## 7A2 - QUINTIN SIENA

---

South Africa has a uniquely rich and diverse theatre tradition which has responded energetically to the country's remarkable transition, helping to define the challenges and contradictions of this young democracy. This volume considers the variety of theatre forms, and the work of the major playwrights and theatre makers producing work in democratic South Africa. It offers an overview of theatre pioneers and theatre forms in Part One, before concentrating on the work of individual playwrights in Part Two. Through its wide-ranging survey of indigenous drama written predominantly in the English language and the analysis of more than 100 plays, a detailed account is provided of post-apartheid South African theatre and its engagement with the country's recent history. Part One offers six overview chapters on South African theatre pioneers and theatre forms. These include consideration of the work of artists such as Barney Simon, Mbongeni Ngema, Phyllis Klotz; the collaborations of William Kentridge and the Handspring Puppet Company; the work of Magnet Theatre, and of physical and popular community theatre forms. Part Two features chapters on twelve major playwrights, including Athol Fugard, Reza de Wet, Lara Foot, Zakes Mda, Yaël

Farber, Mpumelelo Paul Grootboom, Mike van Graan and Brett Bailey. It includes a survey of emerging playwrights and significant plays, and the book closes with an interview with Aubrey Sekhabi, the Artistic Director of the South African State Theatre in Pretoria. Written by a team of over twenty leading international scholars, *The Methuen Drama Guide to Contemporary South African Theatre* is a unique resource that will be invaluable to students and scholars from a range of different disciplines, as well as theatre practitioners.

Twenty-two-year-old Anna's unconventional family is prone to raising eyebrows: she lives with two eccentric dads in a small town in rural KwaZulu-Natal and, after surviving her parents' divorce, she's used to the questioning glances of conservative Afrikaans family members and curious neighbours. Now, amid a menagerie of pets and her kaftan-clad mother, Anna must manage the ailing health of one of her dads. Her experiences on her reporter's beat don't make her days any easier. But how do you remain a supportive daughter and still live your own life? Told with warmth and gentle humour, *The Paper House* is a celebration of life, love and the family that shapes us.

A longer-range purpose is to collect comparable information on as many polities

as possible in order to facilitate the development of a richer theory to guide language policy and planning in other polities that undertake the development of a national policy on languages. This volume is part of an areal series which is committed to providing descriptions of language planning and policy in countries around the world."--BOOK JACKET.

Offers advice on installing and testing a satellite receiver, and lists stations and satellites

Often, new exporters will feel a bit overwhelmed about trading with South Africa. Much consideration and planning will need to go into deciding on the company type, delivery of products and services, marketing strategies, and local conditions. Before making these big decisions exporters and investors should spend some time thinking about business objectives.

A firsthand report of the workings of the press in the intensely troubled nation, complete with portions of the Erasmus Commission Reports never before published in the United States on the so-called Muldergate scandal. Pollak was the co-founder and editor of MORE magazine, which specialized in media analysis. After observing the workings of the press in South Africa, he believes that in the 1980s the English-language press will play a significant role in determining whether that country will be able to defuse its racial problem before it explodes into bloody civil strife. The press in South Africa remains the one relatively free institution that has been critical of the government. Pollak examines the pressures under which it works, the ways in which the government has sought to control it,

the ways in which the press has fought against the controls, and the actual impact that the press has had upon the course of events, domestic and foreign. He describes the punitive closing of newspapers, the arrests and the torture, and the abuse of reporters imprisoned for what they have written. He also describes the carefully calculated bureaucratic obstacles to press coverage of events in South Africa, such as visas, work permits, and police credentials, as well as tapped telephones, security sleuths, and general harassment and intimidation used by the government to encourage self-censorship on the part of journalists. The constant war of nerves between the Nationalists and the press corps produces the desired chilling effect. Pollak shows that the South African press played an important part in revealing the Muldergate scandal, a saga of national and international intrigue, corruption, and violence that included an attempt by South Africa to purchase the Washington Star to extend its credibility around the world.

In this riotous romp through South Africa, Malaysia, Thailand, Singapore, the Philippines, India, Mexico, Hawaii, Costa Rica and Rarotonga, Stu often finds more Purgatory than Paradise, more Hell than Heaven. But none of this curbs his passion for The Tropics. Or cold beer. So lie back in a deckchair, put on your sunscreen and join Stu in this quirky quest for Paradise.

