and situate those views within a range of alternatives. The result is a useful state-of-the-art reference to the man many consider the most important philosophical thinker in history. This second edition of the Oxford Handbook of Plato differs in two main ways from the first edition. First, six leading scholars of ancient philosophy have contributed entirely new chapters: Hugh Benson on the Apology, Crito, and Euthyphro; James Warren on the Protagoras and Gorgias; Lindsay Judson on the Meno; Luca Castagnoli on the Phaedo; Susan Sauvé Meyer on the Laws; and David Sed-

ley on Plato's theology. This new edition therefore covers both dialogues and topics in more depth than the first edition did. Secondly, most of the original chapters have been revised and updated, some in small, others in large, ways.

The Poetical gazette; the official organ of the Poetry society and a review of poetical affairs, nos. 4-7 issued as supplements to the Academy, v. 79, Oct. 15, Nov. 5, Dec. 3 and 31, 1910

Plato was the first philosopher in the western tradition to reflect systematically (and often critically) on rhetoric. In this book, Tushar Irani presents a comprehensive and innovative reading of the Gorgias and the Phaedrus, the only two Platonic dialogues to focus on what an 'art of argument' should look like, treating each of the texts individually, yet ultimately demonstrating how each can best be understood in light of the other. For Plato, the way in which we approach argument typically reveals something about our deeper desires and motivations, particularly with respect to other people, and so the key to understanding his views on the proper practice of argument lies in his understanding of human psychology. According to this reading, rhetoric done well is simply the practice of philosophy, the pursuit of which has far-reaching implications for how we should relate to others and how we ought to live.

In one volume, this book brings together a new English translation of Plato's Meno, a selection of illuminating articles on themes in the dialogue published between 1965 and 1985 and an introduction setting the Meno in its historical context and opening up the key philosophical issues which the various articles discuss. A glossary is provided which briefly introduces some of the key terms and indicates how they are translated. The Meno is an excellent introduction to Plato and philosophy.

Plato's Republic has proven to be of astounding influence and importance. Justly celebrated as Plato's central text, it brings together all of his prior works, unifying them into a comprehensive vision that is at once theological, philosophical, political and moral. The essays in this volume provide a picture of the most interesting aspects of the Republic, and address questions that continue to puzzle and provoke, such as: Does Plato succeed in his argument that the life of justice is the most attractive one? Is his tripartite analysis of the soul coherent and plausible? Why does Plato seem to have to force his philosopher-guardians to rule when they know this is something that they ought to do? What is the point of the strange and complicated closing Myth of Er? This volume will be essential to those looking for thoughtful and detailed excursions

sions into the problems posed by Plato's text and ideas.

He uncovers a vibrant Jewish intellectual life in England during the Enlightenment era by examining a small but fascinating group of hitherto neglected Jewish thinkers in the process of transforming their traditional Hebraic culture into a modern English one. This portrait of English Jews reformulating their tradition in light of Enlightenment categories illuminates an overlooked corner in the history of Jewish culture in England and Jewish thought during the En-

lightenment."--BOOK JACKET.

Here, translated into modern idiom, are many works of the authors whose ideas have constituted the mainstream of classical thought. This volume of new translations was born of necessity, to answer the needs of a course in Greek and Roman culture offered by the Department of Integrated Liberal Studies at the University of Wisconsin. Since its original publication in 1952, Classics in Translation has been adopted by many different academic institutions to fill similar needs of their undergraduate students. This new printing is further evidence of this collection's general acceptance by teachers, students, and the reviewing critics.

