NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuro-

science and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

In *Roll Me Up and Smoke Me When I Die*, Willie Nelson muses about his greatest influences and the things that are most important to him, and celebrates the family, friends, and colleagues who have blessed his remarkable journey. Willie riffs on everything, from music to poker, Texas to Nashville, and more. He shares the outlaw wisdom he has acquired over the course of eight decades, along with favorite jokes and insights from family, bandmates, and close friends. Rare family pictures, beautiful artwork created by his son, Micah Nelson, and lyrics to classic songs punctuate these charming and poignant memories. A road journal written in Willie Nelson's inimitable, homespun voice and a fitting tribute to America's greatest traveling bard, *Roll Me Up and Smoke Me When I Die*—introduced by another favorite son of Texas, Kinky Friedman—is a deeply personal look into the heart and soul of a unique man and one of the greatest artists of our time, a songwriter and performer whose legacy will endure for generations to come.

"Listening to the Beat of the Bomb" UPK author Charles Wolfe discusses his work and his new book *Country Music Goes to War* in the *NEW YORK TIMES*. While Toby Keith suggests that Americans should unite in support of the president, the Dixie Chicks assert their right to criticize the current administration and its military pursuits. Country songs about war are nearly as old as the genre itself, and the first gold record in country music went to the 1942 war song "There's a Star Spangled Banner Waving Somewhere" by Elton Britt. The essays in *Country Music Goes to War* demonstrate that country musicians' engagement with significant political and military issues is not strictly a twenty-first-century phenomenon. The contributors examine the output of country musicians responding to America's large-scale confrontation in recent history: World War II, the Korean War, Vietnam, the cold war, September 11, and both conflicts in the Persian Gulf. They address the ways in which country songs and artists have energized public discourse, captured hearts, and inspired millions of minds. Charles K. Wolfe, professor of English and folklore at Middle Tennessee State University, is the author of numerous books and articles on music. James E. Akenson, professor of curriculum and instruction at Tennessee Technological University, is the founder of the International Country Music Conference. Together they have edited the collections *The Women of Country Music*, *Country Music Annual 2000*, *Country Music Annual 2001*, and *Country Music Annual 2002*.

These days Deep Purple's 'Smoke on the Water' is such a ubiquitous rock anthem that it almost seems as if it's been out there forever. Yet the story of how this most famous of metal tracks came into being is shot-through with chance incidents, any one of which could have seen the recording stifled at birth, leaving music writers to scabble about for another "best riff of all time" contender (and five hard-working musicians considerably less well-off.) Fire in the Sky looks in detail at this crucial period in Deep Purple's history and the making of their break-through album 'Machine Head'. The basic fact that a fire destroyed the Montreux Casino during a Frank Zappa concert is well known to most music fans, leaving Deep Purple to find somewhere else to record, but this book brings much new information to light. And although 'Smoke On The Water' was laid down while the Swiss Police hammered at the door of a roller skating rink, the band were then forced to move again, ending up at the Grand Hotel where they built a studio in the corridors using old mattresses and egg cartons for sound-proofing. In the chaos, 'Smoke on the Water' was almost forgotten. The band only roughed it out as something to

play to their Montreux host, Jazz festival organiser Claude Nobs, who told them it was far too good to leave in the can. This book looks back at the events which led up to Deep Purple's bizarre and Heath Robinson-esque 'Machine Head' recording sessions in the winter of 1971. And as for that "hit to be"; 'Smoke On The Water' was not even tried out on stage, and might never have been played live at all were it not for a request from the BBC for a radio session. It went on to sell 12 million copies when issued as a single in 1973 and is probably the only record to ever generate a gold disc presented to a city. And yes, there really is a music shop in London which threatens to fine budding guitarists should they dare to try out the riff in-store. And in these times of economic hardship, isn't it inspiring to know that punitive tax rates back home were responsible for Deep Purple being in Montreux in the first place? The book moves on through 1972 and takes in the subsequent debilitating American tours where 'Machine Head' quickly became a massive selling album, even as the relentless gigging pulled Deep Purple apart. Memorabilia and many rare and unseen photographs illustrate the story, including remarkable images of the Casino fire and aftermath, and Ian Gillan with his notepad writing the lyrics to 'Smoke On The Water' in the studio. Members of the band have spoken, as well as associated crew and studio staff. The music and gigs are covered while appendices include tour dates and a discography, as well as a map showing the sites connected with the recordings. Several myths are also laid to rest: Many fans trekking to Montreux visit the wrong Grand Hotel altogether, while down the road the wealthy owners of luxury apartments sit blithely unaware of the musical history made in their living rooms. During research for this book the authors revisited the site of the recordings in Montreux with bass player Roger Glover to gain a unique insight into the album's history. As a result of this visit locals are preparing a heritage plaque to mark the site.