Scholars of international relations and international communications view the extent of media freedom from country to country as a key comparative indicator either by itself or in correlation with other indices of national political and economic development. This indicator serves as a bellwether for gauging the health and spread of democracy. Historical Guide to World Media Freedom brings together comprehensive historical data on media freedom since World War II, providing consistent and comparable measures of media freedom in all independent countries for the years 1948 to the present. The work also includes country-by-country summaries, analyses of historical and regional trends in media freedom, and extensive reliability analyses of media freedom measures. The book's detailed information helps researchers connect historical measures of media freedom to Freedom House's annual Freedom of the Press survey release, enabling them to extend their studies back before the 1980s when Freedom House began compiling global press freedom measures. Key Features: A-to-Z, country-by-country summaries of the ebb and flow of media freedom are paired with national media freedom measures over time. Introductory chapters discuss such topics as the theoretical premises behind the nature and importance of media freedom, historical trends, and the challenges of coding for media freedom in a way that ensures consistency for comparison. Concluding material covers the historical patterns in media freedom, how media freedom tracks with other cross-national indicators, and more. Accessible to students and scholars alike, this groundbreaking reference is essential to collections in political science, international studies, and

journalism and communications.

Johannesburg is severely underrated as a tourist destination. This could be because it has no beaches, no snow-capped mountains, and no ancient buildings. But Johannesburg has something else - it is a cultural and industrial centre, with an enormous array of entertainment events running day and night. Johannesburg is also the scene of the fall of the abominable Apartheid system. So Johannesburg is not only a cultural centre, but it is also politically one of the most significant cities in Africa, and the most economically powerful. Furthermore, the human race evolved in the Johannesburg area. So there are many reasons to visit. This book gives an introduction to South Africa and Johannesburg in particular. It covers all the things to see and visit in Johannesburg and its surrounds. It provides addresses, phone numbers and GPS coordinates of each tourist attraction, so that you can find them easily.

Only a small proportion of the more than 1,100 entries have been retained from the earlier editions and supplements, 1955 to 1983; more publications reflecting social and economic changes in South Africa have been included; and the annotations are more extensive. The main focus is on references such as dictionaries, yearbooks, and encyclopedias, but handbooks, manuals, and histories are cited if no conventional references

exist on the subject. The selection is not limited to books published in South Africa. The arrangement is by broad subject headings following the Dewey Decimal system. The annotations are primarily descriptive, but evaluations creep in now and again. Distributed by Books International. Annotation copyrighted by Book News, Inc., Portland, OR

As South Africa's democracy matures, this book raises pertinent questions: How does the state mediate between traditional tribal authority and constitutional law in matters such as initiation customs or the rights of women, children, and homosexuals? What are the limitations on artistic freedom in a society where sensitivities over colonial- and apartheid-era representations are acute? How does race open up discussions or close down dialogue? and What are the parameters of freedom of speech when minorities fear that hateful language may trigger actual violence against them? Examining disputes over South African art, music, media, editorial cartoons, history, public memory, and a variety of social practices, the culture wars' perspective is extended to new territory in this study, demonstrating its cross-cultural applicability and parsing critical debates within this vibrant society in formation.

"Black Television Travels provides a detailed and insightful view of the roots and routes of the televisual representations of blackness on the transnational media landscape. By following the circulation of black cultural products and their institutionalized discourses—including industry lore, taste cultures, and the multiple stories of black experiences that have and have not made it onto the small screen—Havens complicates discussions of racial representation and exposes possibilities for more expansive representations of blackness while recognizing the limitations of the seemingly liberatory spaces created by globalization." —Bambi Haggins, Associate Professor of Film and Media Studies at Arizona State University "A major achievement that

makes important contributions to the analysis of race, identity, global media, nation, and television production cultures. Discussions of race and television are too often constricted within national boundaries, yet this fantastic book offers a strong, compelling, and utterly refreshing corrective. Read it, assign it, use it.” —Jonathan Gray, author of *Television Entertainment*, *Television Studies*, and *Show Sold Separately* *Black Television Travels* explores the globalization of African American television and the way in which foreign markets, programming strategies, and viewer preferences have influenced portrayals of African Americans on the small screen. Television executives have been notoriously slow to recognize the potential popularity of black characters and themes, both at home and abroad. As American television brokers increasingly seek revenues abroad, their assumptions about saleability and audience perceptions directly influence the global circulation of these programs, as well as their content. *Black Television Travels* aims to reclaim the history of African American television circulation in an effort to correct and counteract this predominant industry lore. Based on interviews with television executives and programmers from around the world, as well as producers in the United States, Havens traces the shift from an era when national television networks often blocked African American television from traveling abroad to the transnational, post-network era of today. While globalization has helped to expand diversity in African American television, particularly in regard to genre, it has also resulted in restrictions, such as in the limited portrayal of African American women in favor of attracting young male demographics across racial and national boundaries. Havens underscores the im-

portance of examining boardroom politics as part of racial discourse in the late modern era, when transnational cultural industries like television are the primary sources for dominant representations of blackness.
