[The Assault on Intelligence] | C-S-PAN.org

The Assault on Intelligence This book is both excellent and important. Clearly stated, thoroughly researched, fact based statement on the situation we find our country and government in today. A succinct, differentiation between the bluster, defensive over reaction of an executive found wanting of reason and fact based truth.

What's missing from The Assault on Intelligence is the definition of a clear path toward countering a "post-truth" narrative. Since the (very recent) publication of this book, even more significant concerns regarding North Korea, Russia, and Iran have come to light, which demonstrate the volatility and speed with which the national security landscape is changing.

The Assault On Intelligence

The Assault on Intelligence shows us what they are, reveals how crippled we've become in our capacity to address them, and points toward a series of effective responses. Because when we lose our intelligence, literally and figuratively, democracy dies.