Make Me, Lisa Stathoplos' searingly honest and dark humored memoir explores how one comes to be. Comes to live in their own skin; exist in their very bones. In 1958 Lisa landed on this earth with a whack and a wail and a highly uncomfortable feeling that she shouldn't be here. Regardless, here she is. Born into a fusion of the French and the Greeks, Lisa's wickedly smart and loving family nurtures her from fussy baby, "moody" child, into a passionate, rebellious young woman. Set in the beauty of Southern

Maine, with a few forays to the Caribbean, the Atlantic shipping lanes and Greece, *Make Me* is both as tempestuous and tranquil as the sea when Lisa takes us on her voyage toward acceptance and authenticity. Her stories of growing up Catholic, coming of age beside the turbulent Atlantic Ocean, discovering dance, her activism and becoming a successful professional actor as well as a fishwife, are fraught, rewarding and often hysterically funny. *Make Me* follows Lisa's memories in and out of chronological time, landing on the significant ones that shaped her most of all. The language is crisply straightforward, hauntingly witty, and emotionally fathomless. *Make Me* is an oceanic ride into Lisa's very soul and should be read by anyone who is becoming who they truly are or has already arrived.

A fascinating account of the music and epic social change of 1973, a defining year for David Bowie, Bruce Springsteen, Pink Floyd, Elton John, the Rolling Stones, Eagles, Elvis Presley, and the former members of The Beatles. 1973 was the year rock hit its peak while splintering—just like the rest of the world. Ziggy Stardust travelled to America in David Bowie's *Aladdin Sane*. The *Dark Side of the Moon* began its epic run on the Billboard charts, inspired by the madness of Pink Floyd's founder, while all four former Beatles scored top ten albums, two hitting #1. FM battled AM, and Motown battled Philly on the charts, as the era of protest soul gave way to disco, while DJ Kool Herc gave birth to hip hop in the Bronx. The glam rock of the New York Dolls and Alice Cooper split into glam metal and punk. Hippies and rednecks made peace in Austin thanks to Willie Nelson, while outlaw country, country rock, and Southern rock each pointed toward modern country. The Allman Brothers, Grateful Dead, and the Band played the largest rock concert to date at Watkins Glen. Led Zep's *Houses of the Holy* reflected the rise of funk and reggae. The singer songwriter movement led by Bob Dylan, Neil Young, and Joni Mitchell flourished at the Troubadour and Max's Kansas City, where Bruce Springsteen and Bob Marley shared bill. Elvis Presley's *Aloha from Hawaii via Satellite* was NBC's top-rated special of the year, while Elton John's albums dominated the number one spot for two and a half months. Just as U.S. involvement in Vietnam drew to a close, *Roe v. Wade* ignited a new phase in the culture war. While the oil crisis imploded the American dream of endless prosperity, and Watergate's walls closed in on Nixon, the music of 1973 both reflected a shattered world and brought us together.

Categorizing Sound addresses the relationship between categories of music and categories of people, particularly how certain ways of organizing sounds becomes integral to how we perceive ourselves and how we feel connected to some people and disconnected from others. In four decades of success, the band led by Tony Iommi has its recognition with classics in the world of metal, such as "Sabbath Bloody Sabbath" and "Paranoid". “Bang your head! Metal Health’ll drive you mad!” — Quiet Riot Like an episode of VH1’s Behind the Music on steroids, Bang Your Head is an epic history of every band and every performer that has proudly worn the Heavy Metal badge. Whether headbanging is your guilty pleasure or you firmly believe that this much-maligned genre has never received the respect it deserves, Bang Your Head is a must-read that pays homage to a music that’s impossible to ignore, especially when being blasted through a sixteen-inch woofer. Charting the genesis of early metal with bands like Black Sabbath and Iron Maiden; the rise of metal to the top of the Billboard charts and heavy MTV rotation featuring the likes of Def Leppard and Metallica; hitting its critical peak with bands like Guns N’ Roses; disgrace during the “hair metal” ’80s; and a demise fueled by the explosion of the Seattle grunge scene and the “alternative” revolution, Bang Your Head is as funny as it is informative and proves once and for all that there is more to metal than sin, sex, and spandex. To write this exhaustive history, David Konow spent three years interviewing the bands, wives, girlfriends, ex-wives, groupies, managers, record company execs, and anyone who was or is a part of the metal scene, including many of the band guys often better known for their escapades and bad behavior than for their musicianship. Nothing is left unsaid in this jaw-dropping, funny, and entertaining chronicle of power ballads, outrageous outfits, big hair, bigger egos, and testosterone-drenched debauchery.

