Here is a comprehensive handbook of twenty-two chapters covering all the major issues a counsellor or psychotherapist might meet in the counseling room. The book is very practical and is based on sound psychological principles. It provides a wealth of ideas for counseling and for structuring a series of counseling sessions. It is particularly accessible to the inexperienced counsellor or psychotherapist who is often looking for some guidance on a particular topic without having to read a whole book on the subject or read something more technical. The book covers basic emotional issues such as anger, shame, anxiety, stress, grief, depression, anxiety disorders, and suicide risk, and behavioural issues like addiction, phobias, and compulsive behaviours such as self-harm and obsessive compulsive disorder. There are also chapters on relationship issues such as divorce, abuse of various kinds, dysfunctional relationships, adoption,

blended families, and strategies for couple counseling. There are two chapters on personality disorders. A biblical viewpoint is added at the end of each chapter for the Christian counsellor and pastor. There is an extensive list of about 500 references along with internet references throughout, providing a rich source for further reading. The chapters are mainly independent with minimum cross-referencing.

Since her divorce, people in Lillians life have said such things as Be happy its over, Now you dont have to put up with him anymore, Enjoy being single, I wish I had that type of freedom. Lillian wants to punch these people, as all of these words are bullshit, they dont describe her experience at all. She thought it would be just like any other relationship breakup she had experienced in the past, with the usual feelings of anger, sadness, even heartbreak, eventually simply being able to let go and move on. But here she is, feeling what can best be described as disorientation. Yes, there

are commonalities to a relationship breakup, especially a long-term relationship, but she is much more confused than she had ever been, doesn't know who she is anymore, why she chose this person in the first place, how to be single when she was sure she would spend the rest of her life with the same person. Considering this confusion, Lillian's post-divorce journey includes casual sex-dates, followed by more confusion, digging into her past and childhood for answers, and eventually the decision to attempt healing. Lillian has to find herself, understand her motivations, triggers, fears, insecurities. In short, this process is one, big, fat shit storm. Pride and pretences have to be left behind for Lillian to get in touch with her authentic, messy, and complicated self.

Written by veteran aerospace journalist Bob Ward, who spent years investigating his subject, this biography presents a revealing but even-handed portrait of the father of modern rocketry. As he chronicles Werner von Braun's life, Ward explodes many myths and misconceptions about the controversial genius who was a hero to some, a villain to others. The picture of von Braun that emerges is of a brilliant scientist with limitless curiosity and a drive to achieve his goals at almost any price—from developing the world's first ballistic missile used against the Allies in World War II to helping launch the first U.S. satellite that hurled Americans into space and the Saturn V super-booster that powered them to the moon. Along the way readers are introduced to the human side of this charismatic visionary who brought the United States into the Space Age.

A magazine of tales, travels, essays, and poems.

In keeping with the keen historical insights of his first book, *In Search of the Great White God*, where he probes origins of his childhood religion, Anthony T. Cluff once again reaches back in time to tell stories here of thirty-two boys and men and their journey to manhood. While each story is unique, Cluff says

that the common theme in all is the uncertainty of the journey once it has begun. The outcome can never be foreseen. One young boy's journey ends almost before it begins, another at the doorstep to manhood, while another man's journey has gone on for centuries. In the telling of these stories, Cluff creates a new awareness of the long and unbroken chain that links all of us living today with the boys and men who overcame the challenges of life's journey in the past. Then, as now, the journeys are about courage, heroism, tragedy, defeat, setbacks, and opportunity. There is something here for everyone in these stories, Cluff says, but these stories will have special meaning for young men who are now on their own unique journeys to becoming a man.

How can we meet God in our everyday lives? In *Earth, Our Original Monastery*, Christine Valters Paintner, bestselling author and online abbess for Abbey of the Arts, shares how living contemplatively with an appreciation for the natural world can make you more aware of the presence of God in every aspect of your life. She explores monks, mystics, and saints who have experienced the goodness of the Divine in nature and invites you to find solace and spiritual revelation in the wonder of God's creation. The purpose of contemplative living, Christine Valters Paintner suggests, is to allow you to integrate the pieces of your life within yourself, in your community, and in the world around you. When you pay attention to each moment, you nurture your ability to see God's actions in those moments. In *Earth, Our Original Monastery*, Paintner invites you to begin the journey of contemplative living by focusing on the image of the earth as your original monastery—the place where you learn your most fundamental prayers, participate in each day's liturgy of