It is an excellent book - highly intelligent, interesting and original. Expressing high philosophy in a readable form without trivialising it is a very difficult task and McAleer manages the task admirably. Plato is, yet again, intensely topical in the chaotic and confused world in which we are now living. Philip Allott, Professor Emeritus of International Public Law at Cambridge University This book is a lucid and accessible companion to Plato's Republic, throwing light upon the text's arguments and main themes, placing them in the wider context of the text's structure. In its illumination of the philosophical ideas underpinning the work, it provides readers with an understanding and appreciation of the complexity and literary artistry of Plato's Republic. McAleer not only unpacks the key overarching questions of the text - What is justice? And Is a just life happier than an unjust life? - but also highlights some fascinating, overlooked passages which contribute to our understanding of Plato's philosophical thought. Plato's 'Republic': An Introduction offers a rigorous and thought-provoking analysis of the text, helping readers navigate one of the world's most influential works of philosophy and political theory. With its approachable tone and clear presentation, it constitutes a welcome contribution to the field, and will be an indispensable resource for philosophy students and teachers, as well as general readers new to, or returning to, the text.

Three complete Plato dialogues - Euthyphro, Meno, Republic Book I - in a fresh English translation, with extensive commentary and original illustrations. "Reason and Persuasion" is suitable as an introductory textbook or for more advanced students of Plato and philosophy. The fourth edition is substantially revised, extended and improved. "There is no dearth of textbooks offering an introduction to Plato's thought, but Holbo's stands apart in the scope of its introductory material and its user-friendly style ... The colloquial yet accurate translation by Belle Waring serves to reduce the distance between the student and the world of the dialogues ... Holbo's commentaries on these three dialogues serve to situate them both as individual works and also as parts of Plato's overall project of showing the problems of persuasion divorced from reason. Rather than taking a strictly scholarly approach the author has made clear the relevance of these texts for questions even non-philosophers should find worth asking. For instructors seeking an introductory text for first time readers of Plato, Holbo's book is worthy of consideration." Notre Dame Philosophical Reviews (review of the 3rd edition)

Plato's Meno with Introduction, Translated by Benjamin Jowett. ***Special Student Edition with a separate area on each page for notes.

The Allegory of the Cave, or Plato's Cave, was presented by the

Greek philosopher Plato in his work Republic (514a-520a) to compare "the effect of education (παιδεία) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b-509c) and the analogy of the divided line (509d-511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d-534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

In this volume, a distinguished group of philosophers aims to offer fresh insight into Platonic studies. Combining research with analysis, the authors present 14 essays on various dimensions of Plato's thought. Most of Plato's dialogues are examined, from such Socratic texts as Protagoras, Euthyphro and Crito to the allegedly late Sophist, Statesman and Laws. Several essays explore specific philosophical problems raised in a single Platonic dialogue. Some offer in-depth analysis of one dialogue - for instance, the volume

includes two very different but highly provocative essays on Timaeus. Others pursue a topic or theme that runs throughout a number of dialogues, and others speak about the Platonic heritage and the thought of ancient philosophers who regarded themselves as faithfully preserving and transmitting the doctrines of their master. The major subject divisions of philosophy are covered, with considerable attention being paid to issues of Platonist methodology.

This book presents evaluation cases from the Middle East and

North Africa (MENA) context, investigating the various facets of evaluation in different parts of the MENA region and beyond. In 19 chapters, it explores cases from Tunisia, Saudi Arabia, Egypt, Sudan, Syria, the UAE, Turkey, Iran and Morocco. The book highlights the impact of evaluation on a range of stakeholders, arguing that it has repercussions at the individual, societal, economic, cultural and political levels, that it also has an ethical dimension, and that it is tailored to people's needs, helping them to remain abreast of the effectiveness and efficiency of programs. Further, the book explores controversial issues concerning different evaluation themes, such as teacher and staff evaluation, assessment practices, text genre analysis evaluation, assessment of productive skills, textbook and ICT evaluation, evaluation of ELT certificates and programs, quality assurance, ESP needs analysis, assessment literacy, and dynamic assessment. It addresses key challenges, such as who the "right people" to implement evaluation are, and the appropriate use of evaluation results to avoid any misuse or harm to any stakeholder. In closing, the book calls for further research venues on the relevance of evaluation, testing and assessment in the MENA context and beyond.