It all started in London. More than fifty years ago, a generation of teens created something that would change the face of music forever. London, Reign Over Me immerses us in the backroom clubs, basement record shops, and late-night faint radio signals of 1960s Britain, where young hopefuls like Peter Dinklage, Dave Davies, and Mick Jagger built off American blues and jazz to form a whole new sound. Author Stephen Tow weaves together original interviews with over ninety musicians and movers-and-shakers of the time to uncover the uniquely British story of classic

rock's birth. Capturing the stark contrast of bursting artistic energy with the blitzkrieg landscape leftover from World War II, London, Reign Over Me reveals why classic rock 'n' roll could only have been born in London. A new sound from a new generation, this music helped spark the most important cultural transformation of the twentieth century. Key interviews include: •Jon Anderson (Yes) •Ian Anderson (Jethro Tull) •Rod Argent (The Zombies) •Chris Barber (Chris Barber Jazz Band) •Joe Boyd (Producer/manager) •Arthur Brown (Crazy World of Arthur Brown) •David Cousins (The Strawbs) •Dave Davies (The Kinks) •Spencer Davis (Spencer Davis Group) •Judy Dyble (Fairport Convention) •Ramblin' Jack Elliott (Solo folk/blues artist) •Peter Frampton (Humble Pie, solo artist) •Roger Glover (Deep Purple) •Steve Howe (Yes) •Neil Innes (Bonzo Dog Band; Monty Python) •Kenney Jones (The Small Faces; The Who) •Greg Lake (King Crimson; Emerson, Lake & Palmer) •Manfred Mann (Manfred Mann) •Terry Marshall (Marshall Amplification) •Dave Mason (Traffic) •Phil May (The Pretty Things) •John Mayall (The Bluesbreakers) •Jim McCarty (The Yardbirds) •Ian McLagan (The Small Faces) •Jacqui McShee (The Pentangle) •Peter Noone (Herman's Hermits) •Carl Palmer (Atomic Rooster; Emerson, Lake & Palmer) •Jan Roberts (Eel Pie Island Documentary Project) •Paul Rodgers (Free) •Peggy Seeger (Solo folk artist) •Hylda Sims (Club owner) •Keith Skues (DJ: Radio Caroline, Radio London, Radio One) •Jeremy Spencer (Fleetwood Mac) •John Steel (The Animals) •Al Stewart (Solo folk artist) •Dick Taylor (The Pretty Things) •Ray Thomas (The Moody Blues) •Richard Thompson (Fairport Convention) •Rick Wakeman (The Strawbs, Yes) •Barrie Wentzell (Photographer: Melody Maker)

Using the framework of Edward Said's Orientalism, this work examines how Western rock and pop artists—particularly during the age of album rock from the 1970s through the 1990s—perpetuated long-held stereotypes of Japan in their direct encounters with the country and in songs and music videos with Japanese content.

All jaws drop when high school track and football star Tyler Spence throws in his helmet and cleats to form Dance Machine a, "white boy," funk band with four fellow classmates. Rising in popularity, the band sets off on a road-trip to a remote corner of their State to play for yet another Sadie Hawkins Dance. Car troubles turn what should have been a simple "gig-n-go" into a two-day ordeal. An unexpected encounter with an old teammate puts conflict into motion for Tyler and his friends when they find themselves at the mercy of the local Sheriff and townsfolk who all agree "they'd never seen boys wearing shoes like those before!" With no way out Tyler is forced to face his rival head-on in a climatic showdown to settle the score. PLATFORMS is a one of a kind, coming-of-age road-trip story with a fun funky vibe making it a timeless classic in the same way the 1970s fashions did for denim, sequins, rainbow knee-socks, and high-heeled shoes, "for men"!