praise, and experience the wisdom of the seasons. Paintner provides seven ways of seeing the earth in light of faith and pairs each one with a practical invitation to a practice. These include: the earth as original cathedral—where you first learn to worship and feel God's presence around us, paired with the practice of stability the earth as original saints—plants and animals live their calling without trying to be something they're not and inspire you to do the same, paired with the practice of gratitude the earth as original icon—nature can serve as a window to the holy in the same way that icons do, paired with the practice of lament As you explore what these connections between the earth and faith mean for how to see God in the world around you, you can also look at saints and mystics who experienced nature and the flow of the divine in similar ways.

"What I want to do is code-switch. To have there be layers of history and politics, but also this heady, arty stuff—inside jokes, black humor—that you might have to take a while to re-

search if you want to really get it."—Sanford Biggers Sanford Biggers (b. 1970) is a Harlem-based artist working in various media including painting, sculpture, video, and performance. He describes his practice as "code-switching"—mixing disparate elements to create layers of meaning—to account for his wide-ranging interests. This catalogue focuses on a series of repurposed quilts (many made in the 19th century) that embodies this interest in mixture. Informed by the significance of quilts to the Underground Railroad, Biggers transforms the quilts into new works using materials such as paint, tar, glitter, and charcoal to add his own layers of codes, whether they be historical, political, or purely artistic. Insightful essays survey Biggers's career, his art in relation to music, and the history upon which the series draws. Also featured is a short yet powerful graphic essay by an award-winning illustrator that introduces the layered meanings inherent in the art and craft of quilting.

'It would make the stones cry to hear those on board shrieking' Daniel Buckley, third-class passenger For the first time, in this moving new book, Titanic's passengers and crewmen are permitted to tell the story of that lamentable disaster entirely in their own words. Included are letters, postcards, diary entries and memoirs that were written before, during and immediately after the maiden voyage itself. Many of the pre-sailing documents were composed by people who later lost their lives in the sinking and represent the last communications that these people ever had with their friends and loved ones at home. The subsequent letters and postcards give an unparalleled description of the events that occurred during the five days that Titanic was at sea, and the correspondence by survivors after the tragedy describes the

horror of the disaster itself and the heart-break they experienced at the loss of those they loved. This poignant compilation, by Titanic expert George Behe, also contains brief biographies of the passengers and crewmen ? victims, as well as survivors ? who wrote the documents in question.

The year is 999 A.D. Christians in Europe are preparing themselves for the arrival of the Messiah at the millennium and religious fervour is in the air. Sailing from the North African port of Tangier to a small, distant town called Paris are a Jewish merchant, Ben Attar, his two beloved wives and his Arab partner, Abu Lutfi. They have come for a meeting with their third partner the widower, Raphael Abulafia who has been forced to turn his back on their previous trading partnership because of his new wife's distrust of the dual marriage of Ben Attar. The latter turns this annual trading voyage into a personal quest to legitimise his second wife, restore his honour and, equally important, to show others the richness and humanity in his way of life. A confrontation ensues between people of different cultures whose ways of living and loving are so different, and yet who are of the same religion, believe in the same God and in the same morality. Thus we enter a profound human drama whose moral conflicts of fidelity and desire resonate deeply with our times. A. B. Yehoshua has imaginatively recreated a medieval world with its merchant trade in great depth and sensuous detail. His evocation of one man's love is lyrical, erotic even, and *A Journey to the End of the Millennium* will rank with the best of Yehoshua's work.

Thomas the apostle was a contradiction. He willingly took up the mantle and followed Jesus during his ministry, yet

when called on to take the message to others, he resisted. Questioning another's rationale was in his DNA. However, his path was almost always true, and his goals were honorable. Using church traditions, local history, and various apocryphal writings, this novel is the telling of Thomas's journey to the Indian subcontinent, where the apostle disseminated the teachings of Jesus in a land of unfamiliar customs and ingrained, an-

cient beliefs. The journey was not easy—made all the more complicated by Thomas's own doubts of his abilities. He suffered servitude, imprisonment, a shipwreck, and other life-threatening challenges as he struggled to fulfill his commitment to Christ. Nevertheless, his determination was resolute, and eventually his mission was accomplished. Today, millions of Christians look on Thomas as a cornerstone of their faith.
