A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required read-

ing for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. *Questions Are the Answer* delivers the insights Gregersen gained about the conditions that give rise

to catalytic questions—and breakthrough insights—and how anyone can create them.

All animals are equal but some animals are more equal than others. It's just an ordinary farm - until the animals revolt. They get rid of the irresponsible farmer. The other animals are sure that life is improving, but as systems are replaced and half-truths are retold, a new hierarchy emerges . . . Orwell's tale of propaganda, power and greed has never felt more pertinent. With an exciting new cover and inside illustrations by superstar Chris Mould.

The New York Public Library staff answers questions remarkable and preposterous, with illustrations by Barry Blitt. Have you've ever wondered if you can keep an octopus in a private home? Do you spend your time thinking about how much Napoleon's brain weighed? If so, Peculiar Questions and Practical Answers is the book for you. The New York Public Library has been fielding questions like these ever since it was founded in 1895. Of course, some of the questions have left the librarians scratching their heads... "In what occupations may one be barefooted?" "What time does a bluebird sing?" "What does it mean when you're being chased by an elephant?" "What kind of apple did Eve eat?" "How many neurotic people are there in the U.S.?" In Peculiar Questions and Practical Answers, the staff of the NYPL has dug through the archives to find thoughtful and often witty answers to over one hundred of the oddest, funniest, and most whimsical questions the library has received since it began record-keeping over seventy-five years ago. One of The New Yorker's best-known and beloved illustrators, Barry Blitt, has created watercolors that bring many of the questions hilariously to life in a book that answers, among others, the question "Does anyone have a copyright on the Bible?"

This revision guide is intended to serve as a complement to the textbook. Its aim is essentially to provide past examination ques-

tions set by the Institute of Bankers and the examiners' own answers together with past questions set at the City of London Polytechnic and other questions, with their answers. This gives the reader a wider range of topics which reflects the contents of the textbook, and permits of selectivity to meet need. It is suggested that as each textbook chapter is read, the relevant section in the Revision Guide should be attempted in order to test knowledge and understanding, thereby further enhancing the learning process. To facilitate this, the guide is set out section by section, to match the chapters in the textbook. Several sections are prefaced by introductions to bridge the gap between textbook and questions. In addition, questions are presented in succeeding order of difficulty so that readers can move from the less to the more complex at their own speed. November 1985 L. Waxman vii Passing the Examination The Banking Diploma Stage 2 Examination Finance of International Trade. Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to cele-

brate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.
