Natural Cures for Cataracts - Earth Clinic

In 1987, Dr. Alan Babizhayev, a Russian researcher, and his colleagues were the first to propose L-carnosine, a form of carnosine, as a possible treatment for cataracts. They developed N-acetylcarnosine eye drops to treat the condition. After the drops were used in human and animal clinical trials, positive results were documented.

NAC Eye Drops Are The “Russian Cataract Cure” Researchers at the Helmholtz Eye Institute in Moscow, Russia, have demonstrated that a unique form of carnosine—n-acetylcarnosine, abbreviated as NAC—which is now available in the form of eye drops, can slowly reverse existing cataracts and prevent new ones from forming.

In clinical trials, this treatment has shown dramatic and impressive results in treating age-related cataracts.The Cataract Cure also covers other associated eye disorders including:GlaucomaMacular DegenerationInfection of the corneaDry eye syndromeComputer vision syndromeEyestrainBlurred visionThe Cataract Cure is an essential resource for those cataract sufferers who are looking for an alternative treatment and want to avoid eye surgery.The answer to curing senile cataract is clear-don't ...

Cataract surgery is a straightforward procedure that usually takes 30 to 45 minutes. It's often carried out as day surgery under local anaesthetic and you should be able to go home on the same day. During the operation, the surgeon will make a tiny cut in your eye to remove the cloudy lens and replace it with a clear plastic one.

NAC Eye Drops Are The “Russian Cataract Cure” - Us Smart ...

In the past, the only treatment available for this chronic condition was painful and potentially dangerous surgery to remove the cataract. Other treatments are now available, specifically, the new Russian breakthrough N-acetylcarnosine. In clinical trials, this treatment has shown dramatic and impressive results in treating age-related cataracts.
