Many children spend their entire school lives struggling with their school work. Research has shown that at least 10-15 per cent of children with apparently normal learning ability will have a significant problem with school learning. They may feel that whatever they do it is not good enough - either for their parents, their teachers or indeed themselves. This can often result in feelings of demoralisation, and even alienation from learning and school. This book aims to address these issues and to help parents understand and deal with them. Dyslexia: A Parents' Guide starts by correcting common misconceptions of learning difficulties that are rife in the press and popular literature, and addresses the conflicting approaches and advice from 'experts'. This authoritative guide then moves through diagnosis - with information on dyslexia, dyspraxia, ADHD, dyscalculia and more - to offering practical and easy tips to enable parents to help their child overcome their learning difficulty. Both authors are practising psychologists with extensive knowledge and experience of children's learning difficulties. They will show parents how to develop a successful approach to assessing and subsequently managing their child's difficulties.

Fully updated with the latest American Academy of Pediatrics recommendations, this award-winning guide offers parents balanced, reassuring information to help them manage this challenging and often misunderstood condition. From the author of the highly successful Maybe You Know My Kid comes a desperately needed follow-up—the first comprehensive guide for dealing with the unique challenges of raising an adolescent with ADHD. Adolescence is a tumultuous turning point for everyone, but for teens with attention deficit hyperactivity disorder, it can be especially challenging, and for some of their parents, downright terrifying. Predictably, stress ensues over inconsistent or poor school performance and over inevitable decisions regarding higher education and life after high school. Adolescents with ADHD get more traffic tickets, have higher school-expulsion and drop-out rates, and are more likely to experiment with alcohol and drugs. Maybe You Know My Teen brims with management strategies for parents new to ADHD as well as those who have coped with it throughout their child's life. Explaining the roots of the disorder clearly and extensively, while discussing situations most likely to cause symptoms to manifest themselves, ADHD authority Mary Fowler presents step-by-step advice, along with in-depth personal stories and first-person advice from leading experts in the field. This is the one-of-a-kind lifesaver thousands have been awaiting.
