Policy horizons in West European parliamentary systems ...

Electoral accountability requires that voters have the ability to constrain the incumbent government's policy-making power. We express the necessary conditions for this claim as an accountability identity in which the electoral system and the party system interact to shape the accountability of parliamentary governments.

This book introduces a new hypothesis concerning the formation and survival of coalition governments in Western European parliamentary democracies, the policy horizon hypothesis. The book finds support for the hypothesis in a wide array of evidence, including findings based on a new survey of experts in West European political systems.

Policy Horizons And Parliamentary Government

This paper investigates the hypothesis that coalition behaviour in West European parliamentary systems is conditioned by the existence of 'policy horizons' that delimit the extent to which parties can compromise on policy positions in order to participate in government. The first part of the paper demonstrates that policy horizons are implied by certain conceptions of party utility and that their ...
